FOREWORD BY THE PUBLISHERS

One Cross Word Puzzle Book leads to another.

Now that the second volume, containing a new series of fifty more Cross Word Puzzles, is available, it seems fitting to take the reader behind the scenes and give him a short history of this cross word business.

The first Cross Word Puzzle Book was published on April 10th, 1924. In New York it sprang into immediate popularity, becoming there a best seller within a fortnight. A small but ardent group of cross word puzzle devotees gave the fad a running start. Among these pioneers may be mentioned F. P. A., Montague Glass, Neysa McMein, Emily Price Post, Baird Leonard, Ruth Hale, Gelett Burgess, Robert C. Benchley, Hendrik Willem Van Loon, Kathleen and Charles G. Norris, Mary Roberts Rinehart, and Carolyn Wells.

Cross word puzzling became the thing to do, the raging topic of conversation, supplanting Coué, Mah Jong, and Bananas (first a slogan—now a fact!). With this impetus, the pastime's popularity radiated to other cities, and within a month the Cross Word Puzzle Book was ranked No. 4 on the national list of non-fiction best sellers. Three weeks later it advanced to third place, and the following month jumped into the lead, where it appears to remain indefinitely.

First a fad, then a best seller, the Cross Word Puzzle Book became an American institution, immortalized in cartoons by Briggs, prose-

epics by Bob Benchley, and ballads by F. P. A. [2]

Ordinary books are meant to be *read*. Here is a book in which one *writes*—more than that, a book in which one has the supreme satisfaction of unravelling a real mystery, tracking down clue after clue. This, no doubt, is the secret of the irresistible fascination of Cross Word Puzzling. Every one enjoys being an amateur Sherlock Holmes—and the tantalizing black-and-white word patterns provide an ideal battle-ground for one’s detective instincts.

This deep-rooted appeal explains the extraordinary popularity of the book. When we announced in one of our early advertisements that “people do not want this book—they crave it!” we had actual proof to support this statement—frenzied fans storming the publishers’ office to get extra copies in order “to keep peace in the house.”

Six weeks after the publication of the first Cross Word Puzzle Book—May 18th, to be precise—the Cross Word Puzzle Association of America was formed at a convention at the Hotel Ambassador, New York. At this congress the rules and regulations of Cross Word Puzzling were formulated. A contest for the cross word puzzle championship of the world was held, and William A. Stern II won first honors, solving a standard eleven-square formation in 10 minutes, 10 and two-fifths seconds. Mr. Stern has written a preface for this book, explaining the delights of cross word puzzling, for both novice and veteran.

Thus, in the words of Neal O’Hara, America began to gasp for words. The Cross Word Puzzle became the Great Escape from Boredom—the most powerful enemy of ennui....

Not only entertainment and thrills, but sound instruction [3]reward the true Cross Word Puzzler. Here is the most delightful and the most effective way of building up one's vocabulary and enriching one's general fund of information. Dictionaries and synonym books joined the best seller list, right behind The Cross Word Puzzle Book itself, for every one, to obtain the maximum benefit and fun, must have a dictionary or a word book handy.

The pencil and eraser provided with The Cross Word Puzzle Book proved to be a most popular feature. Post cards for applying for the correct answers to the puzzles also pleased the followers of the pastime. This equipment, therefore, is retained in the Second Series. The suggestion has been made that future editions of the book be equipped with shock-absorbers and four-wheel brakes.

Thousands of puzzle enthusiasts have indicated their eagerness for this second series of cross words. This book, like the first volume, is edited and compiled by the Cross Word Puzzle Editors of the *New York World*, the undisputed leaders of the gentle art. Every effort has been made to safeguard the technical perfection of the puzzles. This time they are arranged in the order of their difficulty, beginning with fairly easy ones, and ranging to the most intricate formations, calculated to baffle Houdini himself. Beauty of design, accuracy of definition, complete interlock, and the minimum number of unkeyed letters—these elements have all been considered in selecting the puzzles. We are confident that they will prove as absorbing, as entertaining,—yes, as exciting,—as the first fifty.

The Publishers. [5]

[\[Contents\]](#)

PREFACE

*By WILLIAM A. STERN, 2nd Cross Word Puzzle Champion of the
World*

Two years ago I saw a friend of mine earnestly studying a checkered diagram in the magazine section of a Sunday newspaper. Curiosity impelled me to ask him whether he had taken up cross-stitching, because the pattern he so zealously pored over resembled closely that of an old-fashioned sampler. When he explained that he was attempting to solve a puzzle I laughed, because in my ignorance I believed that puzzles were childish time-wasters. I snorted my disdain at this sort of balderdash and, angered, he challenged me to try my hand at it.

I confidently predicted that I would easily solve the foolish enigma and after he had explained the manner of solution I set to work. A few minutes later I started asking questions. What was one supposed to do? My friend explained a second time and I was all at sea. Finally I understood what to do, but was shaky on how to do it. I finished that puzzle the next day. I gave little thought to food and rest; in the end I triumphed.

Since that time I have solved many cross word puzzles but on none have I consumed as much time as on that first heart-breaker. I used to blame my slowness on the fact that the method was never properly explained, but I now believe that my friend who gave me my first cross word baptism was an adequate instructor. The chief

difficulty which the uninitiate [6] meets lies in the struggle to concentrate on the explanation. In their simplest terms here are the rules and technique of cross word puzzling:

The primary object of the game is to fill up the blank spaces in a cross word design with letters which spell out words. The solver guesses the words from their definitions. By looking at a pattern we can tell how many letters are in a word to be guessed. Suppose, for example, you were asked for a six letter word meaning *unsteady*. You would go through all the synonyms for unsteady that you could recall. You would discard *unstable*, *shaky*, *tipsy*, *tottering* and *rocky* because none of these words has the proper number of letters. You would accept *groggy* or *fickle*. Now apply this system to the solution of a puzzle.

The definitions of the words are shown in two divisions: one division is captioned Horizontal, the other *Vertical*. Before each definition is a number which indicates that the word defined has its first letter in the square of the same number on the pattern. For example, in the puzzle on the jacket of this book (which is Number 1 in the book itself), we see under Horizontal, "1. stout." This means that the word is read horizontally and starts in the space numbered "1" on the pattern. The answer is "plump."

A word always runs from its first letter to a black square or to the end of the diagram. Having the word "plump" written in, we now have hints of a certain letter in each of four other words, because each of the letters in this word, except the letter "L," is used to form a word which is read downwards. Under the heading *Vertical* may be found the definitions of the words which read downwards. So we see that the letters in *plump* are used in the words *prove*, *up*, *map*, and *plant*. The letter "L" is called in cross word parlance [7]an

unkeyed letter because it does not give the solver a key to another word. Well constructed puzzles have few unkeyed letters. You will notice also that all the words in the puzzle are joined together or interlocked so that after guessing the first word the solver may decode the entire puzzle without once being minus a hint of some sort.

I do not mean to infer that these puzzles must be so constructed that the solver has a simple task. An object of crosswording is to puzzle, but fairness to a hard working puzzler dictates certain laws for the designer to follow. The first of these laws is the all-over interlock. The second is that in obsolete, rare, and unfamiliar words no letter should be unkeyed.

And now a few words as to technique. Of course I prefer my own method to any other, but I do not claim for it greater merit than the systems I will tell you about. When I get a puzzle to solve, my first move is to read all the definitions. Among these I am sure to find some familiar and overworked words which I can set into place and be off to a flying start. Certain simple three letter words such as *bog*, *fen*, *pen*, *boa*, *emu*, and *roc*, and other words in which vowels pre-dominate such as *opera* and *arena* are used in hundreds of puzzles. I get these out of the way in short order. My next move is to start working on that part of the puzzle where I have filled in the largest number of words, because it is there that I have the greatest number of hints. If I strike a snag I immediately take up my work in some other place. And so I work my way around to completion.

Some people obtain excellent results by another method. They first do all the horizontal words which quickly come to [8]mind. And then all the vertical. Thus they get an excellent start from which to

work. Some solvers use the system of building up from the first word which they can guess.

Just a few words of warning:

First—Beware of putting in certain words whose definitions do not accurately define. Parts of the verb “to be,” personal pronouns, exclamations, notes of the scale, prefixes, suffixes and prepositions should not be filled in unless an interlocking word gives you a hint as to what they are. They are so numerous that without a hint it is futile to attempt to guess them.

Second—Beware of homonyms. A homonym is two words which have the same sound, but have different meanings. The best illustration of a homonym appeared in F. P. A.’s column, the Conning Tower, a few years ago. According to my feeble memory the sentence ran, “If I should say that you are prone to carp, I would not mean that you are lying face downward to a deep sea fish.” How often does the solver struggle over such a definition as “light,” believing all the while that he must find a word meaning an illuminant, when the correct word is “airy”!

Third—Beware of sloppy printing and careless erasing. When you write in a word, letter neatly. Do not make a P look like an R. And when you find it necessary to erase be sure to obliterate every letter. Dangling characters which rubber crumbs have failed to pick up have cost so many wasted hours that experts in efficiency have taken up the matter in executive session.

Whatever method you employ or whatever mistakes you make, you will reap pleasure and profit for your time. You [9]will increase your

vocabulary, give yourself mental discipline, and, above all, you'll have fun.

I want to thank the Plaza Publishing Company, whose real name is Simon and Schuster, for its work in getting out these Cross Word Puzzle Books. Most of the puzzles are of the first rank and the variety of design is amazing. In fact I feel so kindly toward the publishers that I do not upbraid them for the time they made me lose by a few errata in the first edition, which they promptly corrected in the later editions. I can heartily congratulate any owner of this Cross Word Puzzle Book and all the Cross Word Puzzle Books to follow on the days of real pleasure that lie before him.

WILLIAM A. STERN, 2ND.

New York City, June, 1924. [\[10\]](#)

HOW TO SOLVE A CROSS WORD PUZZLE

EXAMPLE

FIG. 1

DEFINITIONS

Horizontal

Disparage	Skill 11
Cereal 6	Behold 12
Abbr. Vice Admiral	Prefix 14
An edge 9	Impair 15
Urge 10	Agreement 17

Vertical

Evolve 1	Gone 8
----------	--------

Toward 2
 A rodeo 3
 Near 4
 A web 5

A land measure 9
 A male sheep 13
 Indeed 15
 Disordered type 16

There are two essential points that must be remembered by initiates into the cross word puzzlers' fraternity. First, the numbers in the squares refer to the definitions; secondly, there should be but one letter to each white square.

Figure 1 shows a cross word puzzle challenging each and every one of us to solve it. Looking the puzzle over we find that 1 horizontal calls for a seven letter word meaning "disparage." That is not so easy, so we leave it temporarily. We go on to the next one, which is a three letter word meaning "a cereal grass." What else could it be but OAT? Therefore we ink in OAT in the proper squares. "Vice Admiral." That most assuredly must be VA. We place that into position. The ninth, tenth and eleventh do not come to our minds immediately, so we pass them up. We will catch them on the cross check. Twelve is familiar, however, and with a little thought we place LO in the vacant squares. The rest do not come to us, so we leave them also, and turn to the verticals. [11]

FIG. 2

Looking over the diagram (See Figure 2) we find that one vertical calls for a seven letter word whose third and fifth letters are V and L respectively and which is defined as “evolve.” The V and the L give us the clue. The word is DEVELOP. We place it in the diagram. Two, three and four are easy, for we have three clues to work on and we find the proper words without much difficulty. The next one is beyond us, so we go on to the one numbered 8. We find that a three letter word—starting with A—meaning “gone by,” is needed. The clues of A and O enable us to get that without much trouble, and we place AGO in the square. We pass by nine, but thirteen is easy. “A male sheep?” Why, of course, the word is RAM.

1 <i>D</i>		2 <i>T</i>	3 <i>R</i>	4 <i>A</i>	5
<i>E</i>		6 <i>O</i>	<i>A</i>	<i>T</i>	
7 <i>V</i>	8 <i>A</i>		<i>T</i>		9
10 <i>E</i>	<i>G</i>			11	
12 <i>L</i>	<i>O</i>		13 <i>R</i>		14
<i>O</i>		15	<i>A</i>	16	
17 <i>P</i>			<i>M</i>		

FIG. 3

From now on the going is easy. We have plenty of clues to the words that we do not know. (See Figure 3.) Rechecking the horizontals, we find that we have the first, third, fourth and fifth letters of “disparage,” and with their aid we easily see that the word is DETRACT. Looking for a two letter word meaning “an edge-tool,” we soon find that there is but one word that will fit. We place AX in position. With nine vertical beginning with an A it is easy to find that ARE is the proper word. Ten horizontal [\[12\]](#) proves to be

EGG and eleven becomes ART. We say to ourselves that if we could only get five vertical we would have the puzzle solved. Well, why not? Is the second letter an a, e, i, o, or u? The definition gives it as “a web.” What word will fit but TEXTURE? We place that into position. Now, we find that we have the puzzle almost completed. Fifteen horizontal needs a three letter word meaning “impair.” Its middle letter must be an A. With the A to guide us that is simple. The word is “SAP.” Fifteen and sixteen being two letter words are easily found, and we place SO and PI into position. We now find that we have the puzzle completed with one exception. Seventeen horizontal has to be found. Its first, third, fourth, fifth and seventh letters are P OMI E. A consonant is needed for the second letter, and R seems to be the most logical choice. That gives us the word, which is defined as “agreement.” (See Figure 4.)

1	D	E	2	T	3	R	4	A	C	5	T
	E		6	O	A	T				E	
7	V	8	A		T			9	A	X	
10	E	G	G			11	A	R	T		
12	L	O		13	R			14	E	U	
	O		15	S	A	16	P			R	
17	P	R	O	M	I	S	E				

FIG. 4

We settle back into our chair with a sigh of content at the thought of a job well done. But that is not the finish. Rather it is but the start. Now that we have tasted the pleasures of cross word puzzling, we are loath to give our time to anything else. What other amusement offers the pleasure, instruction and satisfaction that is to be found in Cross Word Puzzles? There is but one answer to that

question, and—foregoing the movies—we settle down to the elusive task of tracking words to their lairs. [\[13\]](#)

[\[Contents\]](#)

DO'S AND DON'T'S FOR SOLVERS

Don't get scared if you can't guess the first horizontal word. Go through the list till you find a definition that you're sure of. That is the simplest method of beginning the solution. When you have written in all the words you are sure of, you will have plenty of clues for the unknowns.

Don't spent too much time with the long words unless you are sure of them. They will appear when the short ones have been solved. Of course, not all the short ones are easy, but they are generally more readily attended to than the long ones. Also, there are more of them, increasing the chances of finding familiar faces among the definitions.

If you think a word is right, pencil it in lightly till you are sure. This saves erosion of paper and temper. But never hesitate to try a word that may be right. The trial and error method holds in puzzling as it does in life.

Remember that the horizontals furnish a sure check on the verticals, and vice versa.

If you are hopelessly stuck, try another puzzle. Inspiration sometimes waits for a return engagement.

A pleasant feeling of something attempted, something done, accompanies the solution of a cross word puzzle. It's good for the inferiority complex. [\[15\]](#)

PUZZLE No. 57

SEVEN GREEK CROSSES

By JOHN B. SIRICH, JR.

We counted the half-crosses to make up Mr. Sirich's grand total. Please note: no unkeyed letters, no abbreviations or contractions, and comparatively few two- and three-letter words. Also double interlock throughout. Io triumphhe!

PUZZLE No. 58

BOOLA BOOLA

By *HASSLER WHITNEY*

Considering how often the convenient “eli” finds its way into Cross Words, it is quite right to include this puzzle from New Haven. It is undoubtedly meant for freshmen, for despite a loose center and several unkeyed letters it shouldn’t be too difficult.

PUZZLE No. 59

AT EASE

By JOHN FASEL

If you are angry and want something to fight with, don't try this one. It won't give you much of a wrestle—that is, if you are one of those hard-boiled solvers. But if you haven't reached the state of complete addiction, or if you merely want a fillip, Mr. Fasel's construction will please you.

PUZZLE No. 62

PLAN OF CAMPAIGN

By MORDECAI M. RICHTER

This looks like the plan of a fortress. Like a fortress of the true medieval type it has four massive corner ramparts, towers, battlements. The enemy might be tempted to pierce those thin side indentations, but remember the military strategy about the danger of getting into pockets and being trapped.

PUZZLE No. 67

A STAID FORM

By CHARLES ERLINKOTTER

This plot of crosses and dots looks safe and conservative. There are, however, several perfectly good English words that will give you a thrill. By strange coincidence, this odd pattern was used by another contributor and will be found elsewhere in the book. A comparison of the two puzzles will be interesting.

PUZZLE No. 68

A FLOCK OF TWO-SPOTS

By *PERSEPHONE*

An eye for efficiency as well as beauty constructed this one. Trust the ladies to see the possibilities in simple effects! And the words are very much present, too. A good one to try your hand on if you think you're good.

PUZZLE No. 69

LOOSELY WOVEN

By JOHN BOYAJY

The warp and weft of this one are not drawn too tightly together. If the puzzle has a fault, it is in the abundance of black squares, but the neat interlock saves it. Rather easy for the adept, and not an undue tax on the novice.

PUZZLE No. 70

A STUDY IN CROSSES

By DANIEL O'LEARY

Funny how often you find crosses in cross word puzzles. There are several meanings to that. You will observe Maltese crosses in Mr. O'Leary's construction, and it isn't hard enough to make you cross.

PUZZLE No. 71

WATCH THE LOWER LEFT HAND CORNER

By MARCAM

One of the editors, being tempted to solve this one in the proof, found it smooth, consistent sailing throughout, save in the lower left hand corner. This section probably isn't hard at all. Wonder how you will find it. You know how a pair of absurdly easy words will stump you now and then.

PUZZLE No. 73

MY SECOND AND LAST

By JOSEPH A. MARGOLIES

“This is my second and last,” writes J. A. M. “Too absorbing. Leaves no time to read.” We don’t believe J. A. M. He underestimates the frailty of the human soul where cross word puzzles are concerned. He’ll be at it with ruled paper and pencil again, and then he’ll swear off again.

PUZZLE No. 77

TRY THEM OVER IN YOUR DAILY CHAT

By IRVAN NECKERMAN

There are several dozen words in this puzzle that you can use and your best girl won't know what you are talking about. This is not misogyny. It merely supposes that she does not follow cross word puzzling. Or maybe that is misogyny.

PUZZLE No. 79

WEDDING RING

By MIL-WAL

The contributors of this construction are husband and wife. This fact is symbolized by the wedding ring you see in the middle of the form. Cross-grained cross worders may complain that the ring is not a solid mass of words. Well, is a ring ever a solid mass?

PUZZLE No. 82

THIRD-RAIL CROSSOVER

By I. S. O.

A fine double-cross study in four-letter words. The occasional abbreviation does not mar the general effect. The lateral wedge-masses key well with the central cross. Altogether a nice construction.

PUZZLE No. 85

DIRTY WORK AT THE CROSS WORDS

By NEOPHYTE

Perhaps you agonized over Neophyte’s creation in the First Series. Here’s its mate. Neophyte, being a hardened veteran of the cryptic art, must have heard the groans from the breasts of puzzlers poring over his brain buster. And he gloated and went at his fell work again. However, this one is a little easier than the other.

PUZZLE No. 86

HEY, THERE!

By NEOPHYTE

Dear Neophyte: Whaddaye mean by those two bare, indecently naked words, each with three unkeyed letters? An expert like you? However, you tried too hard to keep it down to the level of ordinary mankind and restrained yourself from so many outlandish words that you are addicted to—that, we believe, the puzzlers will forgive you.

PUZZLE No. 87

SPOT

By *IRVAN NECKERMAN*

The blacks strewn negligently over the form give it an informal look, different from those forms that are studiously ornamental and almost forbidding in the courtly, mannered preciseness. However, Mr. Neckerman’s construction may make you knit your brows now and then.

PUZZLE No. 88

CENTRIFUGAL

By *MINERVA*

Look at this with your eyes half closed and get the effect of rotary motion. Then try and solve it, and see if the rotary motion doesn't transmit itself to your head. Plenty of short words, but not all of them easy, and the long ones—but go ahead!

PUZZLE No. 93

IN THE CLOVER PATCH

By MINERVA

A splendid construction, particularly in its avoidance of the bane of puzzlers—the loose center. Minerva has not hesitated to call upon the deeps of the dictionary for her words; there are some old favorites in the patch, of course, but also some interlopers that will serve to keep your interest for some time.

PUZZLE No. 95

MODERATION

By PORTER R. LEE

Never too much of anything is the slogan of this constructor. He gives you a puzzle of moderate difficulty, but a set of easy words and then a terror hidden among them like a serpent in the grass. The puzzle runs its way at an even tenor, like an honest man's life.

PUZZLE No. 96

JUST FOR TWO!

By CHARLEY CINDERCLASS and STONEY LONESOME

These two contributors send in Cross Words by the dozen, so you can imagine what splendid vocabularies they must have. This is one of their best, and it's not an easy one, either.

PUZZLE No. 98

A NINE-CELLED HIVE

By *EDITH S. ISEMAN*

There is plenty of verbal honey in the nine divisions of this construction, and your search is not likely to result in any stings. The central interlock, perhaps, might be improved upon, but there! We have built puzzles ourselves, and know what the constructor is up against.

HORIZONTAL

Bribery	1	Unit 62	square measure

PUZZLE No. 100

A HARD NUT TO CRACK

By J. T. D.

Get out nutcracker, hammer, tongs and poker, for there are words in here that the English language doesn't know it owns. J. T. D. is absolutely ruthless when it comes to cornering the odd and unusual word, and the unheard-of definition. This puzzle is included especially to show you to what lengths the innocent Cross Word can go when it tries.

145			146				147					148					149		150				
	151						152					153					154

WHY NOT GIVE A CROSS WORD PUZZLE PARTY?

The puzzles in this book may be obtained separately on stiff cardboard. Several copies of the same puzzle are ideal for a party.

In solving the puzzles in this book, you may possibly have thought it good fun to stage a Cross Word Puzzle Party. Heretofore, this called for one copy of The Cross Word Puzzle Book for each person. But this is rather expensive, unless you plan to give a great many parties.

Responding to a general request, therefore, we are reprinting each of the fifty puzzles in this book *separately* on stiff boards. In other words, every one at a party can now have his own puzzle, and a contest can be arranged to see who will be the first to turn in a perfect solution.

This was first done at the Cross Word Puzzle Convention held at the Ambassador Hotel, New York, on May 18, 1924. Everybody there agreed that it was an intensely exciting and enjoyable party. A contest of this sort can be made really thrilling by scoring each contestant's time with a stop-watch and noting the number of errors. The winner is the first person turning in a 100 per cent correct solution.

The price per puzzle (diagram and definitions) printed on stiff board (so that you won't have to lean on a book or table) is ten cents. Each puzzle comes in an individually sealed envelope. You may order as many or as few as you require

for your party. Merely name the number of the puzzle (or puzzles) you wish, referring to the numbers in this book, and state the quantity of each. Send ten cents for each copy you order. They will be sent to you post-paid. They may be had only direct from the publishers.

If you believe that the people for whom you are planning the party have already done the puzzles in the Cross Word Puzzle Book, we can supply you with copies of 3 new puzzles specially constructed for parties, and not published anywhere. Ask for Puzzle A (easy); Puzzle B (medium); Puzzle C (hard). Price the same: ten cents for each card in a sealed envelope.

With each order for ten or more cards we shall send you five blank Cross Word diagrams, so that you and your friends may have the fun of constructing your own Cross Word puzzles.

We guarantee that your Cross Word Puzzle Party will be a huge success from every standpoint.

Whether or not you have a definite party in mind, we suggest that you order some of these puzzle-cards at once. You will appreciate having them on hand for one of those informal occasions when friends drop in. Many people have found that Cross Word Puzzle Parties are giving them more delightful entertainment than Bridge or Mah Jong. Send in your order to-day to

*** END OF THE PROJECT GUTENBERG EBOOK THE
CROSS WORD PUZZLE BOOK: SECOND SERIES ***

Updated editions will replace the previous one—the old editions will be renamed.

Creating the works from print editions not protected by U.S. copyright law means that no one owns a United States copyright in these works, so the Foundation (and you!) can copy and distribute it in the United States without permission and without paying copyright royalties. Special rules, set forth in the General Terms of Use part of this license, apply to copying and distributing Project Gutenberg™ electronic works to protect the PROJECT GUTENBERG™ concept and trademark. Project Gutenberg is a registered trademark, and may not be used if you charge for an eBook, except by following the terms of the trademark license, including paying royalties for use of the Project Gutenberg trademark. If you do not charge anything for copies of this eBook, complying with the trademark license is very easy. You may use this eBook for nearly any purpose such as creation of derivative works, reports, performances and research. Project Gutenberg eBooks may be modified and printed and given away—you may do practically ANYTHING in the United States with eBooks not protected by U.S. copyright law. Redistribution is subject to the trademark license, especially commercial redistribution.

START: FULL LICENSE

THE FULL PROJECT GUTENBERG™ LICENSE

PLEASE READ THIS BEFORE YOU DISTRIBUTE OR
USE THIS WORK

To protect the Project Gutenberg™ mission of promoting the free distribution of electronic works, by using or distributing this work (or any other work associated in any way with the phrase “Project Gutenberg”), you agree to comply with all the terms of the Full Project Gutenberg License available with this file or online at www.gutenberg.org/license.

Section 1. General Terms of Use and Redistributing Project Gutenberg electronic works

1.A. By reading or using any part of this Project Gutenberg electronic work, you indicate that you have read, understand, agree to and accept all the terms of this license and intellectual property (trademark/copyright) agreement. If you do not agree to abide by all the terms of this agreement, you must cease using and return or destroy all copies of Project Gutenberg electronic works in your possession. If you paid a fee for obtaining a copy of or access to a Project Gutenberg electronic work and you do not agree to be bound by the terms of this agreement, you may obtain a refund from the person or entity to whom you paid the fee as set forth in paragraph 1.E.8.

1.B. “Project Gutenberg” is a registered trademark. It may only be used on or associated in any way with an electronic

work by people who agree to be bound by the terms of this agreement. There are a few things that you can do with most Project Gutenberg electronic works even without complying with the full terms of this agreement. See paragraph 1.C below. There are a lot of things you can do with Project Gutenberg electronic works if you follow the terms of this agreement and help preserve free future access to Project Gutenberg electronic works. See paragraph 1.E below.

1.C. The Project Gutenberg Literary Archive Foundation (“the Foundation” or PGLAF), owns a compilation copyright in the collection of Project Gutenberg electronic works. Nearly all the individual works in the collection are in the public domain in the United States. If an individual work is unprotected by copyright law in the United States and you are located in the United States, we do not claim a right to prevent you from copying, distributing, performing, displaying or creating derivative works based on the work as long as all references to Project Gutenberg are removed. Of course, we hope that you will support the Project Gutenberg mission of promoting free access to electronic works by freely sharing Project Gutenberg works in compliance with the terms of this agreement for keeping the Project Gutenberg name associated with the work. You can easily comply with the terms of this agreement by keeping this work in the same format with its attached full Project Gutenberg License when you share it without charge with others.

1.D. The copyright laws of the place where you are located also govern what you can do with this work. Copyright laws in most countries are in a constant state of change. If you are outside the United States, check the laws of your country in

addition to the terms of this agreement before downloading, copying, displaying, performing, distributing or creating derivative works based on this work or any other Project Gutenberg work. The Foundation makes no representations concerning the copyright status of any work in any country other than the United States.

1.E. Unless you have removed all references to Project Gutenberg:

1.E.1. The following sentence, with active links to, or other immediate access to, the full Project Gutenberg License must appear prominently whenever any copy of a Project Gutenberg work (any work on which the phrase “Project Gutenberg” appears, or with which the phrase “Project Gutenberg” is associated) is accessed, displayed, performed, viewed, copied or distributed:

This eBook is for the use of anyone anywhere in the United States and most other parts of the world at no cost and with almost no restrictions whatsoever. You may copy it, give it away or re-use it under the terms of the Project Gutenberg™ License included with this eBook or online at www.gutenberg.org. If you are not located in the United States, you will have to check the laws of the country where you are located before using this eBook.

1.E.2. If an individual Project Gutenberg electronic work is derived from texts not protected by U.S. copyright law (does not contain a notice indicating that it is posted with permission

of the copyright holder), the work can be copied and distributed to anyone in the United States without paying any fees or charges. If you are redistributing or providing access to a work with the phrase “Project Gutenberg” associated with or appearing on the work, you must comply either with the requirements of paragraphs 1.E.1 through 1.E.7 or obtain permission for the use of the work and the Project Gutenberg trademark as set forth in paragraphs 1.E.8 or 1.E.9.

1.E.3. If an individual Project Gutenberg electronic work is posted with the permission of the copyright holder, your use and distribution must comply with both paragraphs 1.E.1 through 1.E.7 and any additional terms imposed by the copyright holder. Additional terms will be linked to the Project Gutenberg License for all works posted with the permission of the copyright holder found at the beginning of this work.

1.E.4. Do not unlink or detach or remove the full Project Gutenberg License terms from this work, or any files containing a part of this work or any other work associated with Project Gutenberg.

1.E.5. Do not copy, display, perform, distribute or redistribute this electronic work, or any part of this electronic work, without prominently displaying the sentence set forth in paragraph 1.E.1 with active links or immediate access to the full terms of the Project Gutenberg License.

1.E.6. You may convert to and distribute this work in any binary, compressed, marked up, nonproprietary or proprietary form, including any word processing or hypertext form. However, if you provide access to or distribute copies of a

Project Gutenberg work in a format other than “Plain Vanilla ASCII” or other format used in the official version posted on the official Project Gutenberg website (www.gutenberg.org), you must, at no additional cost, fee or expense to the user, provide a copy, a means of exporting a copy, or a means of obtaining a copy upon request, of the work in its original “Plain Vanilla ASCII” or other form. Any alternate format must include the full Project Gutenberg License as specified in paragraph 1.E.1.

1.E.7. Do not charge a fee for access to, viewing, displaying, performing, copying or distributing any Project Gutenberg works unless you comply with paragraph 1.E.8 or 1.E.9.

1.E.8. You may charge a reasonable fee for copies of or providing access to or distributing Project Gutenberg electronic works provided that:

- You pay a royalty fee of 20% of the gross profits you derive from the use of Project Gutenberg works calculated using the method you already use to calculate your applicable taxes. The fee is owed to the owner of the Project Gutenberg trademark, but he has agreed to donate royalties under this paragraph to the Project Gutenberg Literary Archive Foundation. Royalty payments must be paid within 60 days following each date on which you prepare (or are legally required to prepare) your periodic tax returns. Royalty payments should be clearly marked as such and sent to the Project Gutenberg Literary Archive Foundation at the address specified in Section 4, “Information about donations to the Project Gutenberg Literary Archive Foundation.”
- You provide a full refund of any money paid by a user who notifies you in writing (or by e-mail) within 30 days of receipt that s/he does not agree to the terms of the full Project Gutenberg™ License. You must require such a user to return or destroy all copies of the works

possessed in a physical medium and discontinue all use of and all access to other copies of Project Gutenberg™ works.

- You provide, in accordance with paragraph 1.F.3, a full refund of any money paid for a work or a replacement copy, if a defect in the electronic work is discovered and reported to you within 90 days of receipt of the work.
- You comply with all other terms of this agreement for free distribution of Project Gutenberg™ works.

1.E.9. If you wish to charge a fee or distribute a Project Gutenberg™ electronic work or group of works on different terms than are set forth in this agreement, you must obtain permission in writing from the Project Gutenberg Literary Archive Foundation, the manager of the Project Gutenberg™ trademark. Contact the Foundation as set forth in Section 3 below.

1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread works not protected by U.S. copyright law in creating the Project Gutenberg™ collection. Despite these efforts, Project Gutenberg™ electronic works, and the medium on which they may be stored, may contain “Defects,” such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

1.F.2. LIMITED WARRANTY, DISCLAIMER OF DAMAGES - Except for the “Right of Replacement or Refund” described in paragraph 1.F.3, the Project Gutenberg Literary Archive Foundation, the owner of the Project Gutenberg™ trademark, and any other party distributing a Project Gutenberg™ electronic work under this agreement, disclaim all liability to you for damages, costs and expenses, including legal fees. YOU AGREE THAT YOU HAVE NO REMEDIES FOR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTY OR BREACH OF CONTRACT EXCEPT THOSE PROVIDED IN PARAGRAPH 1.F.3. YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

1.F.3. LIMITED RIGHT OF REPLACEMENT OR REFUND - If you discover a defect in this electronic work within 90 days of receiving it, you can receive a refund of the money (if any) you paid for it by sending a written explanation to the person you received the work from. If you received the work on a physical medium, you must return the medium with your written explanation. The person or entity that provided you with the defective work may elect to provide a replacement copy in lieu of a refund. If you received the work electronically, the person or entity providing it to you may choose to give you a second opportunity to receive the work electronically in lieu of a refund. If the second copy is also

defective, you may demand a refund in writing without further opportunities to fix the problem.

1.F.4. Except for the limited right of replacement or refund set forth in paragraph 1.F.3, this work is provided to you ‘AS-IS’, WITH NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of certain types of damages. If any disclaimer or limitation set forth in this agreement violates the law of the state applicable to this agreement, the agreement shall be interpreted to make the maximum disclaimer or limitation permitted by the applicable state law. The invalidity or unenforceability of any provision of this agreement shall not void the remaining provisions.

1.F.6. INDEMNITY - You agree to indemnify and hold the Foundation, the trademark owner, any agent or employee of the Foundation, anyone providing copies of Project Gutenberg™ electronic works in accordance with this agreement, and any volunteers associated with the production, promotion and distribution of Project Gutenberg™ electronic works, harmless from all liability, costs and expenses, including legal fees, that arise directly or indirectly from any of the following which you do or cause to occur: (a) distribution of this or any Project Gutenberg work, (b) alteration, modification, or additions or deletions to any Project Gutenberg work, and (c) any Defect you cause.

Section 2. Information about the Mission of Project Gutenberg

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non-profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Contributions to the Project Gutenberg Literary Archive Foundation are tax

deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's business office is located at 41 Watchung Plaza #516, Montclair NJ 07042, USA, +1 (862) 621-9288. Email contact links and up to date contact information can be found at the Foundation's website and official page at www.gutenberg.org/contact

Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit www.gutenberg.org/donate.

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit:
www.gutenberg.org/donate.

Section 5. General Information About Project Gutenberg electronic works

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our website which has the main PG search facility: www.gutenberg.org.

This website includes information about Project Gutenberg, including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.
