MOLASSES

Molasses, a product of sugar cane, is a part of the American tradition and has graced American tables since the days of the first colonists. It played a very important role in the building up of the early commerce of Colonial New England where it was and still is considered an everyday food. In this part of the country, the molasses jug is as commonplace as the salt and pepper shaker.

The wise buyer who wants the best of all molasses for every purpose will study the many grades of molasses now on the market. These grades range all the way from top-quality products with a smooth, rich, mellow flavor, down to blackstrap, a low quality with a bitter “black” flavor.

The finest molasses is produced in the British West Indies where the production of molasses is a major industry and is closely supervised by the government.

From these islands and elsewhere the buyers of the American Molasses Company select the best of each grade and by skillful blending and careful aging produce Grandma's Unsulphured Molasses with its sweet, rich, and delicate aromatic flavor.

No molasses in which sulphur dioxide is used as a clarifying agent is permitted to go into Grandma's Molasses—the finest of all molasses blends.

FOOD FOR FLAVOR AND NUTRITION

The quality of Grandma's Unsulphured Molasses is the secret of its delightful flavor. Pour some on a teaspoon—notice its rich, golden-brown color—now taste it and enjoy its sweet, smooth flavor. Its purity is guaranteed, for it is not bleached—it does not contain sulphur dioxide or chemical preservatives of any kind. That's why Grandma's Unsulphured Molasses is so different from ordinary molasses.

Grandma's Molasses is an all-purpose molasses. Use it at the table over waffles, on bread, or in milk. Use it in your favorite recipes. There's always a dish that calls for Grandma's Molasses. From morning fruit and cereal to dinner main dishes and desserts, you will find just the recipe you need in this booklet.

The concentrated juice of sugar cane is the source of Grandma's Unsulphured Molasses. This high-quality molasses contains the natural health-giving sugars and minerals squeezed from sun-ripened cane. The

cane juice is carefully concentrated to produce molasses of the finest flavor and the most appetizing color.

SUGAR is needed—especially by active people—to supply heat and energy. Grandma’s Unsulphured Molasses has a high sugar content. It contains cane, dextrose, and levulose sugars. Grandma’s Molasses is a *natural* sweet which can boast of more than energy value—it contributes zest and extra nutritional values—that is why it is referred to as “nature’s most nutritious sweetener.”

IRON is essential in the daily diet—for children and adults—to help build red blood—to help prevent nutritional anemia due to lack of iron—and to help build buoyant health.

Several foods are generally referred to as *especially valuable* sources of iron. Among these are molasses, liver, and spinach. Molasses is several times richer in this mineral than is spinach and ranks near liver in its rich iron content.

Grandma’s Unsulphured Molasses is a convenient and rich source of nature’s iron.

CALCIUM is essential in the diet of people of all ages. It is especially important for growing children and for pregnant and lactating mothers. Calcium helps build strong bones and teeth and steady nerves.

Grandma’s Unsulphured Molasses is considered a fair source of this important mineral.

VITAMIN B₁ is essential to good appetite and steady nerves. Molasses contains some of this important vitamin.

Special rules, set forth in the General Terms of Use part of this license, apply to copying and distributing Project Gutenberg™ electronic works to protect the PROJECT GUTENBERG™ concept and trademark. Project Gutenberg is a registered trademark, and may not be used if you charge for an eBook, except by following the terms of the trademark license, including paying royalties for use of the Project Gutenberg trademark. If you do not charge anything for copies of this eBook, complying with the trademark license is very easy. You may use this eBook for nearly any purpose such as creation of derivative works, reports, performances and research. 1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread works not protected by U.S. copyright law in creating the Project Gutenberg™ collection. Despite these efforts, Project Gutenberg™ electronic works, and the medium on which they may be stored, may contain “Defects,” such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

Section 2. Information about the Mission of Project Gutenberg

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the

efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non-profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Contributions to the Project Gutenberg Literary Archive Foundation are tax deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's business office is located at 41 Watchung Plaza #516, Montclair NJ 07042, USA, +1 (862) 621-9288. Email contact links and up to date contact information can be found at the Foundation's website and official page at www.gutenberg.org/contact

Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment

including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit www.gutenberg.org/donate.

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: www.gutenberg.org/donate.

Section 5. General Information About Project Gutenberg electronic works

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a

copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our website which has the main PG search facility:
www.gutenberg.org.

This website includes information about Project Gutenberg, including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.
