Horsfield, Stamford Raffles, N. Vigors, etc. Three folio vols., full Russia gilt, gilt edges. This is the complete Series of this Publication, under the above Authors and Artists. There are 161 finely colored plates of Birds previously unfigured or little known, or nondescript. A few of the plates have more than one Species represented. From 1 to 4 pages of text accompanies each plate; an Index of the 1st 2 vols. is given. The last vol. was abruptly ended. A page of explanation is bound at the end of the 3rd vol., in which it is "proposed to carry on a New Series of these Illus." It states also that the New Series will be published early in 1836, which would give the approximate date of the last vol. of this Series as 1835. Probably begun in 1832; as a complete set like this of this Series of Illustrations is excessively rare, and no record has been found of it being sold. Many of the New Species are American. Several of the Anatidæ are figured. Condition and binding very fine, corners and edges of vols. somewhat rubbed and need a little touching up. Edinburgh, Published by W. H. Lizars, n. d.

199A. Wilson, Alex. *American Ornithology, or, the Natural History of the Birds of the United States.* Illus. with plates, engraved [by A. Lawson] and colored from Original Drawings taken from Nature by Alexander Wilson. With a Sketch of the Author's Life by George Ord, F. L. S., etc. In 3 vols. of text, 4to, large paper, and 1 vol. folio of colored plates. 4 vols., $\frac{3}{4}$ calf. Published by Collins & Co. of New York, and H. Hall, of Philadelphia, 1828, '28, '29, '29. An extraordinarily fine set of the **EDITIO PRINCEPS AMERICANA**, in which Ord completed the labors of Wilson by editing, re-arranging and adding to his unpublished MSS. intended for the

completion of the Original Work, begun in 1808, interrupted by Wilson's death in 1812, and continued to 9 vols. by Ord in 1814. Owing to the better quality of the paper used in this fine edition, as well as the superior color work of the plates, and the greater facility of its use as a work of reference, it justly commands as great a price as the original 4to edition of 9 vols. Contents clean and unsoiled as when issued, binding sound and good.

Fremont, of the City of San Francisco, California, and Solomon Alter, John L. Newbold, John M. Lisle, Chas. Schaffer, and Francis N. Buck, of Phila. This Agreement recites that said Fremont for the sum of \$250,000, "hath demised, leased and let two certain Lots, Parcels or Measurement of Mineral Land," etc. The Document then describes this Land, first as the "*Heap and Sargent Location*" on the Mariposa River. Also, another known as "*The New Britain Location*," situated between the Mariposa and the Ave Maria Rivers, together called the *Mariposas*, purchased by Fremont from Don Juan B. Alvarado, Ex-Gov. of California. The term of this Lease [50] is for Ten Years with Privilege and Extension up to the year 1871.

This Parchment document, measuring $25\frac{1}{2} \times 21\frac{1}{2}$ inches is duly signed and witnessed by all the parties above named. On the back is sketched a map in colors of the above Purchase, showing the Location of all the Houses and Tents in the Town of Mariposas, and of Old-town, on the opposite side of the Mariposas River. It states that the Large Tract was granted by General Micheltorena, Gov. of California, to the aforesaid Alvarado, Ex-Gov. It further shows the "*Locations of the Philadelphia and California Mining Co.*" This map was filed and recorded by R. S. Miller, Recorder of Mariposa Co. It was "drawn by A. Zakreski, Clay St., above the Plaza." The Possession of this Lease may afford considerable satisfaction to the present owners of this Old Claim!

Arche de Noë, ou Collect. des Animaux, les plus Rares et les plus Curieux dans les Deux Continens. 9 plates, of which plates 4, 5, 6 and 8 are missing. Paris,

1788. The above Noah's Ark and the engraved Index "Explicationes des Planches" for the whole set (except for the Noah's Ark) which is apparently an unfinished publication. Comprised vol. 6 and last of the set.

It would require much space to do justice to the artistic accuracy of engraving and hand-color work of Buchoz's sumptuous and expensive volumes. As a whole they chiefly interest the Botanist and Horticulturist, but, in combination with the delineation of Plants and Flowers, are introduced numerous Birds and gaily colored Insects, additional to those specially figured. American species from a good percentage of the list. Quite a number of species are indicated as *new*, and given binomials, followed by "*Nobis*," in the Plate Indexes. With exception of the deficiency noted in "L. Arche de Noë," vol. 6, the set is complete, as listed, including all the finely engraved Title-pages and Indexes. The volumes measure about 19 × 11½ inches and are substantially bound in half green calf and marbled boards. The condition of binding and contents is unusually perfect. 10 vols. in 6. Paris, 1781-88. Sold only as a set.

898. Guthrie's Geography. Unique 3 vol. copy. Containing Ord's N. American Zoology. A New Geographical, Historical and Commercial Grammar; and present state of the Several Kingdoms of the World. By Wm. Guthrie, Esq. The Astronomical part by Jas. Ferguson to which have been added the late discoveries of Dr. Herschel and other eminent astronomers. Illus. with 28 correct maps. The second Amer. ed., improved. 2 vols. text, in spotless condition, as are also the 28 folded maps and a plate of "The Armillary Sphere," which are bound in a separate vol. The 3 vols. in uniform rainbow calf, slightly cracked at hinges and 1 vol. only having the label on back. This edition is really the third published in America, though the second of three issues of Johnson & Warner, and is the only one [71] containing the systematic classification of NORTH AMERICAN ZOOLOGY by GEORGE ORD. The rarity of this edition was noticed nearly 20 years ago when a Reprint of the Zoology was made from Ord's

own copy, the only copy located by the editor after most careful and diligent search. See "Rhoads' Reprint," under Gen. Zool., in this Catalog. Since then 2 copies of vol. 2 (only) have been located, but no complete set, with Atlas, had been known previously to the one now offered. It was recently discovered in a Philadelphia garret. Phila., Johnson & Warner, 1815.

Royal folios, 4 vols. of Text and 2 vols. of 480 finely executed and colored plates representing the Plant, its Flower, Seeds, etc., in development. These were originally issued in 80 parts by subscription at \$320.00 the set. They were edited by Sr. Domingo Vidal y Soler, Ingenieria de Montes, and continued at his death, by his brother, to completion. Printed on heavy hand-made deckle-edged paper and are bound in the original red morocco, gilt-tooled backs, and red, black and gold illuminated cloth, heavy board sides, gilt tops, uncut. The plates are loose in open-bound folders to match the Text. Owing to the Destruction of the Remainder of the edition during the Bombardment of the Philippine ports by Dewey, only about 300 copies of the work were distributed. I have recently purchased from the widow of Senor Vidal the few unused copies which escaped destruction, because of their being in the United States

during the Spanish-American War. The rapidly increasing American interest in the wonderful Botany of our Island Possessions makes this Monumental Work a necessity in our Reference Libraries. Manila, 1877-90.

A large, thick folio, old calf, rebaked, engraved title-page and portrait and illus. by hundreds of quaint woodcuts. There are 20 unnumbered pages of dedication, etc. (including title and portrait, each of which bears text on reverse) apparently complete. "The First Booke of the Historie of Plants" starts with page 1, and the pagination runs consecutively thence to page 1392, "The Ende of the Third and Last Booke." Then follows 71 unnumbered pages of Index, etc. The condition of the body of the book averages good, but the pages at beginning and end are loose, dog-eared, margins damaged and some stained. This was the celebrated Humphry Marshall's copy and bears his autograph inscription. "Humphry Marshall. His Book Bought at Dr. McDowell's Vendue. The 14th of August, 1755. Price £2/15." On the next leaf (the first numbered page of the work) Marshall has again written his name in large flowing hand. There are MS. notes in an early hand on margins above and below the portrait and elsewhere in the book. Imprinted at London by John Norton, 1597.

HERBALS, MEDICAL BOTANY, ETC.

1576. Barton, Benj. Smith. His Manuscript Archives of Materia Medica and Therapeutics. Being the Original Manuscript Notes for his Lectures as Professor of Materia Medica in the University of Pennsylvania, to which he was appointed in 1796. These valuable relics of Early American Medicine and Botany are contained in 7 4to and folio Scrap Books, no doubt pasted and arranged by the Author and bound uniformly in half red roan. They are evidently not the entire original series, being numbered 5, 7, 9, 10, 29 and 30, 31, 32. B. S. Barton's successor, W. P. C. Barton, frequently quotes from these MSS. vols. in his Medical Botany under the term "Barton's Collections." It is scarcely necessary to add that the frequent allusion to his contemporaries, especially Drs. Rush, Shippen, etc., as well as passing references to notable cases and events in the World of Medicine, make these unpublished records worthy of perusal and preservation. As they are, 7 vols. \$29.00

Flora Jenensis Henrici Bernhardi Ruppilii ex Posthumis Auctoris Schedis et Propriis Observationibus Aucta et Emendata Accesserunt Plantarum Rariorum Novæ Icones. Jenæ: [153] 1745. A very interesting copy of this rare book which has been interleaved within a thick 4to volume of contemporary blank paper and bound in half vellum by P. L. S. Müller, the noted German Naturalist, his curious book-plate is on the front cover with the legend "Ex Bibliotheca Mullerii." His autograph is on the title-page. This volume has later been owned apparently by A. Oersel, who has used the first 166 pp. of the blank leaves for an autograph list of Plants which he has entitled as follows, under date of April 2nd, 1869: "Enumeratio Plantarum District. Alpium Maritim. Flore analytique in Departement des Alpes Maritimes, par Honore Ardoine Menton, 1867." Several specimens of rare flowers have been laid in their proper places. The whole number of pages interleaved is about 425, the whole forming a most interesting historical volume for some Botanical Library.

FLORA OF THE PHILIPPINE ISLANDS

The Superbly Illustrated and Historic Work
of Friar Blanco in its Most Recent
and Sumptuous Folio Issue.

Blanco, Manuel, Flora de Filipinas: Adicionado con el Manuscrito inedito del P. Fr. Ignacio Mercado las Obras del P. Fr. Antonio Llanos y de un apendice con todos las nuevas investig. Botanicas referentes ARCHIPELAGO FILIPINO. Gran Edicion hecha a expensas de la Provin, de Augustinos Calzados de Filipinas bajo la direction Cientifica del P. Fr. Andres Naves.
Manila, 1877-1890.

Royal Folio, four volumes of Text and two volumes of 480 finely executed and Colored Plates representing the Plant, its Flower, Seeds, etc. in development. These were originally issued in 80 parts by subscription at \$320.00 the set. They were edited by Sr. Domingo Vidal y Soler, Ingenieria de Montes, and continued at his death, by his brother, to completion. Printed on heavy handmade deckle-edged paper and are bound in the original red morocco, gilt-tooled backs, and red, black and gold illuminated cloth, heavy board sides, gilt tops, uncut. The Plates are loose in open-bound folders to match the Text.

Owing to the Destruction of the Remainder of the edition during the Bombardment of the Philippine ports by Dewey, only about 300 copies of the work were distributed. I have recently purchased from the widow of Senor Vidal the few unused copies which escaped destruction, because of their being in the United States during the Spanish-American War. The rapidly increasing American interest in the wonderful Botany of our Island Possessions makes this Monumental Work a necessity in our Reference Libraries.

Reduced from \$285.00 to \$165.00.

Updated editions will replace the previous one—the old editions will be renamed.

Creating the works from print editions not protected by U.S. copyright law means that no one owns a United States copyright in these works, so the Foundation (and you!) can copy and distribute it in the United States without permission and without paying copyright royalties. Special rules, set forth in the General Terms of Use part of this license, apply to copying and distributing Project Gutenberg™ electronic works to protect the PROJECT GUTENBERG™ concept and trademark. Project Gutenberg is a registered trademark, and may not be used if you charge for an eBook, except by following the terms of the trademark license, including paying royalties for use of the Project Gutenberg trademark. If you do not charge anything for copies of this eBook, complying with the trademark license is very easy. You may use this eBook for nearly any purpose such as creation of derivative works, reports, performances and research. Project Gutenberg eBooks may be modified and printed and given away—you may do practically ANYTHING in the United States with eBooks not protected by U.S. copyright law. Redistribution is subject to the trademark license, especially commercial redistribution.

START: FULL LICENSE

THE FULL PROJECT GUTENBERG™ LICENSE

PLEASE READ THIS BEFORE YOU DISTRIBUTE OR USE THIS WORK

To protect the Project Gutenberg™ mission of promoting the free distribution of electronic works, by using or distributing this work (or any other work associated in any way with the phrase “Project Gutenberg”), you agree to comply with all the terms of the Full Project Gutenberg License available with this file or online at www.gutenberg.org/license.

Section 1. General Terms of Use and Redistributing Project Gutenberg electronic works

1.A. By reading or using any part of this Project Gutenberg electronic work, you indicate that you have read, understand, agree to and accept all the terms of this license and intellectual property (trademark/copyright) agreement. If you do not agree to abide by all the terms of this agreement, you must cease using and return or destroy all copies of Project Gutenberg electronic works in your possession. If you paid a fee for obtaining a copy of or access to a Project Gutenberg electronic work and you do not agree to be bound by the terms of this agreement, you may obtain a refund from the person or entity to whom you paid the fee as set forth in paragraph 1.E.8.

1.B. “Project Gutenberg” is a registered trademark. It may only be used on or associated in any way with an electronic work by people who agree to be bound by the terms of this agreement. There are a few things that you can do with most Project Gutenberg electronic works even without complying with the full terms of this agreement. See paragraph 1.C below. There are a lot of things you can do with Project Gutenberg electronic works if you follow the terms of this agreement and help preserve free future access to Project Gutenberg electronic works. See paragraph 1.E below.

1.C. The Project Gutenberg Literary Archive Foundation (“the Foundation” or PGLAF), owns a compilation copyright in the collection of Project Gutenberg electronic works. Nearly all the individual works in the collection are in the public domain in the United States. If an individual work is unprotected by copyright law in the United States and you are

located in the United States, we do not claim a right to prevent you from copying, distributing, performing, displaying or creating derivative works based on the work as long as all references to Project Gutenberg are removed. Of course, we hope that you will support the Project Gutenberg mission of promoting free access to electronic works by freely sharing Project Gutenberg works in compliance with the terms of this agreement for keeping the Project Gutenberg name associated with the work. You can easily comply with the terms of this agreement by keeping this work in the same format with its attached full Project Gutenberg License when you share it without charge with others.

1.D. The copyright laws of the place where you are located also govern what you can do with this work. Copyright laws in most countries are in a constant state of change. If you are outside the United States, check the laws of your country in addition to the terms of this agreement before downloading, copying, displaying, performing, distributing or creating derivative works based on this work or any other Project Gutenberg work. The Foundation makes no representations concerning the copyright status of any work in any country other than the United States.

1.E. Unless you have removed all references to Project Gutenberg:

1.E.1. The following sentence, with active links to, or other immediate access to, the full Project Gutenberg License must appear prominently whenever any copy of a Project Gutenberg work (any work on which the phrase “Project Gutenberg” appears, or with which the phrase “Project Gutenberg” is associated) is accessed, displayed, performed, viewed, copied or distributed:

This eBook is for the use of anyone anywhere in the United States and most other parts of the world at no cost and with almost no restrictions whatsoever. You may copy it, give it away or re-use it under the terms of the Project Gutenberg™ License included with this eBook or online at www.gutenberg.org. If you are not located in the United States, you will have to check the laws of the country where you are located before using this eBook.

1.E.2. If an individual Project Gutenberg electronic work is derived from texts not protected by U.S. copyright law (does not contain a notice indicating that it is posted with permission of the copyright holder), the work can be copied and distributed to anyone in the United States without paying any fees or charges. If you are redistributing or providing access to a work with the phrase “Project Gutenberg” associated with or appearing on the work, you must comply either with the requirements of paragraphs 1.E.1 through 1.E.7 or obtain permission for the use of the work and the Project Gutenberg trademark as set forth in paragraphs 1.E.8 or 1.E.9.

1.E.3. If an individual Project Gutenberg electronic work is posted with the permission of the copyright holder, your use and distribution must comply with both paragraphs 1.E.1 through 1.E.7 and any additional terms imposed by the copyright holder. Additional terms will be linked to the Project Gutenberg License for all works posted with the permission of the copyright holder found at the beginning of this work.

1.E.4. Do not unlink or detach or remove the full Project Gutenberg License terms from this work, or any files containing a part of this work or any other work associated with Project Gutenberg.

1.E.5. Do not copy, display, perform, distribute or redistribute this electronic work, or any part of this electronic work, without prominently displaying the sentence set forth in paragraph 1.E.1 with active links or immediate access to the full terms of the Project Gutenberg License.

1.E.6. You may convert to and distribute this work in any binary, compressed, marked up, nonproprietary or proprietary form, including any word processing or hypertext form. However, if you provide access to or distribute copies of a Project Gutenberg work in a format other than “Plain Vanilla ASCII” or other format used in the official version posted on the official Project Gutenberg website (www.gutenberg.org), you must, at no additional cost, fee or expense to the user, provide a copy, a means of exporting a copy, or a means of obtaining a copy upon request, of the work in its original “Plain Vanilla ASCII” or other form. Any alternate format must include the full Project Gutenberg License as specified in paragraph 1.E.1.

1.E.7. Do not charge a fee for access to, viewing, displaying, performing, copying or distributing any Project Gutenberg works unless you comply with paragraph 1.E.8 or 1.E.9.

1.E.8. You may charge a reasonable fee for copies of or providing access to or distributing Project Gutenberg electronic works provided that:

- You pay a royalty fee of 20% of the gross profits you derive from the use of Project Gutenberg works calculated using the method you already use to calculate your applicable taxes. The fee is owed to the owner of the Project Gutenberg trademark, but he has agreed to donate royalties under this paragraph to the Project Gutenberg Literary Archive Foundation. Royalty payments must be paid within 60 days following each date on which you prepare (or are legally required to prepare) your periodic tax returns. Royalty payments should be clearly marked as such and sent to the Project Gutenberg Literary Archive Foundation at the address specified in Section 4, “Information about donations to the Project Gutenberg Literary Archive Foundation.”
- You provide a full refund of any money paid by a user who notifies you in writing (or by e-mail) within 30 days of receipt that s/he does not agree to the terms of the full Project Gutenberg™ License. You must require such a user to return or destroy all copies of the works possessed in a physical medium and discontinue all use of and all access to other copies of Project Gutenberg™ works.
- You provide, in accordance with paragraph 1.F.3, a full refund of any money paid for a work or a replacement copy, if a defect in the electronic work is discovered and reported to you within 90 days of receipt of the work.
- You comply with all other terms of this agreement for free distribution of Project Gutenberg™ works.

1.E.9. If you wish to charge a fee or distribute a Project Gutenberg™ electronic work or group of works on different terms than are set forth in this agreement, you must obtain permission in writing from the Project Gutenberg Literary Archive Foundation, the manager of the Project

Gutenberg™ trademark. Contact the Foundation as set forth in Section 3 below.

1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread works not protected by U.S. copyright law in creating the Project Gutenberg™ collection. Despite these efforts, Project Gutenberg™ electronic works, and the medium on which they may be stored, may contain “Defects,” such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

1.F.2. LIMITED WARRANTY, DISCLAIMER OF DAMAGES - Except for the “Right of Replacement or Refund” described in paragraph 1.F.3, the Project Gutenberg Literary Archive Foundation, the owner of the Project Gutenberg™ trademark, and any other party distributing a Project Gutenberg™ electronic work under this agreement, disclaim all liability to you for damages, costs and expenses, including legal fees. YOU AGREE THAT YOU HAVE NO REMEDIES FOR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTY OR BREACH OF CONTRACT EXCEPT THOSE PROVIDED IN PARAGRAPH 1.F.3. YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

1.F.3. LIMITED RIGHT OF REPLACEMENT OR REFUND - If you discover a defect in this electronic work within 90 days of receiving it, you can receive a refund of the money (if any) you paid for it by sending a written explanation to the person you received the work from. If you received the work on a physical medium, you must return the medium with your written explanation. The person or entity that provided you with the defective work may elect to provide a replacement copy in lieu of a refund. If you received the work electronically, the person or entity providing it to

you may choose to give you a second opportunity to receive the work electronically in lieu of a refund. If the second copy is also defective, you may demand a refund in writing without further opportunities to fix the problem.

1.F.4. Except for the limited right of replacement or refund set forth in paragraph 1.F.3, this work is provided to you 'AS-IS', WITH NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of certain types of damages. If any disclaimer or limitation set forth in this agreement violates the law of the state applicable to this agreement, the agreement shall be interpreted to make the maximum disclaimer or limitation permitted by the applicable state law. The invalidity or unenforceability of any provision of this agreement shall not void the remaining provisions.

1.F.6. INDEMNITY - You agree to indemnify and hold the Foundation, the trademark owner, any agent or employee of the Foundation, anyone providing copies of Project Gutenberg™ electronic works in accordance with this agreement, and any volunteers associated with the production, promotion and distribution of Project Gutenberg™ electronic works, harmless from all liability, costs and expenses, including legal fees, that arise directly or indirectly from any of the following which you do or cause to occur: (a) distribution of this or any Project Gutenberg work, (b) alteration, modification, or additions or deletions to any Project Gutenberg work, and (c) any Defect you cause.

Section 2. Information about the Mission of Project Gutenberg

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the

efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non-profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Contributions to the Project Gutenberg Literary Archive Foundation are tax deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's business office is located at 41 Watchung Plaza #516, Montclair NJ 07042, USA, +1 (862) 621-9288. Email contact links and up to date contact information can be found at the Foundation's website and official page at www.gutenberg.org/contact

Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment

including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit www.gutenberg.org/donate.

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: www.gutenberg.org/donate.

Section 5. General Information About Project Gutenberg electronic works

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a

copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.
