Greeting

Time was, is, and will be. Almanacks
have come and Almanacks
have gone. But Time has survived.
Only the Foolish Almanack
has been equal to the pleasant
Task of Killing it.

We offer the Book as our Defense.

THE PUBLISHERS.

HELPFUL HINT FOR JANUARY

Do not give way to vain regrets because you did not keep the good resolves you made a year ago. It might be worse. You might have kept the resolutions and have had no incentive for leading a better life this year.

ECLIPSES FOR THE COMING YEAR

If there are as many Eclipses as during 1905-6, it will be a hard year on grafters and bosses. The editor is optimistic, however, believing that the sanitary revolution which swept the country has about blown over. Public confidence and laxity have been restored in a large measure and the time is now about ripe for us to get it in the neck again.

DRESS

HINT:

The first costume on record was a hand-me-down from the fig tree.

AN ICE AGE:

Now is the time to cut ice. "Doc." Osler won't like it if you wait until after you are 40.

SUNDAY

MONDAY Do not swear off anything. Wait 'till tax time.

TUESDAY (1781) Baron Munchausen published his memoirs.
(1901) Andrew Carnegie started writing his autobiography.

WEDNESDAY

THURSDAY Erroneously spelled Thursday. It should be spelled T-h-i-r-s-t-d-a-y (consult any of the reformed who have been clinging to the water wagon since Tuesday.)

FRIDAY

SATURDAY (1906) There was no genius born in Indiana this day.

JANUARY

Reciprocity is the mother of contention.

UP IN MAINE

A thirsty, young sport, up in Me.
Pretended to suffer great Pe.
But when he'd imbibed
What the druggist prescribed,
He said he felt better Age.

Note: We demanded a diagram for the above and the author reluctantly provided it. He thinks that any one should know that *Me.* is the abbreviation for Maine and that to make the 2d and last lines rhyme you will readily read *Pe.* as abbreviation for *pain* and *Age.* as abbreviation for *again*. We feel much better now and we hope you do, dear reader.
—*The Editor.*

Health Hint:

Those who are
always having
the hives
should go into
the bee
business.

**Household
Advice:**

To keep the
kitchen fire
hot, keep it
coaled.

SUNDAY

MONDAY Adam and Eve began housekeeping, and having neither prying neighbors nor troublesome servants they named their bungalow "Paradise."

TUESDAY

WEDNESDAY A four-flush only wins political pots.

—Poker Proverbs.

THURSDAY

FRIDAY

Rosa Bonheur born. Rosa painted animals and all of her competitors at the art shows said her work was "beastly."

SATURDAY

JANUARY

There are as good fish in the sea as there are in the fish carts.

FORECAST FOR JANUARY

From January 1st until the 7th, and possibly in some cases until the 9th or 10th, it will be very DRY. This drouth will be followed by a long wet spell. The Zodiacal sharp who runs things during January is Aquarius, which being translated means "water-wagon." The only folks who never heard of Aquarius live in the corn-belt of Kentucky.

From January 10th to the 15th, the weather will devote its time to making up its mind what it is going to do. From the 15th to the 20th it will do it.

Dark clouds of remorse and despondency will reign during the last week in January, but by February 1st you will have become accustomed and resigned to your old habits.

January will also be marked by "white goods sales," and (if it's windy in the shopping district) skirt sails.

Gardening

Hint:

You cannot
raise bread
fruit from
cauliflour.

Health Hint:

If your blood is
bad blame it on
your ancestors.

SUNDAY

MONDAY (1905) It was decided to build a sea-level-lock canal in Panama.

(2001) It was decided to build a lock-sea-level canal instead.

TUESDAY (3000 A.D.) At a quiet meeting, Daughters of the Revolution elected their officers unanimously.

WEDNESDAY

THURSDAY Wear Blinders! To gaze at anything with the naked eye is immodest.

—Anthony Comstock.

FRIDAY

SATURDAY

JANUARY

Open confession may be good for the soul, but it's bad for the reputation.

SEVEN WONDERS OF THE WORLD

Why a pretty ankle makes a "rubber-neck."

Why a Kentucky "Colonel" is a "good Judge."

Why chorus girls and lobsters always go together.

Why a Grass-widow objects to a raking over.

Why real pains from little champagnes grow.

Why there is no "Midway" on the straight and narrow path.

How a man can be "half-seas-over" on land.

TALE OF A TANK

High-ball
Sad fall.
Big head
'Nuff said.

Muck-rakes
will not be
popular with
trusts or
officialdom, but
much sought
after by
literateurs.

SUNDAY

MONDAY (1906) Great excitement in County Cork. Handy Skinergie bit off a piece of the Blarney stone before delivering his address on "How I hate to be rich."

TUESDAY (1925) Atlas seeks to retire from supporting the world. American-Journal-Examiner put at his service.

WEDNESDAY

THURSDAY

FRIDAY (1906) T. Roosevelt began publishing a series of short stories in the Congressional Record.

SATURDAY

JANUARY

A punch in the bowl is worth two in the face.

FOR THE HOME COMING

Before meeting his wife and family at the station a wise man will put his house in order for the home coming.

A pleasant way of doing this is to give a house-cleaning party. Divide your party into the Sweepers, the Dusters, the Scrubbers, and the Dish Washers, giving each group proper utensils and offering a prize for the best results.

Let the party begin at midnight, after a pleasant dinner, and at about 2 in the morning the police will probably come in and finish cleaning the place up.

Dairy Hint:

Most dairymen find a separator useful, but it is not absolutely necessary. To separate milk most effectively, keep away from the pump.

SUNDAY

MONDAY Wm. Tell born. Some persons do not believe the Wm. Tell story. What Tell do they believe?

TUESDAY Publicity brings its own reward.

—Winston Churchill et al.

WEDNESDAY

THURSDAY

FRIDAY Robinson Crusoe born. Crusoe was the first victim to get a long term on the Island.

SATURDAY

JANUARY

A man's a man for a' that—there is in it.

HELPFUL HINT FOR FEBRUARY

It wasn't because George Washington cut down the cherry tree that he was made President. And very few men get into office simply for telling the truth. We hardly know how to advise you on this point. Why do you wish to enter politics?

Society Hint:

A little gossip goes a long way.

How to Be Happy:

Quit living.

TO FIND OUT IF MONEY IS TAINTED

If silver or gold, bite it.
If bills, wash with soap and water.
If a cheque, call up the bank.

SUNDAY

MONDAY (1874) Siamese twins Chang and Eng die.
(1906) Buttin twins, Lawson and Roosevelt, perfectly healthy.

TUESDAY

WEDNESDAY (1781) "Battle of Cowpens." British defeated by Morgan.
(1906) Second "Battle of Cowpens." Packers defeated by O'Neil and Reynolds.

THURSDAY

FRIDAY About this time expect some weather.
SATURDAY

FEBRUARY

There's many a damn
'Twixt the door and the jamb.

HOW TO SKATE

February is perhaps as good a month as any other to learn to skate.

The simplest, and most approved method, is as follows:

One high-ball, another high-ball, 1 more high-ball, simply a high-ball, just one more high-ball, ditto, the same, and lastly, a highball. (Note—After the glass is full say, "Not another drop.")

You will be surprised at the ease with which you can skate.

"Spreading the Eagle" is a very pretty and artistic skating figure. It is done by trying to get from one side of the street to the other all in the same night.

"Looping the lamp-post" is also quite an achievement in skating. It doesn't make any difference which of the two lamp-posts you loop—take your choice. It is difficult to give directions how to do this. The feat has to be seen to be learned. There is a simpler way of doing it, however, and that is—stand perfectly still while the lamp-post passes around you.

Two persons skating together for mutual assistance are known as "a pair of skates."

An expert skater can skate just as well in July as in February.

Nocturne:

Bright
Light
Night.

Miss
Kiss
Bliss.

Pa
Bar
Scar.

SUNDAY

MONDAY Cherry trees and hatchets have been supplanted by "big sticks" as decorations at the White House.

TUESDAY

WEDNESDAY "Cut it out"—*Surgeon's Motto*.

THURSDAY George Washington born. Neighbors took in their cherry trees.

FRIDAY

SATURDAY

FEBRUARY

When Duty calls, send her around to the back door.

HOW TO COMPOSE A SHORT STORY

"Ambitious" asks the compiler of this Almanack to tell her the easiest way to compose a short story.

This depends somewhat on the short story, but a few general observations may be of interest. Some short stories are more excited than others.

Lead the short story to a quiet place and soothe it by praise delivered in a gentle, monotonous, but authoritative tone of voice. Be careful not to criticize, as that will make it more and more nervous. When the short story shows signs of yielding to this influence, smooth it gently with one hand and pat it on the back with the other. When quite composed, withdraw quietly, still speaking in a low tone.

Health Hint:

All that blisters is not good for a cold.

Lucky Advice:

It is unlucky to fall down 13 flights of stairs.

A short story by Mary Wilkins can be composed more quickly than a short story by Kipling. In the latter case it may be necessary to gently persuade the short story to take an opiate.

SUNDAY (1906) A bright day. W. J. Bryan congratulates the Sun.

MONDAY

TUESDAY "It isn't so much her eating the apple as that she thought she was getting something for nothing. I foresee much trouble from this tendency."

—Adam's Journal.

WEDNESDAY

THURSDAY

FRIDAY (2300 B.C.) Confusion invented by Confucius.

SATURDAY

FEBRUARY

A woman's college is a dangerous thing.

HELPFUL HINT FOR MARCH

Now is a good time to think about having your last summer's suit and hat cleaned and fixed up to last another season. You can stand at the window and look out at the snow, and think about this to your heart's content. This probably will warm you to such an extent that you will save a bit on your coal bill.

HOW TO HANDLE A MUCK-RAKE

The owner of a muck-rake should first get a magazine to keep it in. This practice originated with Laws Tomson, the celebrated Norse Berserker.

Select your muck and rake it diligently until you find a large, fat check; then leave that pile and begin on another.

WEATHER HINT—It's a nil wind that doesn't blow.

A Bad Sign:
"All Drinks
Spot Cash."

SUNDAY

MONDAY About now young boys forget skating and begin to think about marbles. "Old Boys" are still skating and they are

not particular whether the pastime is associated with marble or mahogany.

TUESDAY

WEDNESDAY

THURSDAY PRESS-AGENT—One who presages or foretells. See LYRE.

FRIDAY

SATURDAY (1868) Barnum's Museum in New York destroyed by fire. Parkhurst, Carrie Nation, Dowie, and Anthony Comstock saved.

MARCH

It is said that nothing is impossible; but there are lots of people doing nothing every day.

ODD FACTS

Eve did not use face powder.

Methuselah developed peculiarities as he grew old. It is said that he never paid a telephone or gas bill.

Samson had his whims. He never went into vaudeville.

Noah never cared to take the children to see the animals at the circus.

Goliath was another who thought he had one good fight left in him.

Christopher Columbus did not go on the lecture platform to tell of his travels.

Napoleon always played solitaire before going into a battle; he couldn't run the deck out, and it made him so angry he just had to lick somebody.

Euclid invented geometry rather than design dress patterns for his wife.

Weather Sign:

A spoony pair under an umbrella is a sign of a rain beau.

To Cure a Morning Headache:

Be a little more abstemious the night before.

Socrates was henpecked, and was one of the greatest philosophers in the world—but the rule does not hold good any longer.

SUNDAY

MONDAY (1875) First train ran through the Hoosac Tunnel. Hobson too young to be present.

TUESDAY (1793) Washington D.C. named in honor of Washington deceased.

WEDNESDAY

THURSDAY

FRIDAY It was in this month that S. N. Akes left Ireland. Located in Bellevue Hospital, N. Y.

SATURDAY

MARCH

When you see a man pushing a baby carriage, it is a sign that he has trouble before him.

SPRING, GENTLE SPRING

One life-size morning nearly six thousand years ago Jubal sat outside of dear old Eden, whanged his harp and warbled the following:

"Gentle Spring has come at last,
So keep your furnace fires full blast!"

It was thus that Spring was invented, also the first Spring poet. But why Spring should appeal to humanity as a season of romance, no one who gives this problem serious thought can imagine.

It was in the Spring that poor old Adam first had to work, and from that time on we have had that tired feeling in the Spring. (See footnote.)

It was also in the Spring that Eve wearied of her fig-leaf toque. She stuck a couple lyre bird tails in one side, three lotos buds in the other, and that settled it. Ever since man has had to hustle in the Spring to get his wife a new hat. (See footnote.)

It was in the Spring that Cain moved. That became a habit with humanity and knocked more romance out of Spring.

FOOTNOTE—Also Summer, Autumn, and Winter.

Cheese Hint:

Keep
Limburger
cheese closely
confined under
glass until it
ceases to
struggle.

**To Cure
Homesickness:**

Think how you
would have to
be mowing the
lawn or tending
the furnace if
you were there.

SUNDAY A stuffed stork is the best stork.

—Mrs. Grundy.

MONDAY

TUESDAY

WEDNESDAY Do not pay any bills to-day. Your creditors may die during the night.

THURSDAY

FRIDAY If there is ice on the ground do not try to go barefoot.

SATURDAY

MARCH

The text which bids a man love his neighbor as himself makes no mention of said neighbor's wife.

GEOGRAPHICAL NOTES

The principal river of Egypt is the Nile. Its smaller tributaries are the juveniles.

The capital of Ireland seems destined to have the largest population of any city in the world. It's D'ublin, every year.

The United States are best for married people.

Americans are noted for being fond of jokes. Their country was originally named for A-merry-cus. (Vespucchi.)

When the flood subsided it is probable that Noah and his family landed in the vicinity of Little Rock, for we are given to understand that he came forth from the Ark-an'-saw land.

Those who say that constancy is not a feminine quality should note how long Mrs. Sippi and Miss Souri have been running together without separating.

THE MEAN THING!

Some mean old maid, without a doubt,
Who'd never tasted bliss,
Was first to start that lie about
The microbes in a kiss.

Wedding

Hint:

The minister ties the knot; time and lawyers may prove it to be a slipknot.

Health Hint:

To cure a sluggish disposition, run up against a real prize fighter.

SUNDAY (3544 B.C.) Public library opened at Athens. No string.

MONDAY

TUESDAY (1725) Order of the Bath reorganized by George I.—
Water, soap, towel.

WEDNESDAY (5381 B.C.) Birth of Ananias, first special newspaper
correspondent.

THURSDAY (1670) Bees brought from England to Boston. Many
politicians stung.

FRIDAY

SATURDAY About this time there will be some more weather.

MARCH

One touch of liver makes the whole world ill.

"A TAKE OFF"

Cling to your winter flannels
Till well along toward June,
For many a one is taken off
By taking them off too soon.

Antiquity of Ready-to- Wear Clothing:

Eve's dress was the first truly "out-of-sight" costume, "fig"-uratively speaking.

Poultry Note:

Roosters are rather hard to manage, but hens lay wherever they are put.

SUNDAY

MONDAY Was it not about April 1st that the Laird of Skibo declared he would give away real money instead of libraries?

TUESDAY

WEDNESDAY Noah born. Noah first taught the race how wise a thing it is to lay up something for a rainy day. He laid up an ark.

THURSDAY

FRIDAY (64) Roman citizens conspire to fire Nero.

SATURDAY (64) Nero fires Rome.

APRIL

Umbrellas cover a multitude of thieves.

HINTS TO AMATEUR GARDENERS

In the spring look after your potatoes carefully. Have their eyes examined by a good oculist, and provide spectacles for such as need them.

Never string your beans till they are old enough to understand it. If you begin too early, they are apt to lose their temper.

Don't attempt to graft your pie-plants. Many have tried grafting a custard to a mince, in the hope that the brandy in the latter would assimilate with the custard and make a Tom and Jerry, but it never works.

Before planting your punkins, carefully remove the punk.

If you have any difficulty harvesting the fruit of your boot-tree, use a boot-jack.

Owing to the well-known fact that the mongoose is the deadly foe of snakes, it is thought that the best way to exterminate them from your garden is to cultivate the mon-gooseberry. Try it.

The mint-julep does not belong to the tulip family, although the latter has a strong affinity for it.

Gardening Note:

Instead of buying expensive fertilizer for the garden, use some of last year's "popular" magazines.

April:

derived from the Latin A-p-e-r-i-o, meaning *I open*, hence Eye-opener, or Easter opening.

SUNDAY

MONDAY Andrew Carnegie was stung by the kissing bug in Atlanta, Ga.

TUESDAY

WEDNESDAY Great commotion in the monkey cage at Central Park. Brander Matthews and Handy Skinergie overheard talking Esperanto.

THURSDAY

FRIDAY

SATURDAY All is not so that's said.

—White House Maxim.

APRIL

When you see a girl in a very *chic* gown you may be sure her father had to shell out.

AN APRIL PASTEL

There is no better spring month in which to move than April. Look among your papers and if you don't find a rent receipt for March you will know that it's your move. Plant an elm tree on Arbor day—it may grow up to be the tree under which Gen. Washington stopped to rest when he was pursuing the British—who knows! The farmer will do well to apply fertilizer to his land this month. There is no better fertilizer on the market than Limburger cheese. It costs considerable, but a little of it will inoculate a large area.

Spring Hints:

A little spring
in a bed is
good.

A little spring
near the house
is better.

A little spring
in a poem is
the limit.

EXTRACT FROM AN OFFICE-BOY'S DAIRY

8 a.m. Hired.
11 a.m. Tired.
12 m. Fired.

SUNDAY

MONDAY The indictment is mightier than the charity contribution.
—Trust Proverbs.

TUESDAY

WEDNESDAY (1716) Public bank founded in Massachusetts. Geological deposits refused.

THURSDAY (1856) Condensed milk first made in Connecticut. Price of milk-weed goes up.

FRIDAY (1659) Cromwell resigned his protectorate.
(1905) Taft got off the "lid."

SATURDAY

APRIL

Most things are good when they're new. Men and violins don't get good till they're old.

GARDEN AND FARMING HINTS:

Black-eyed Susan, Sweet William, and Johnny-Jump-Up will not grow in a garden built for two. Either William or John must be weeded out.

Silk hose are preferable to rubber when raising Ladies' Slippers.

Trumpet vines grow fast on automobiles.

Young ladies at summer resorts should cultivate Bachelor's Buttons; with care they may be grafted into Bridal Roses.

Many an Ox-eyed Daisy proves a Snapdragon after picking.

Wild Oats sown in second childhood are reaped by the next generation.

Snowballs and highballs both fade away in hot weather.

It's a deep-rooted crop of weeds that the muck rake won't loosen.

Rainy Day Advice:

To pick out your umbrella from among a number of better ones: take the best one—it's yours.

Very young men give their attention to the cultivation of Widow's Weeds; men of an older growth prefer to watch the Tender Buds bloom.

SUNDAY

MONDAY Harvard University founded—the oldest institution of foot-ball and accidental learning in America.

TUESDAY

WEDNESDAY

THURSDAY (1895) Elbert Hubbard had his hair cut.
Wise Elbert Hubbard
Went to his cupboard
To get the poor world a thought,
But when he got there
The cupboard was bare
And so the poor world got naught.

FRIDAY

SATURDAY

APRIL

If you can fool half the people all the time, that's good enough; don't be a hog.

HELPFUL HINT FOR APRIL

Have you ever thought how much money you waste in paying rent? Now that you are about to sign a new lease, it is time to ponder this subject. Say you pay \$50 a month rent. That is \$600 a year. Think! If you should pay rent for two thousand years you would waste as much money as Pierpont Muchgain makes on a little deal in railroads of a dull afternoon.

Health Hint:

For that tired feeling take a good doze of sleep.

To Make the World Brighter:

Use hope and soap.

KEEPING LENT

Jones borrowed my umbrella.
I now know what he meant
When he said it was his custom
To religiously keep lent.

SUNDAY It's not the loss of life makes death bitter, it's the obituaries.

—D. Ceest.

MONDAY

TUESDAY (1901-'02-'03-'04-'05-'06, etc.) A large large section of the coal miners of Pennsylvania struck because the operators

used non-union-made tooth powder.

(1906) Kentucky went prohibition by a tremendous minority.

WEDNESDAY

THURSDAY

FRIDAY

SATURDAY

APRIL

The wind may be tempered to the shorn lamb, but the
wolf gets equal benefit, just the same.

FORECAST FOR MAY

From the 1st to the 10th spring house-cleaning will take place. Look out for soft soap on the stairs. Meals will be served to gentlemen down town. There is no place like home during spring house-cleaning—this is why home is so generally avoided during that period.

From the 10th to the 20th buds will burst with deafening reports and the grass will do some fancy shooting.

From the latter date to the end of the month people will discard their woolens for pneumonia.

The zodiacal sign for May is Gemini, or twins. If you see a stork skulking about your residence, shoot it. May is an open month on storks.

Gardening

Note:

If you sow wild oats you are likely to reap a crop of "tares."

To Break a Will—

See a lawyer.

To Break a Bill—

See a doctor.

To Break a Till—

See a burglar.

SUNDAY

MONDAY (1906) Congress decided, after a long and heated discussion, that only filtered water should be used in the Panama Canal.

TUESDAY

WEDNESDAY (1906) Ruth St. Denis, bare of waist and limbs, wins approval of Boston society by outdoing Little Egypt.

THURSDAY (1906, next day) Pure-minded society people of Boston refuse to admit Maxim Gorky and his near-wife.

FRIDAY

SATURDAY "You can fool all of the people some of the time and some of the people all of the time."

—From the Diary of &ru Carnage.

MAY

Many of Cupid's matches are scratched in the divorce court.

HELPFUL HINT FOR MAY

The careful wife and mother will find a most excellent plan for utilizing a spring bonnet of the vintage of 1906 will be to tell her husband that she will make it do another season. Then manage to be out in the rain with it on, and with no umbrella. Further instruction is unnecessary.

Street Car Hint:

If a person walks on your right foot kick a person with your left.

TIMELY HINTS

A great many cows come in fresh in May. If you have a good calf, wear open-work hose and don't be ashamed to show it on a rainy day. Plant beans, pumpkins, and squashes about May 20th, but don't mix the seed. This is also a good month to set hens on door-knobs, and old ink-bottles, thus playing a great joke on the hens.

LEGERDEMAIN**Note:**

To make a five-dollar note look like 30 cents, blow it.

SUNDAY

MONDAY (33 B.C.) Antony establishes a divorce colony in Egypt.

TUESDAY (1906) U.S. Senators played a farce entitled "Who's a Liar," by Pitchrake Tillman, to crowded houses.

WEDNESDAY

THURSDAY

FRIDAY (996) Clocks, giving good time, invented by Gebert,
Benedictine monk.

(Same year) Benedictine, giving good time, invented by
same monks.

SATURDAY

MAY

Where ignorance is bliss it is blister to be wise.

HOW TO GET RICH

Getting rich is a simple matter if one goes about it right. If you will deposit one penny in the bank on the first day of the month and double each deposit each day thereafter, until the end of the month (30 days), you will find yourself rich beyond the dreams of avarice. Thus:—

Society Hint:

Even if you can't get into "Who's who in America," you can get into the Telephone Book, and it costs lots more.

The reason more people do not succeed in this Get-Rich-Quick scheme is that they become discouraged when they get about 75 cents in bank and give it up.

SUNDAY (1867) Russia thought she was selling United States a gold brick in Alaska.

MONDAY (1894) Gold brick proved 24 carat; Russia heartbroken.

TUESDAY

WEDNESDAY (1796) Napoleon weds Josephine, hoping his troubles will be little ones.

(1809) Napoleon divorces Josephine. Great trouble being his troubles were not little ones.

THURSDAY

FORECAST FOR JUNE

From the 1st to the last will be marked by mosquito showers. From the 11th to the 18th weddings will exceed divorces, followed by thunder and lightning. From June 18th to June 30th ice-cream sodas will be in the ascendancy. On June 21st the sun reaches the most northerly point in the Zodiac and enters the constellation of Cancer. Cancer is the sign for June. Cancer is an old sign and something that ought to be cut out.

SIDELIGHTS ON SCIENCE

If all the oceans should evaporate they would leave a deposit of 235 feet of salt. This, it is estimated, would salt enough pretzels to supply the world for several years.

It is claimed that if the power concealed in the sting of a hornet could be harnessed and utilized in commercial channels, it would lower the cost of transportation by a good many per cent.

An interesting experiment for little boys is to go into the dimly lit parlor where the big sister and her young man are sitting. Do not shuffle the feet or make any noise, and you will see a spark.

A hen will lay 200 eggs a year. A mosquito will lay 200,000,000 in one short summer. Are you gladder that

Hotel Hint:

No first class inn will permit guests to indulge in such undignified gymnastics as running through the corridors, or jumping board bills.

Seasonable Advice:

LITTLE STUDIES IN NATURAL HISTORY

The Secretary-bird, or Loebriole.

This little creature belongs to the "Knowitall" class and has no fear, often perching on the "Big Stick" itself. His distinguishing characteristic is a thick oak board where most birds wear tail-feathers. He only sings when there is a storm coming, and then his song has a plaintive note as he warbles "Ki-yi, blame it on me."

How to Make Credit Grow.

Select a choice "bluff." Prepare this carefully, for the size of the credit depends entirely upon the general appearance of the bluff. When you think the bluff is strong enough, take it to a bank. If it goes there, you will have no further trouble. Your credit is now ready to transplant. Should it begin to droop, give it a check. Be careful not to use too many, for the proper use of the credit-plant is to enable its owner to live without money.

Fashion Note:

It is no longer good form to serenade young ladies. If you wish to win their favor, toot an automobile horn.

Health Hint:

a folding one.

JUNE

Woman's love is chaotic; man's idiotic.

DECKLE-EDGE FRECKLES

Summer begins June 20. By this time your freckles ought to have a good start.

Do you know what a freckle is, children? It is a golden-brown splash on the northwest corner of a young woman's nose, although her dearest friend says it is a fright.

A freckle is the same to a druggist as a pipe line is to Rockefeller—ready money and a lot of it.

One large deckle-edge freckle will cause a girl to buy nine kinds of cold cream, a dozen lemons, a pint of three-*ply acid, and a gross of poudre-de-phiz every Saturday afternoon.

All this gives vigor to the freckle.

RAISING CORN

Great care should be exercised in raising corn, especially the variety *Johnus Barleycornicus*. This may be raised with either hand. Some superstitious agriculturists believe in the efficacy of a simple incantation to be used in the act of raising this variety, such as "Here's how!" "Over the hot sands!" etc.

Pest Note:

If troubled with Junebugs try sweeping the cobwebs out of the attic; if troubled with aunts close up the house and go to the country.

This kind has never been known to fail in getting to a head. "Kernels" of Barleycorn originated in Kentucky.

SUNDAY

MONDAY (390 B.C.) Rome saved by the cackling of geese.

Many a woman prefers a love of a hat to the love of a husband.

HOW TO PLANT A BEER GARDEN

Now is the time for the ruddy faced beer gardener to lay out his beer garden. First procure a license and a few nice rustic chairs and tables. Next extract the seeds from a couple of seedy old suits and get your wife to sew them. Your barber will gladly supply you with cuttings, or, if you have the chance, unscrew a dozen or so bulbs from some healthy young electric light plant.

THERMOMETER ECONOMY:

This is the best time to buy thermometers. They cost no more than during the winter months and contain more than twice as much mercury.

With ordinary summer weather you should soon have a blooming fine lot of Anheuser bushes. As soon as the "buds" begin to pop, pack the roots with ice. Care should be taken to keep the plants from drying out.

Bottle flies, while annoying, do no real injury to the plant, and a judicious use of fly-paper will hold them in check.

In weeding, the beer gardener should be careful to distinguish between true widow's weeds and grass widow's weeds. The latter not only add color and beauty to the garden, but also give life to the plant.

Beer was never worn so much or used so extensively for interior decoration as it is today. There is a ready market for it at five cents a small bunch, and with intelligent grafting the bearing of the plant can be increased tenfold.

SUNDAY

MONDAY (858 B.C.) Sardanapulus dies on a bier 400 feet high.
Great envy among the thirsty.

TUESDAY

WEDNESDAY

THURSDAY July 4th is a great day for those who love to tell us that
"all men are created free and equal;" it is also a great day
for other Fourth of Juliars.

FRIDAY

SATURDAY (1839) John D. Rockefeller born. "First in the wells, first
in the pipes, first in the lamps of his countrymen."

JULY

Never look a gift mule in the hind leg.

HELPFUL HINT FOR JULY

The best authorities agree that it is inadvisable to attach a pack of lighted firecrackers to the tail of the household cat—without first making sure that the insurance policy on the house has been placed in a cold storage vault. A cat loves its favorite corner when it is mentally disquieted.

Carving Note:

JULY

Friendship is between men a convenience; between women, a commodity.

HINTS ON DRESS

Parasols should be carried on Sun-day.

Persons attending services in poorly heated churches are justified in making a cloak of their religion.

Eton jackets may be worn at the dinner table.

Silks with watered effects are popular with milkmen's wives.

The smart set is devoting a good deal of attention of late to the costuming of house dogs. Embroidered blankets during the winter and short pants during the hot summer weather are quite popular.

Shrinkable dress-patterns should always be sponged before they are made up, but the custom of putting an overcoat in "soak" after it has been worn awhile is still followed by gentlemen who are financially embarrassed.

Advice to Wives:

It is better to let your husband bring a friend home to dinner than it is to have a friend bring him home after dinner.

SUNDAY

MONDAY (1896) A bas Dreyfus!

—Supton Eclair.

SATURDAY

AUGUST

No successful business man ever spends his own money.

USEFUL FARM HINTS

Take good care of the farm tools. A crow-bar, if carefully housed when not in use, may, at a hundred years of age be just as pry as ever.

The man who sells six onions for a nickel cannot thrive,
For all can see that no one ought to give six scents for five.

In delivering a chair to the repairman to bottom he should be made to give a re-seat for it.

Feed the pigs well. A pig resembles a tree in one respect. It is by his root that he survives.

Farmers should encourage song birds to nest about the premises, but the lay of the hen must still bring them the most substantial delight.

It is when the farmer sees his fine crop maturing that he feels like singing, "In this wheat by and by."

In working about a mule that kicks, it should be remembered that his head-quarters are not his real business end.

HELPFUL HINT FOR SEPTEMBER

Excuse us, but we will not suggest any method for removing a coat of tan. We are assured on the best authority that Alice blue, radium gray, and fluorescent green will be the popular shades this summer. However, if yours is a tan coat, unbutton it and pull your arms out first; it will then come off easily enough.

IS THE SUN INHABITED?

An astronomer from Indiana claims to have discovered that the Sun is inhabited.

The Public will probably hoot at this just as it hooted at Columbus when he said the Earth was round.

The Public also hooted at wireless telegraphy in its early stages.

The Public is now hooting at the idea of airships ever becoming common carriers.

SIMPLE HOUSEHOLD RECIPES FOR VEGETARIANS

HAY A-LA-MODE

Take a pound of best timothy and soak it over night in fresh brine. Peel carefully and place it in a vegetable ivory saucepan. Add the yolk of an egg-plant and stir dreamily over an electric-fan till it disappears. Serve it right.

NUT CUTLET

Procure two dozen new nuts from any hardware shop. Grind them into a paste of about the consistency of the average politician. Over this pour a little Standard Oil from which the dividends have been removed, and stir briskly with a subp[oe]na till the oil begins to run; pour off, strain, and beat the paste with an axe until it looks and tastes like a veal cutlet.

IMITATION POTTED HARE

Take a false hare and pot it. This will be potted imitation hare, to be used for decorative purposes only.

STEWED RUBBER PLANT

Cut the plant into rubber bands, add a pinch of rubber cement and beat the whole mixture to beat the band until it

That love is blind accounts for so many miscues.

HEALTH HINTS

To cure seasickness: Turn the entire system inside out and hang it over the rail of the ship where the salt spray can drench it. Under this treatment the patient is pretty sure to feel somewhat relieved within a few days after the time of going ashore.

Persons troubled with poor circulation should ascertain how to increase the same by consulting the editor of their favorite Sunday newspaper.

Weak respiration may be improved by a diet of onions. They are highly recommended for strengthening the breath.

For insomnia try snoring, which is always a symptom of SOUND sleep.

To prevent hay fever: Go not in the way of the kittenish grass widow.

Care should be taken to prevent the occupants of the penitentiary from getting the measles. It would make trouble should they all break out at once.

Financial Note:

For "dust" in the house, ask hubby.

Art Note:

An artists' model is not necessarily a model of good behavior.

LITTLE STUDIES IN NATURAL HISTORY

How to Trim Rich Relations.

This is a very dangerous and delicate operation as the subjects can only be approached when they are asleep.

Provide yourself with a black-jack, a bottle of chloroform and a sponge. About three in the morning enter the room where the Richest Relation is sleeping. Going noiselessly to the bed, hold the sponge saturated with chloroform above the Richest Relation's nose. As his sleep becomes more profound, lower the sponge, and finally, with a quick motion, jam it in his mouth. Then strike his head with the black-jack, using all your strength. Rich Relations are suspicious and you cannot be too careful in business matters. This done, cut out the gold, silver, or bills, from his pockets, and any jewels or trinkets that you may find.

Note: In most cases it will not be necessary to kill the subject before you can do the trimming.

Health Hint:

While sleeping it is best to lie on the right side; also while awake.

RECIPE FOR MAKING PUMPKIN PIE

THE KIND THAT MOTHER DIDN'T USED TO MAKE
(Copyrighted)

First get your pumpkin. Then kill it and skin it. Cut pumpkin into small hunks with an axe. Boil the hunks. Boil them some more. Continue to boil hunks until they become a mucky gob. Unless you produce a mucky gob, the pie will be lumpy. Add fresh picked eggs to common cow's milk. Beat the eggs. They may be hard to beat, but beat them. Use a carpet beater if necessary. Now pinch the salt and add the pinch. Add a dash of cinnamon, add a few nutmegs (whole); these will give the pie that rich, nutty flavor so much desired. Add three-fourths cup of molasses. Do not add mustard—this is not a mustard plaster, it is a pie. Now add this mixture to the mucky gob. Stir until thoroughly mixed. Let stand while you give your pie-pans a coat of crust. Then pour mixture into pie-pans until they slop over. Place in a hot oven. When you can't stick a fork into the pies, they are done. Remove pies from oven and place on the back piazza to cool. If the dog likes them, they're all right.

HELPFUL HINT FOR NOVEMBER

Do not put brandy in your mince pies. It spoils it—the brandy, we mean.

We cannot speak too strongly against the pernicious habit of doctoring mince meat with brandy. It lures men on. The first baleful bite rouses the appetite, and soon they will be eating mince pie after mince pie all day, and eventually be laid up with indigestion. And even the aggressive clove curls up and faints when ordered to disguise a mince pie breath.

Horticultural Note:

This is a good month to get a slip from an ice plant. Walk through it without rubbers.

HOW TO GET RID OF THE GYPSY MOTH

First, climb the tree where he resides and carefully put him in your hip pocket; then fall heavily to the ground, landing on your back in such a manner as to disfigure the moth permanently.

If he survives, circulate stories derogatory to gypsies generally and he will leave of his own accord.

SUNDAY

EVOLUTION

"I'm not a beauty, I'll allow,"
Said the poor mule, lank and old,
"But I'm less of a jackass, anyhow,
Than my father was, I'm told."

MONDAY

FORECAST FOR NOVEMBER

The period between the 1st and the 9th will be marked by cold in the head and feet. To relieve cold feet bathe them in hot water before retiring; if they're your wife's, do the same. Another way to relieve cold feet is to get out of the game. From the 9th to the 16th there will be hard sledding for the poor and automobiling for the rich. Along the latter part of the month there will be a wave of hot mince pie, turkey, cranberry sauce, and other good things, followed by headache in the northern portion and stomach-ache in the southern portion.

Sagittarius (the Archer) is the sign in the Zodiac for November. It is "Sag's" business to shoot any good weather that shows itself above the skyline. Sometimes when "Sag" is not looking the summer Indian sneaks through the picket line.

Poultry Hint:

Time spent in trying to reform a bad egg is time wasted.

Health Hint:

Persons troubled with rheumatics should avoid attic rooms, but those who have the "shingles" can sleep on the roof.

HOW TO VIEW AN ECLIPSE

To properly view an eclipse to its full, a party of several good spirits should get together. Whether an eclipse of the sun or the moon, each should take a glass and smoke it. A great deal depends on the quality and character of the glass. Some glasses are much more certain to reveal an eclipse than are others.

If the first glass when properly smoked does not show the eclipse, try another and a stronger one. It is very probable that this glass will show the sun or the moon in the throes of an eclipse. Still another glass will show two suns or two moons. The third glass is likely to show several moons and several suns, fixed stars and those that need fixing, comets and milky ways, sky-rockets and pin-wheels, all combining to eclipse the finest display of Fourth of July fireworks ever projected by the mind of man.

And when the beholder of this mighty spectacle wakes up during the afternoon of the following day and sees but one simple unadorned sun doing business in the whole expanse of the broad, blue heavens, he has a feeling of pity for all those who retired early the night before and missed the social, spiritual, and educative uplift that comes from viewing an eclipse under just the proper conditions.

Health	Hint:
Young ladies desiring more color in their cheeks should try brushing the same with a two days' growth of bristles on a masculine chin.	

SUNDAY

WHO DARES?

Some men are brave, no doubt, in war,
But the iron-nerved rip-snorter
Is the fellow who rides in the sleeping-car
And refuses to tip the potter.

MONDAY

TUESDAY

WEDNESDAY (1890) Improved excelsior machines invented.

Same date—Breakfast food introduced.

THURSDAY

FRIDAY (1828) Daniel O'Connell, elected to parliament, refuses to take the oath.

Same date—First and only time on record a politician ever refused to take anything.

SATURDAY

NOVEMBER

The man behind the man in front constitutes a pull, not a push.

HELPFUL HINT FOR DECEMBER

Now, do not show your resentment toward those who forgot to send you presents last Christmas. Send each of them a little remembrance—but be sure to select something that will force them to spend forty or fifty dollars to take care of it or to surround it with the proper atmosphere. This is much better than mailing a post card and letting it go at that.

EYES TESTED AT HOME

It is a deplorable fact that human vision is falling below the normal standard day by day. A great many people weaken their eyes by looking for work, others in trying to see a joke where there is no joke.

Our patent home eye tester is presented herewith. Why pay good money to an oculist when you can test your eyes yourself?

DIRECTIONS FOR USING EYE-TESTER

Hold black disc and parallel lines 18 inches in front of your eyes. Close your eyes and look at diagram intently. If, then, any one line in the diagram seems to you to be more alike than any other line, or if any one line looks to be more parallel than two lines, you ought to wear spectacles.

Health Hint:

Fatigued brain-workers desiring to engage in some restful employment should try hair-dressing. The barber does most of his head-work with his hands.

FARMING IN ALASKA

It is encouraging to note that farming in our far Northwest possessions is on the boom. [Note to printer—be careful not to make "bum" out of "boom."] A bulletin issued by the Agricultural Department of our government, just as we go to press, shows that there are at present in Alaska 12 farms, four oxen, 13 cows, 176 chickens, 10 pigs, several cases of pneumonia and numerous games of "freeze-out." During the fiscal year there was harvested in Alaska \$165 worth of hay, \$95 worth of eggs and poultry, and a big crop of ice. There are certain advantages of farming in Alaska. In harvest time, for instance, a man never sweats at work. He markets his milk frozen and sells it by the hunk. You never hear of anybody crying over spilt milk in Alaska. It's the same way with eggs—no cold storage needed; the eggs are frozen before they are layed, thus retaining their fine, fresh flavor until used. You never hear of an egg passing from the sublime to the ridiculous stage in Alaska.

Farmers in Alaska plow with ice-picks and shoot the seed into the soil with a double-barreled shotgun. The 12 farmers in Alaska held a farmers' institute recently to talk over prospects for the current year. Basing prospects on \$165 worth of hay raised last year, they figure that if conditions are favorable they will raise \$175 worth this year.

THE PUBLISHER'S COZY CORNER CHAT

ONE OF OUR AWFUL SMART BOYS

Little George Hathadash lives in Megawolloppey, Maine, and is now three years old.

This brave ruddy-cheeked boy immediately took the Megawolloppey agency for the "Saturday Evening Roast," feeling sure that his ruddy cheek would carry him through successfully. Next Sunday, when everybody was gathered in church, who should come toddling down the aisle but George Hathadash distributing his first bundle of "Roasts," just as he had seen the train boy sell candy on a train of cars. "Better and brighter than any thermon," cried George Hathadash in his childish treble. "Here's your 'Thatursday Evening Roast,' the brother-in-law of the 'Ladies' Wall Paper.' Better and brighter than any thermon."

Of course that attracted attention, and almost before he knew it George had disposed of his whole bundle and established himself in business. He is now well on his way to win the beautiful prize of a silver carving knife that the "Roast" offers as an extra inducement to its hustling young salesmen.

There are other prizes and any boy with a good ruddy cheek is likely to get one of them.

But all boys are not like George Hathadash. We think *he* is going to be a President of the Common Council.

ADVICE TO PARENTS

It is now pretty generally believed that the name given to one to bear with him night and day, during all his years, has a most important influence in the work of shaping his life and fortune.

No doubt a careful investigation of the subject would show that most of the bare-pated men of the nation are so because while they were still helpless little children they were named Archibald, Theobald, Baldwin, and the like, whereas, had they been named Harry, or Harold, or Aaron, they would still be blest with well-thatched polls.

It is the bounden duty of parents to determine the business or profession in which they intend their children shall engage. If they wish their son to become a fancy poultry-breeder they should name him Egbert or Henry; if they wish him to become a surgeon they should call him Lancelot; if an arithmetician, Adam; if a clown, Guy or Joshua; if a street car driver, Oscar; if a real estate dealer, Lot or Orlando; if a man of wealth, Richard; if a debtor, Owen; and if they wish him to "go to grass," Timothy.

The same degree of thoughtful care should be exercised in naming girls, as well. If a girl is to become a musician she should be called Octavia or Dora; if a milliner, Hattie; if a writer, Adaline; if a cook, Dinah or Amelia; and so on to the end of the chapter.

Why is the standard octopus like a water-lily? Oh, fudge! It isn't like a water-lily at all. It is more like the skunk cabbage which gets a head in the world, but is always in bad odor.

ANSWERS TO CORRESPONDENTS

DIFFIDENT—The proper way to handle a lobster is to have him arrested.

ECONOMY—We know of no place where toothbrushes are laundered.

HISTORIAN—You are right. Noah was the largest individual holder of watered stock during his age.

SCIENCE—Yes, ice is slippery on both sides.

WELL WISHER—We return the \$5 note. We cannot accept counterfeit money from admirers.

SPORT—You lose. Adam was born an orphan.

RECENT INVENTIONS

A charming addition to the safety razor is a little fountain attachment that sprinkles the user with Bay Rum.

Up-to-date bachelors are rapidly adopting the new unlosable collar button. This collar button is made of rubber with a little electric light attachment and is guaranteed to bounce for five minutes. Every time it strikes the floor, the impact causes the light to shine brilliantly, thus making it impossible to lose sight of even in the darkest corner.

Updated editions will replace the previous one—the old editions will be renamed.

Creating the works from print editions not protected by U.S. copyright law means that no one owns a United States copyright in these works, so the Foundation (and you!) can copy and distribute it in the United States without permission and without paying copyright royalties. Special rules, set forth in the General Terms of Use part of this license, apply to copying and distributing Project Gutenberg™ electronic works to protect the PROJECT GUTENBERG™ concept and trademark. Project Gutenberg is a registered trademark, and may not be used if you charge for an eBook, except by following the terms of the trademark license, including paying royalties for use of the Project Gutenberg trademark. If you do not charge anything for copies of this eBook, complying with the trademark license is very easy. You may use this eBook for nearly any purpose such as creation of derivative works, reports, performances and research. Project Gutenberg eBooks may be modified and printed and given away—you may do practically ANYTHING in the United States with eBooks not protected by U.S. copyright law. Redistribution is subject to the trademark license, especially commercial redistribution.

START: FULL LICENSE

THE FULL PROJECT GUTENBERG™ LICENSE

PLEASE READ THIS BEFORE YOU DISTRIBUTE OR USE THIS WORK

To protect the Project Gutenberg™ mission of promoting the free distribution of electronic works, by using or distributing this work (or any other work associated in any way with the phrase “Project Gutenberg”), you agree to comply with all the terms of the Full Project Gutenberg License available with this file or online at www.gutenberg.org/license.

Section 1. General Terms of Use and Redistributing Project Gutenberg electronic works

1.A. By reading or using any part of this Project Gutenberg electronic work, you indicate that you have read, understand, agree to and accept all the terms of this license and intellectual property (trademark/copyright) agreement. If you do not agree to abide by all the terms of this agreement, you must cease using and return or destroy all copies of Project Gutenberg electronic works in your possession. If you paid a fee for obtaining a copy of or access to a Project Gutenberg electronic work and you do not agree to be bound by the terms of this agreement, you may obtain a refund from the person or entity to whom you paid the fee as set forth in paragraph 1.E.8.

1.B. “Project Gutenberg” is a registered trademark. It may only be used on or associated in any way with an electronic work by people who agree to be bound by the terms of this agreement. There are a few things that you can do with most Project Gutenberg electronic works even without complying with the full terms of this agreement. See paragraph 1.C below. There are a lot of things you can do with Project Gutenberg electronic works if you follow the terms of this agreement and help preserve free future access to Project Gutenberg electronic works. See paragraph 1.E below.

1.C. The Project Gutenberg Literary Archive Foundation (“the Foundation” or PGLAF), owns a compilation copyright in the collection of Project Gutenberg electronic works. Nearly all the individual works in the collection are in the public domain in the United States. If an individual work is unprotected by copyright law in the United States and you are

located in the United States, we do not claim a right to prevent you from copying, distributing, performing, displaying or creating derivative works based on the work as long as all references to Project Gutenberg are removed. Of course, we hope that you will support the Project Gutenberg mission of promoting free access to electronic works by freely sharing Project Gutenberg works in compliance with the terms of this agreement for keeping the Project Gutenberg name associated with the work. You can easily comply with the terms of this agreement by keeping this work in the same format with its attached full Project Gutenberg License when you share it without charge with others.

1.D. The copyright laws of the place where you are located also govern what you can do with this work. Copyright laws in most countries are in a constant state of change. If you are outside the United States, check the laws of your country in addition to the terms of this agreement before downloading, copying, displaying, performing, distributing or creating derivative works based on this work or any other Project Gutenberg work. The Foundation makes no representations concerning the copyright status of any work in any country other than the United States.

1.E. Unless you have removed all references to Project Gutenberg:

1.E.1. The following sentence, with active links to, or other immediate access to, the full Project Gutenberg License must appear prominently whenever any copy of a Project Gutenberg work (any work on which the phrase “Project Gutenberg” appears, or with which the phrase “Project Gutenberg” is associated) is accessed, displayed, performed, viewed, copied or distributed:

This eBook is for the use of anyone anywhere in the United States and most other parts of the world at no cost and with almost no restrictions whatsoever. You may copy it, give it away or re-use it under the terms of the Project Gutenberg™ License included with this eBook or online at www.gutenberg.org. If you are not located in the United States, you will have to check the laws of the country where you are located before using this eBook.

1.E.2. If an individual Project Gutenberg electronic work is derived from texts not protected by U.S. copyright law (does not contain a notice indicating that it is posted with permission of the copyright holder), the work can be copied and distributed to anyone in the United States without paying any fees or charges. If you are redistributing or providing access to a work with the phrase “Project Gutenberg” associated with or appearing on the work, you must comply either with the requirements of paragraphs 1.E.1 through 1.E.7 or obtain permission for the use of the work and the Project Gutenberg trademark as set forth in paragraphs 1.E.8 or 1.E.9.

1.E.3. If an individual Project Gutenberg electronic work is posted with the permission of the copyright holder, your use and distribution must comply with both paragraphs 1.E.1 through 1.E.7 and any additional terms imposed by the copyright holder. Additional terms will be linked to the Project Gutenberg License for all works posted with the permission of the copyright holder found at the beginning of this work.

1.E.4. Do not unlink or detach or remove the full Project Gutenberg License terms from this work, or any files containing a part of this work or any other work associated with Project Gutenberg.

1.E.5. Do not copy, display, perform, distribute or redistribute this electronic work, or any part of this electronic work, without prominently displaying the sentence set forth in paragraph 1.E.1 with active links or immediate access to the full terms of the Project Gutenberg License.

1.E.6. You may convert to and distribute this work in any binary, compressed, marked up, nonproprietary or proprietary form, including any word processing or hypertext form. However, if you provide access to or distribute copies of a Project Gutenberg work in a format other than “Plain Vanilla ASCII” or other format used in the official version posted on the official Project Gutenberg website (www.gutenberg.org), you must, at no additional cost, fee or expense to the user, provide a copy, a means of exporting a copy, or a means of obtaining a copy upon request, of the work in its original “Plain Vanilla ASCII” or other form. Any alternate format must include the full Project Gutenberg License as specified in paragraph 1.E.1.

1.E.7. Do not charge a fee for access to, viewing, displaying, performing, copying or distributing any Project Gutenberg works unless you comply with paragraph 1.E.8 or 1.E.9.

1.E.8. You may charge a reasonable fee for copies of or providing access to or distributing Project Gutenberg electronic works provided that:

- You pay a royalty fee of 20% of the gross profits you derive from the use of Project Gutenberg works calculated using the method you already use to calculate your applicable taxes. The fee is owed to the owner of the Project Gutenberg trademark, but he has agreed to donate royalties under this paragraph to the Project Gutenberg Literary Archive Foundation. Royalty payments must be paid within 60 days following each date on which you prepare (or are legally required to prepare) your periodic tax returns. Royalty payments should be clearly marked as such and sent to the Project Gutenberg Literary Archive Foundation at the address specified in Section 4, "Information about donations to the Project Gutenberg Literary Archive Foundation."
- You provide a full refund of any money paid by a user who notifies you in writing (or by e-mail) within 30 days of receipt that s/he does not agree to the terms of the full Project Gutenberg™ License. You must require such a user to return or destroy all copies of the works possessed in a physical medium and discontinue all use of and all access to other copies of Project Gutenberg™ works.
- You provide, in accordance with paragraph 1.F.3, a full refund of any money paid for a work or a replacement copy, if a defect in the electronic work is discovered and reported to you within 90 days of receipt of the work.
- You comply with all other terms of this agreement for free distribution of Project Gutenberg™ works.

1.E.9. If you wish to charge a fee or distribute a Project Gutenberg™ electronic work or group of works on different terms than are set forth in this agreement, you must obtain permission in writing from the Project Gutenberg Literary Archive Foundation, the manager of the Project

Gutenberg™ trademark. Contact the Foundation as set forth in Section 3 below.

1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread works not protected by U.S. copyright law in creating the Project Gutenberg™ collection. Despite these efforts, Project Gutenberg™ electronic works, and the medium on which they may be stored, may contain “Defects,” such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

1.F.2. LIMITED WARRANTY, DISCLAIMER OF DAMAGES - Except for the “Right of Replacement or Refund” described in paragraph 1.F.3, the Project Gutenberg Literary Archive Foundation, the owner of the Project Gutenberg™ trademark, and any other party distributing a Project Gutenberg™ electronic work under this agreement, disclaim all liability to you for damages, costs and expenses, including legal fees. YOU AGREE THAT YOU HAVE NO REMEDIES FOR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTY OR BREACH OF CONTRACT EXCEPT THOSE PROVIDED IN PARAGRAPH 1.F.3. YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

1.F.3. LIMITED RIGHT OF REPLACEMENT OR REFUND - If you discover a defect in this electronic work within 90 days of receiving it, you can receive a refund of the money (if any) you paid for it by sending a written explanation to the person you received the work from. If you received the work on a physical medium, you must return the medium with your written explanation. The person or entity that provided you with the defective work may elect to provide a replacement copy in lieu of a refund. If you received the work electronically, the person or entity providing it to

you may choose to give you a second opportunity to receive the work electronically in lieu of a refund. If the second copy is also defective, you may demand a refund in writing without further opportunities to fix the problem.

1.F.4. Except for the limited right of replacement or refund set forth in paragraph 1.F.3, this work is provided to you 'AS-IS', WITH NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of certain types of damages. If any disclaimer or limitation set forth in this agreement violates the law of the state applicable to this agreement, the agreement shall be interpreted to make the maximum disclaimer or limitation permitted by the applicable state law. The invalidity or unenforceability of any provision of this agreement shall not void the remaining provisions.

1.F.6. INDEMNITY - You agree to indemnify and hold the Foundation, the trademark owner, any agent or employee of the Foundation, anyone providing copies of Project Gutenberg™ electronic works in accordance with this agreement, and any volunteers associated with the production, promotion and distribution of Project Gutenberg™ electronic works, harmless from all liability, costs and expenses, including legal fees, that arise directly or indirectly from any of the following which you do or cause to occur: (a) distribution of this or any Project Gutenberg work, (b) alteration, modification, or additions or deletions to any Project Gutenberg work, and (c) any Defect you cause.

Section 2. Information about the Mission of Project Gutenberg

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the

efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non-profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Contributions to the Project Gutenberg Literary Archive Foundation are tax deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's business office is located at 41 Watchung Plaza #516, Montclair NJ 07042, USA, +1 (862) 621-9288. Email contact links and up to date contact information can be found at the Foundation's website and official page at www.gutenberg.org/contact

Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment

including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit www.gutenberg.org/donate.

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: www.gutenberg.org/donate.

Section 5. General Information About Project Gutenberg electronic works

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a

copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our website which has the main PG search facility:
www.gutenberg.org.

This website includes information about Project Gutenberg, including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.
