CRANBERRIES
the Year 'Round Berries with the Bounce

The Beginning of the Berries

Cranberries are truly North American berries. Before Columbus came to the new world, the tangy wild cranberries had an important place in everyday life here. Indian squaws used cranberries to brighten up food.

The Wampanoag Indians of Cape Cod area treated wounds from poisoned arrows with a cranberry dressing. Squaws made their rugs and blankets colorful with the red cranberry juice.

Pilgrim women learned of this wild berry from the friendly Indians. They soon began to create their own ways of fixing cranberries for their tables. They made cranberry sauces, bubbling tarts and nogs.

The Naming of the Berries

Cranberries were called different names by different Indians: “Sassamanesh” by eastern Indians and “Atoqua” by the Algonquians in Wisconsin. In New Jersey, where cranberries were the symbol of peace, “Pakimintzen” meant cranberry eater.

The word “cranberry” was a contraction of crane berry, an early name given to the berries because their pale pink blossoms resembled the head of a crane. Cranes were seen in the lowlands, enjoying the berries.

2

The Taming of the Berries

Cultivation of cranberries began in Massachusetts nearly 200 years after the landing of the Pilgrims. In 1816 Henry Hall of Dennis, Cape Cod, noticed that cranberries seemed to grow larger and juicier where sand from the dunes blew over the vines. Cultivation today came from this simple observation made more than 150 years ago.

Cranberries grow on peat soil that has been covered with a three inch layer of sand. Cuttings or branches from existing cranberry vines are planted deep enough to take root in the peat soil beneath the sand. The vines, planted about six inches apart, gradually spread over the ground forming a thick green carpet. The vines are weeded in the spring, pruned in the fall, fertilized and resanded every three or four years. Vines are protected from frost by flooding and irrigated in time of drought.

Birds are needed to control the insects. Bees pollinate the blossoms.

3

Cranberries were first picked by hand then by wooden fingered scoops which combed the berries from the vines. Since World War II, the scoops have been replaced by mechanical pickers which complete the harvest faster and cut down risk of frost damage.

The Testing of the Berries

Every cranberry delivered to a receiving station must measure up to the highest standards of quality before it can travel under the Ocean Spray label. After passing through a machine which blows out the chaff, a cranberry must demonstrate that it's got bounce. Bounce? That's right. You wonder why? It's this simple—a good firm berry will bounce. A soft berry won't. Mechanical separators give each berry seven chances to bounce over four-inch wooden barriers. Berries that don't have the necessary bounce are discarded. Only the lively ones go on to the screening room where canvas belts carry them between rows of sharp-eyed women who pick out any not up to Ocean Spray's standards of appearance.

After proving themselves worthy of the Ocean Spray label, cranberries for the fresh market go to packaging machines. Those for ready-to-serve products go either to wash tanks for immediate processing or to freezers which hold them until they're needed.

Ocean Spray Cranberries, Inc. is a national cooperative with grower-members in five cranberry-growing states: Massachusetts, New Jersey, Wisconsin, Washington and Oregon. They produce an annual harvest of over 200 million pounds of cranberries.

1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread works not protected by U.S. copyright law in creating the Project Gutenberg™ collection. Despite these efforts, Project Gutenberg™ electronic works, and the medium on which they may be stored, may contain “Defects,” such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

LIMITED WARRANTY, DISCLAIMER OF DAMAGES - Except for the “Right of Replacement or Refund” described in paragraph 1.F.3, the Project Gutenberg Literary Archive Foundation, the owner of the Project Gutenberg™ trademark, and any other party distributing a Project Gutenberg™ electronic work under this agreement, disclaim all liability to you for damages, costs and expenses, including legal fees. YOU AGREE THAT YOU HAVE NO REMEDIES FOR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTY OR BREACH OF CONTRACT EXCEPT THOSE PROVIDED IN PARAGRAPH 1.F.3. YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of certain types of damages. If any disclaimer or limitation set forth in this agreement violates the law of the state applicable to this agreement, the agreement shall be interpreted to make the maximum disclaimer or limitation permitted by the applicable state law. The invalidity or unenforceability of any provision of this agreement shall not void the remaining provisions.

1.F.6. Section 2. Information about the Mission of Project Gutenberg

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the

efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Foundation's EIN or federal tax identification number is 64-6221541. Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment

including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit www.gutenberg.org/donate.

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: www.gutenberg.org/donate.

Section 5. General Information About Project Gutenberg electronic works

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a

copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our website which has the main PG search facility:
www.gutenberg.org.

This website includes information about Project Gutenberg, including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.
