Royal Naval Artillery
Volunteers.

It has been thought desirable to publish the following statement, for the purpose of giving

some explanation of the services, duties, privileges, and general organisation of the Royal Naval Artillery Volunteers.

How to be recruited.

In inviting persons to enrol themselves in the corps, the Lords Commissioners of the Admiralty desire to extend the volunteer movement, so successfully established as an auxiliary to the land forces, to the defence of this country by sea. The proposal is novel and unprecedented in its character. In any other country than our own, it would, in all probability, be visionary. In England, however, we possess a guarantee for the success of such an undertaking, which cannot be found elsewhere. A taste for maritime pursuits pervades this insular nation, and the hope may therefore be confidently entertained that the appeal, now made to the patriotism of the nautical and aquatic sections of the community, will not be urged in vain.

Naval opinions in favour of such a force.

Eminent naval authorities have, for many years past, recommended the formation of a corps, for the purposes of coast defence, composed of persons who, while not possessing the wider experience of the seaman, are accustomed to the management of boats, and in the constant habit of going afloat. The Act for the Royal Navy Artillery Volunteers, passed in the last session at the instance of the Admiralty, and the regulations recently issued under that Act, afford the most convincing proof that, in the estimation of those who are actually responsible for the efficiency of the naval service, such a force is desirable. The concurrence of the naval members of the late administration in the various steps which have been taken, may likewise be quoted, in order to show that there is a general desire, among those to whom the welfare of the navy is an especial object of solicitude, for the success of the movement, which it is the object of the present writer to explain.

The harbour defence only.

It has been already stated that coast defence, and not service at sea, constitutes the especial sphere proposed for the Royal Naval Artillery Volunteers. The term coast defence is perhaps, in a certain sense, a misnomer. The defence of the most important of our commercial harbours against an attack from the sea could not be effectually conducted by a force composed exclusively of men trained for the land service alone. The approach to all the great ports of the United Kingdom from the sea involves the navigation of extensive

estuaries, where floating batteries, and armed rafts, and the use of torpedoes, are essential to a complete defence, and would in point of fact effectually prevent the nearer approach of a hostile fleet. In the laying out of torpedoes on an extensive scale, a flotilla of boats would be required; and in furnishing crews for such boats, the well-trained oarsmen, who, it is hoped, will be found willing to enroll themselves in the Royal Naval Artillery Volunteers, would be enabled to render valuable service. In all probability, by their co-operation in the hour of danger, they would release an equal number of highly trained seamen, who would form the crews of sea-going cruisers. All our greatest ports, London, Hull, Newcastle, Leith and Granton, ports for Edinburgh, Glasgow, Bristol, Southampton, Belfast, Dublin, Cork, are situated at the head of an extensive estuary, or at some distance from the mouth of a navigable river. The mere enumeration of these names is sufficient to show how large a sphere there might be, in the event of a threatened invasion, for the employment, in the important and essential task of harbour defence, of an auxiliary force composed, not of trained seamen, but of persons who may be described generally as aquatics.

It is to be observed that a mere oarsman, although not trained at the great guns, or in the use of rifle and cutlass, would be enabled to do good work in a service in which the use of boats must be largely resorted to; and that, in order to take a number at a gun mounted on a raft, such as the 'Nancy Dawson,' which the late Captain Cole improvised for our naval operations in the Sea of Azof, or to serve in a gun's crew in a floating battery for harbour defence, neither sea legs nor sea experience are indispensable qualifications. For such duties those qualities are required which equally combine to make a good gunner and a good soldier, whether afloat or on shore—a fair share of physical strength and activity, intelligence, and, above all, courage and patriotism.

The force need not be numerous.

Designed, as the Royal Naval Artillery Volunteers have been, for the especial work of coast and harbour defence, it is not necessary that the corps should be very numerous. It certainly need not exceed the numbers of our amateur yachtsmen and oarsmen, for whom the opportunity, now offered, of taking their share in the national defence, is chiefly intended. Enough will have been done, if a brigade can be formed at each of the principal ports, of a strength varying from 200 to 600 men.

The training required.

Having described the general scope of the duties, which would devolve on the Royal Naval Artillery Volunteers, in the event of their being called out for actual service, the nature of the training proposed for the members of the force may be briefly explained. The first consideration must be to familiarise them, to some extent, with the management of boats. This instruction might occupy much time in a corps composed of men, who had never been in the habit of going on the water; but, as the Royal Naval Artillery Volunteer corps is to be recruited in a large proportion from among aquatics, many of their number may be expected to possess this qualification without the necessity for special instruction.

The next point to claim attention will be the exercise at the great guns. Here I may venture to affirm, from personal experience, that the naval gun drills have been, in every detail, so carefully considered, the instructors are so completely masters of the subject which they have to teach, and the mechanical appliances are such effectual substitutes for heavy manual labour, that a few days of constant attention will suffice to make a volunteer a useful man in a gun's crew. The class of recruits required for the Royal Navy Artillery Volunteers possess advantages of intelligence and education, far beyond those which the practical seamen can enjoy; and we may anticipate, from the experience already acquired, that they will form some of the smartest gun's crews in any branch of the naval service. There is neither insurmountable difficulty, nor unduly fatiguing labour, in the drill at the great guns. The intricacies could be mastered in a few days, if the volunteers were kept continuously at drill, as they necessarily would be, should they ever be called out for actual service.

The essential point in a volunteer corps is to secure men physically capable of doing their work, and who may be confidently relied upon as ready to serve, whenever they may be called upon.

The small-arm exercises are still more easily mastered. A rowing man will find himself able to use his cutlass efficiently in a few hours; and, after a couple of days of continuous drill, he would be able to go through the manual and platoon exercises with satisfactory smartness and precision.

Rowing and yachting gentlemen will perceive that they will have no difficulty in acquiring the knowledge of their drills, which is required in order to make them efficient, in the winter months. They will not find that

their favourite amusements on the water, in the summer months, are incompatible with service in the Royal Naval Artillery Volunteers.

Facilities for drill.

Every effort will be made to afford to those, who may be willing to join the Royal Naval Artillery Volunteers, the necessary facilities for learning their drills. For the London brigade, the 'Rainbow,' a gun vessel well adapted for the purpose, is now being fitted out at Chatham. This vessel will be ready in two months from the date of this publication; and, when completed, will be moored in the Thames in a convenient position, off Somerset House. Should such an arrangement be found convenient for members of the Corinthian and other yacht clubs at Erith, it is possible that the 'Rainbow' may be moved, from time to time, to moorings near the pier at Erith; and, should a desire to that effect be expressed by the members of the rowing clubs higher up the Thames, an effort will be made to move the vessel to moorings near the boat-houses of any rowing clubs, which have their head-quarters below Kew Bridge.

No positive promise, however, can be given that the 'Rainbow' shall be moved. There are many points to consider, such as draft of water, height and width of arches, and obstruction of the navigation of the river.

For those clubs which are established still higher up the river, where there is not sufficient water to float the 'Rainbow,' facilities for instruction may be provided by mounting a 64-pounder gun on a raft, which could be towed from place to place, and moored to the bank of the river adjacent to the boat-houses belonging to the clubs. An instructor would accompany the raft; and, during the winter months, arrangements might be made for giving to volunteers an opportunity of going through their small-arm drills in a drill-shed, or other convenient place, available for the purpose. Thus it may be found possible to extend the system of instruction, by effectual, yet inexpensive, means, far up the Thames, and so to embrace towns such as Reading, Maidenhead, Henley, Windsor, and even the headquarters of rowing, the University of Oxford.

Inquiry having been made as to whether members will be expected to appear in uniform, whenever they attend drill, it may not be superfluous to mention that the regulations are silent on this point. Members will only be required to wear uniform on special occasions, of which due notice will be given.

Regulations as to
drill.

Members of the Royal Naval Artillery Volunteer corps may therefore rest assured that they will have the opportunity of being thoroughly instructed in the drills, in which it is considered desirable that they should be proficient.

The drills will comprise those for great guns, rifle, pistol, and cutlass, as in the Royal Navy, and no deviation from these drills is to be permitted.

The Officer-
Instructor.

All drills will be carried out by the instructor, attached to the brigades, under the officer-instructor. The permanent staff of a brigade will consist of an officer-instructor and one petty officer instructor for each battery. The officer-instructor will be commissioned as a lieutenant in the Royal Naval Artillery Volunteers, and will be selected from officers of or retired from the Royal Navy, of and above the rank of lieutenant. He will keep the muster-rolls, and it will be his duty to make himself acquainted with all the members of his brigade, and their qualifications. He will superintend all drills and exercises, and is to have complete control over the petty officer instructors, and to be responsible to the Admiralty for their conduct and efficiency.

Attendances at drill.

On the important point of the number of attendances at drill, the regulations require that every volunteer must attend at least two drills a month, until he has obtained the standard of an efficient. An efficient must be able to perform in a satisfactory manner the duties of any number except No. 1 at heavy gun exercise, or at revolving gun exercise, as applicable to the 64-pounder guns mounted in gunboats; and he must be possessed of a good knowledge of the manual, platoon, and cutlass exercises.

Service afloat not
compulsory.

It has already been explained that these qualifications may easily be acquired in a fortnight of continuous attendance at drill, by the application of a very ordinary amount of intelligence and attention. The regulations expressly avoid the imposition of any compulsory service afloat in time of peace. Target practice afloat is obviously essential to the efficiency of a naval gunner; and it is therefore desirable that every volunteer should have a fair number of opportunities of taking part in this useful exercise. In a long summer's day, the members of the London Brigade may embark in a gunboat at Erith or Gravesend, proceed to the Maplin Sands, off Shoeburyness—which is the

most convenient place for firing practice over a sea range—and return to London by a convenient hour in the afternoon or evening. It will doubtless be the desire of every naval volunteer to avail himself of a sufficient number of opportunities for target practice, to secure his own efficiency. But, as there are many who will be anxious to have a greater amount of exercise afloat, every volunteer, who wishes it, may embark once a year, and remain for a period of eight days in a gunboat, manned by a crew to be furnished from the battery to which he himself belongs. It should, however, be observed that, when called out for actual service, the volunteers will not be liable to embark in sea-going vessels. Whenever so assembled, they will serve on board any of H.M. ships employed in the defence of the coasts of the United Kingdom; unless, indeed, they volunteer for, and are found capable of doing duty in, sea-going cruisers. They will not be required to go aloft, or to attend to the fires in the stoke-hole. They will, however, have to accommodate themselves to the berthing and messing arrangements usual for the seamen of the Royal Navy.

Regulations issued by the Admiralty.

The regulations recently issued contain ample information as to the organisation of the Royal Naval Artillery Volunteers; and their practical effect will be summarised in the following extracts from the code of rules.

The Volunteers are raised under the Act passed in 1873. They will be called out by Royal proclamation, and will be liable to serve in any vessels employed for coast defence. They will be liable to perform all the ordinary duties of the vessels in which they may be embarked, in the same manner as those duties are performed by the regular crews of Her Majesty's ships, except those duties that can only be performed by practical seamen.

The Royal Naval Artillery Volunteer force, for administrative purposes, will be formed into brigades, and each brigade will consist of four or more batteries of from 60 to 80 men. Each brigade will be designated by a local name.

The following table contains the authorised establishment for brigades and the batteries composing them:—

Battery	Brigade of four batteries	Brigade of six batteries	Brigade of eight batteries
---------	---------------------------------	--------------------------------	----------------------------------

Lieutenant-commander		1	1	1
Sub-lieutenant	1	4	6	8
Chief petty officer	1	4	6	8
First-class petty officer	2	8	12	16
Second-class petty officer	2	8	12	16
Buglers	2	8	12	16
Leading gunners and gunners (equivalent to leading seamen and able seamen)	71/51	275/195	421/301	563/403
Lieutenant-instructor		1	1	1
First-class petty officer instructor	1	4	6	8
Surgeon		1	1	1
Bugle-major		1	1	1
Armourer		1	1	1
Total enrolled	80/60	320/240	480/360	640/480

In this table, two numbers divided by a line signify the maximum and minimum strength—thus 80/60 means not more than 80 and not less than 60.

Persons wishing to organise a corps to form part of a brigade of Royal Naval Artillery Volunteers should place themselves in communication with the Secretary of the Admiralty.

Whenever it is practicable, a brigade will be formed at each of the large ports in the kingdom, and the batteries composing the brigade will be raised in the immediate neighbourhood of the port.

When the Volunteers are not of sufficient strength at any port to form a brigade, the batteries enrolled on a part of the coast formed into a district will be formed into a brigade, and will be called a district brigade.

The object of this organisation is to unite separate batteries under one head, to secure uniformity among them, and to afford them the advantage of an officer-instructor.

Candidates for enrolment as members of the Royal Naval Artillery Volunteers must be of good character, and physically fit for the service; their eligibility will be judged by the commanding officer of the corps, assisted by such others of the corps as he may think fit to appoint for that purpose.

No person below the age of 17 is to be enrolled in the corps without the special authority of the Admiralty.

Boys of 14 years of age and upwards may be enrolled for the purpose of being trained as buglers.

Men belonging to any other force liable to be called out for service in case of war are not to be enrolled.

Apprentices are not to be enrolled without the consent of their masters.

Persons dismissed from any other service or corps for misconduct are not to be enrolled without the special sanction of the Admiralty.

The commanding officer of a corps is to give to any Volunteer, on his quitting the corps, a certificate of discharge, when requested to do so by such Volunteer.

Every member has power to withdraw from the corps upon giving 14 days' notice to that effect.

Enrolled members are classed as efficient and non-efficient.

All enrolled members who do not fulfil the conditions above referred to are reckoned as non-efficient.

Each brigade will be commanded by a lieutenant commanding.

Each battery will be commanded by a sub-lieutenant.

In each battery there will be, as it has already been stated, one chief petty officer, two 1st class, and two 2nd class petty officers.

The petty officers of a battery will be selected by the commanding officer of the battery.

When assembled for drill or inspection, the Volunteers will be under the command of the senior naval officer of the district. When the Volunteers are assembled for drill, the senior officer will be represented by the officer

instructor, a retired commander or gunnery lieutenant of the Royal Navy, whose duty it will be to see that all drills are properly carried out.

When afloat, the Volunteers are to be, in all matters whatsoever, under the command of the captain or commanding officer of the ship in which they may be.

The authority of the officers commanding batteries is strictly limited to their own batteries only. The discipline will be the same throughout the corps, and will be enforced by the lieutenant commanding the brigade, in conformity with the regulations issued by the Admiralty.

The lieutenant commanding will make arrangements for drill, securing, so far as it may be necessary, separate hours for each battery. Before adopting any final arrangements for drill, he will confer with the officer instructor.

There may be an occasional general muster of the corps, when considered necessary by the lieutenant commanding.

The batteries will take precedence at general parades according to their numbers, and not according to the seniority of their respective commanding officers.

The brigade staff will not be attached to a battery, but will act under the lieutenant commanding only.

Officers of the Royal Naval Artillery Volunteers rank with, but after, officers of the Royal Navy and Royal Naval Reserve of their respective ranks.

All officers of the Royal Naval Artillery Volunteers will be commissioned by the Admiralty.

The commanding officers of brigades will recommend, for the consideration of the Admiralty, names of persons for the appointments and promotion of officers in their brigades.

The appointment of an honorary commander to a brigade is allowed, and such honorary lieutenants and sub-lieutenants as the Admiralty may think fit to sanction.

Officers in full pay in the Navy or Army are not eligible for other than honorary commissions.

The uniform approved for the officers resembles generally that worn by officers of the Naval Reserve, silver being substituted for gold lace.

The officers of the
corps.

The principle upon which the Volunteers should be officered has been one of the most frequent subjects of discussion among those who have associated themselves with the movement from the commencement, and who have been provisionally enrolled, with the sanction of the Admiralty, in anticipation of the passing of the Act of Parliament of last year.

A desire has been expressed that no officers should be appointed to the corps, but that the Volunteers should serve only under direct naval command. Practically, the desire, so strongly felt, has been fulfilled in the arrangements which have actually been made.

Whenever called upon to serve afloat, or when embarked for the purpose of training, the Volunteers will be under the command of the officer, commanding the ship, in which they may be. When embarked for their first cruise in the autumn of the present year, the arrangements were, of necessity, experimental and provisional. There was a natural desire on the part of the officer commanding the 'Foam' to meet the wishes of the Volunteers themselves in every possible way, consistent with the efficient performance of the service, and the carrying on of the drills and exercises required. The same considerate spirit will doubtless prevail on all future occasions; but the Volunteers, who make themselves acquainted with the regulations, will clearly perceive that, whenever they embark, they place themselves under direct naval authority; and that, when afloat, their own officers are never to assume any naval command or authority whatever, unless ordered to do so by their superior naval officers.

The officers of the Volunteers will do their utmost to assist the naval officers to preserve discipline. They may, if they think fit, set an example to their men by taking an active part in all the duties and manual exercises. They may fall in at quarters, and take any number at the gun. In short, they may become, as much as they please, active working seamen and efficient practical gunners. It is for them to use their own discretion in determining how much or how little they shall participate in the manual labour, involved in carrying out the drills and exercises ordered by the naval officers in command.

When at drill, as it has already been pointed out, the officer-instructor will superintend the instruction of the Volunteers, and he will be responsible that all exercises are properly carried out, in accordance with the regulations from time to time laid down for the instruction of the Royal Navy. It will thus be evident that the paramount and undivided authority of the naval officers over the Volunteers when afloat, and the superior responsibility of the officer of instruction when the Volunteers are at drill, so largely overshadow the authority of the officers of the Royal Naval Artillery Volunteers in all matters, excepting those which relate to discipline and the civil administration and organisation of the corps, that it could not reasonably be expected that retired naval officers of rank should volunteer to become battery officers in the Royal Naval Artillery Volunteer Corps. Naval officers of less exalted rank do not often retire, if they have a great zeal for the service. Some exceptions, however, there must be to this general rule; and it is probable that a certain number of retired officers from the junior ranks of the Navy will, hereafter, kindly offer their services to command brigades or batteries in the ports or districts, in which they may happen to reside. The Volunteers will at all times feel a pride in availing themselves of such opportunities of acting under officers, who have received a high professional training in Her Majesty's naval service.

While the effect of the arrangements, which have been described, necessarily limits the sphere of the officers of the Royal Naval Artillery Volunteers, their services, in several important points, are not the less essential. It is to them that the Admiralty must look for the exercise of their personal influence, in inducing recruits to join their respective brigades and batteries; and their moral influence will be the principal security for the maintenance of good discipline in a force composed exclusively of Volunteers. Although, under the regulations, no fixed standard of efficiency is expressly required in an officer of the Royal Naval Artillery Volunteer force, those among them, who can command sufficient leisure for the purpose, will readily appreciate how excellent an effect must be produced by the personal example of an officer, who will take pains to make himself acquainted with the drills and exercises, in which the men under his command are instructed. He will have the opportunity of obtaining the same certificate of proficiency, which is given to those officers of the Naval Reserve, who become qualified to drill the seamen of the reserve at the great guns, and in the small arm exercises.

With the view of enlisting, in support of the Naval Volunteer movement, the potent influences which are derived from the esprit de corps, wherever it may reasonably and prudently be encouraged, it is proposed to associate certain batteries in the London brigade with some of the principal rowing and Corinthian yacht clubs on the Thames, and to give commissions to any gentlemen, otherwise eligible, who are instrumental in raising a full battery of Naval Volunteers.

The rowing and Corinthian yacht clubs.

The following list of some of the principal rowing clubs, will serve to show the large number of gentlemen, from whom assistance may be expected, in promoting the success of a movement for extending the Volunteer service to a certain sphere of naval operations;

Name of rowing club	Number of members
London	480
Kingston	425
Thames	300
Ino	300
Waldegrave	200
Twickenham	175
West London	170
Oscillators	162
North	150
Grove Park	150
Isleworth	100
Ilex	100
Molesey	—

The Corinthian yacht clubs on the Thames are equally able to render assistance, and are indeed capable of raising, if they think fit, an entire brigade for the Royal Naval Artillery Volunteer Corps.

The resources of the clubs located on the banks of the Thames have been particularly specified; because the present writer, in his connection with the movement under consideration, is more immediately identified with that

river. Readers of these pages, residing in the vicinity of any of our great ports, will doubtless be able to discover equally ample materials for the foundation of a sufficient force, for the purposes of co-operation in the defence of the coast, in their own neighbourhood. A corps, though it may be raised at some distance from the sphere of its intended operations, in the event of threatened invasion, will not be the less valuable for the defence of a great port.

The railway and the telegraph afford the means of concentrating large bodies of men in a few hours at any port on the shores of the United Kingdom. Wherever the coast-guard are stationed, the means exist of giving instruction to the Naval Volunteers. All the out-ports, at which men have been enrolled, can be visited by a gunboat at frequent intervals, to embark the Volunteers for target practice afloat; while those who wish to go to sea for an eight days' cruise, will have, every year, the opportunity of doing so.

The Volunteer
movement.

In conclusion, it may not be superfluous to offer a few observations on the Volunteer movement generally. The most cogent inducements to Volunteer activity may appear to be wanting at the present time. Our country is happily not threatened with the danger of foreign invasion. A becoming modesty will deter any individual connected with the Volunteer service from arrogating to himself any share in the prestige and distinction, which are the special privilege of the regular services. It is an essential feature of the present movement that there shall be no contribution from the state in the form of pecuniary reward for services rendered; and that every effort shall be made by the Volunteers to impose as small a burden as possible on the Exchequer. The sterner sense of duty, which is now encouraged among the Volunteers for land service, is opposed to all attempts to gain popularity for the auxiliary forces by festivals, holidays, and entertainments.

While, however, all these inducements and attractions are withheld, a higher standard of efficiency in the officers and the men is properly insisted on. In presence of the difficulties which arise from the altered conditions of the service, some earnest friends of the Volunteer movement have been oppressed with doubts, as to the possibility of stimulating the patriotism of the country to such a pitch, that Volunteers shall still be forthcoming in a time of profound peace. I do not conceal my individual opinion that compulsory service may fairly be required, from every individual of

military age, when the country is in danger. Unfortunately, so strong a measure would probably meet with an amount of resistance, which could not be overcome in this free country, where nothing affecting the social habits and prejudices of the people can be proposed, which is not universally popular. But I venture to hope that we may rely, in the absence of direct legal compulsion, on motives even more powerful than the strong arm of the law. If every man who is capable of co-operating in the defence of his country should feel himself compelled, by his sense of duty and patriotism, to enter his name in the roll of her defenders, the liability to service, thus imposed by the free will of the Volunteer upon himself, will be a far more effectual safeguard than legal compulsion, for the security and the honour of England.

The Volunteer movement affords the occasion for teaching, in the most practical form, the duty of self-sacrifice in a worthy cause.

In the artificial conditions of modern society, there are multitudes of men, who, in the ordinary exercise of their vocation, are unduly deprived of the opportunities for physical exercise and development. More especially is this true of the younger members of the professional and commercial classes. To them an appeal is now most earnestly made on behalf of the Royal Naval Artillery Volunteers. In taking a part in our drills and exercises, they will do a work beneficial to themselves individually, and conducive to the welfare of their country.

N.B.—Any gentlemen wishing to join the Royal Naval Artillery Volunteers, may communicate with Mr. Thomas Brassey, M.P., or Commander St. Vincent Nepean, R.N., at the temporary head-quarters, 4, Great George Street, Westminster. The regular drills of the corps will not be commenced until the drill vessel 'Rainbow' has been moored off Somerset House, and all other arrangements have been completed. Gentlemen are earnestly invited to send in their names, in the meanwhile, provisionally, so that the organisation of the brigade may be completed at an early date; and that the movement at the out-ports may be encouraged by the example of the metropolis.

COURTS OF INQUIRY.

Nature of.

45. A Court of Inquiry is not a judicial body; it has no power to administer an oath.

It is to be considered as a Board of which the Admiralty or an Officer in command of a Brigade or Corps may make use, to assist him in arriving at a correct judgment on any subject upon which it may be expedient to institute an inquiry.

Duties of.

46. The duties of a Court of Inquiry depend on the instructions which the convening authority may think proper to give.

It may be either employed merely in collecting and arranging evidence, or it may, in addition, be directed to give an opinion as to the facts established by that evidence; but it has no power to pronounce any judgment as to the course to be taken by the convening authority in dealing with those facts.

When facts connected with the conduct of an individual are submitted to the investigation of a Court of Inquiry, it is necessary that the instructions for the guidance of the Court should be sufficiently specific, as regards matter, names, dates, and places, to convey clearly to the Court the nature of the subject into which it is appointed to inquire, and also to enable the person whose conduct is called in question to know what he has to answer.

It rests with the authority who orders the assembly of the Court of Inquiry to decide whether it shall be open or closed.

All evidence taken by a Court of Inquiry is to be recorded as nearly as possible in the words of the witness and in the order in which it is received.

The proceedings when closed are to be signed by the President and Members, after which they are to be forwarded by the President to the convening authority.

If any Volunteer has cause to think himself aggrieved, he will represent his case to the Commanding Officer of his Battery. Surplus ammunition
to be collected.

61. When the Volunteers, at the termination of an exercise, are to return by railway or boat to their head-quarters, the arms are to be examined, and all the ammunition which has not been expended must be collected and placed in a metal or leather case, with a view to its being conveyed in safety to the head-quarters.

Cleaning and care of arms.

69. Great attention should be paid to the proper cleaning and care of the arms entrusted to the Volunteers, and the Commanding Officers are to point out to those under

their command that, should rust be allowed to accumulate on any part of a rifle, it must inevitably impair the accuracy and efficiency of the weapon.

Depositing arms.

70. The arms are to be deposited after drill in the armouries of the Brigade or Corps, except when the Commanding Officer may judge it expedient to permit members of the Brigade to keep their arms at their own houses.

As the Commanding Officer is responsible for the condition of the arms, this permission may be withdrawn by him whenever he may consider it necessary.

Creating the works from print editions not protected by U.S. copyright law means that no one owns a United States copyright in these works, so the Foundation (and you!) can copy and distribute it in the United States without permission and without paying copyright royalties. Special rules, set forth in the General Terms of Use part of this license, apply to copying and distributing Project Gutenberg™ electronic works to protect the PROJECT GUTENBERG™ concept and trademark. Project Gutenberg is a registered trademark, and may not be used if you charge for an eBook, except by following the terms of the trademark license, including paying royalties for use of the Project Gutenberg trademark. If you do not charge anything for copies of this eBook, complying with the trademark license is very easy. You may use this eBook for nearly any purpose such as creation of derivative works, reports, performances and research. Project Gutenberg eBooks may be modified and printed and given away—you may do practically ANYTHING in the United States with eBooks not protected by U.S. copyright law. Redistribution is subject to the trademark license, especially commercial redistribution.

START: FULL LICENSE

THE FULL PROJECT GUTENBERG™ LICENSE

PLEASE READ THIS BEFORE YOU DISTRIBUTE OR USE THIS WORK

To protect the Project Gutenberg™ mission of promoting the free distribution of electronic works, by using or distributing this work (or any other work associated in any way with the phrase “Project Gutenberg”), you agree to comply with all the terms of the Full Project Gutenberg License available with this file or online at www.gutenberg.org/license.

Section 1. General Terms of Use and Redistributing Project Gutenberg electronic works

1.A. By reading or using any part of this Project Gutenberg electronic work, you indicate that you have read, understand, agree to and accept all the terms of this license and intellectual property (trademark/copyright) agreement. If you do not agree to abide by all the terms of this agreement, you must cease using and return or destroy all copies of Project Gutenberg electronic works in your possession. If you paid a fee for obtaining a copy of or access to a Project Gutenberg electronic work and you do not agree to be bound by the terms of this agreement, you may obtain a refund from the person or entity to whom you paid the fee as set forth in paragraph 1.E.8.

1.B. “Project Gutenberg” is a registered trademark. It may only be used on or associated in any way with an electronic work by people who agree to be bound by the terms of this agreement. There are a few things that you can do with most Project Gutenberg electronic works even without complying with the full terms of this agreement. See paragraph 1.C below. There are a lot of things you can do with Project Gutenberg electronic works if you follow the terms of this agreement and help preserve free future access to Project Gutenberg electronic works. See paragraph 1.E below.

1.C. The Project Gutenberg Literary Archive Foundation (“the Foundation” or PGLAF), owns a compilation copyright in the

collection of Project Gutenberg electronic works. Nearly all the individual works in the collection are in the public domain in the United States. If an individual work is unprotected by copyright law in the United States and you are located in the United States, we do not claim a right to prevent you from copying, distributing, performing, displaying or creating derivative works based on the work as long as all references to Project Gutenberg are removed. Of course, we hope that you will support the Project Gutenberg mission of promoting free access to electronic works by freely sharing Project Gutenberg works in compliance with the terms of this agreement for keeping the Project Gutenberg name associated with the work. You can easily comply with the terms of this agreement by keeping this work in the same format with its attached full Project Gutenberg License when you share it without charge with others.

1.D. The copyright laws of the place where you are located also govern what you can do with this work. Copyright laws in most countries are in a constant state of change. If you are outside the United States, check the laws of your country in addition to the terms of this agreement before downloading, copying, displaying, performing, distributing or creating derivative works based on this work or any other Project Gutenberg work. The Foundation makes no representations concerning the copyright status of any work in any country other than the United States.

1.E. Unless you have removed all references to Project Gutenberg:

1.E.1. The following sentence, with active links to, or other immediate access to, the full Project Gutenberg License must appear prominently whenever any copy of a Project Gutenberg work (any work on which the phrase “Project Gutenberg” appears, or with which the phrase “Project Gutenberg” is associated) is accessed, displayed, performed, viewed, copied or distributed:

This eBook is for the use of anyone anywhere in the United States and most other parts of the world at no cost and with almost no restrictions whatsoever. You may copy it, give it away or re-use it under the terms of the Project Gutenberg™ License included with

this eBook or online at www.gutenberg.org. If you are not located in the United States, you will have to check the laws of the country where you are located before using this eBook.

1.E.2. If an individual Project Gutenberg electronic work is derived from texts not protected by U.S. copyright law (does not contain a notice indicating that it is posted with permission of the copyright holder), the work can be copied and distributed to anyone in the United States without paying any fees or charges. If you are redistributing or providing access to a work with the phrase “Project Gutenberg” associated with or appearing on the work, you must comply either with the requirements of paragraphs 1.E.1 through 1.E.7 or obtain permission for the use of the work and the Project Gutenberg trademark as set forth in paragraphs 1.E.8 or 1.E.9.

1.E.3. If an individual Project Gutenberg electronic work is posted with the permission of the copyright holder, your use and distribution must comply with both paragraphs 1.E.1 through 1.E.7 and any additional terms imposed by the copyright holder. Additional terms will be linked to the Project Gutenberg License for all works posted with the permission of the copyright holder found at the beginning of this work.

1.E.4. Do not unlink or detach or remove the full Project Gutenberg License terms from this work, or any files containing a part of this work or any other work associated with Project Gutenberg.

1.E.5. Do not copy, display, perform, distribute or redistribute this electronic work, or any part of this electronic work, without prominently displaying the sentence set forth in paragraph 1.E.1 with active links or immediate access to the full terms of the Project Gutenberg License.

1.E.6. You may convert to and distribute this work in any binary, compressed, marked up, nonproprietary or proprietary form, including any word processing or hypertext form. However, if you provide access to or distribute copies of a Project Gutenberg work in a format other than “Plain Vanilla ASCII” or other format used in the official

version posted on the official Project Gutenberg website (www.gutenberg.org), you must, at no additional cost, fee or expense to the user, provide a copy, a means of exporting a copy, or a means of obtaining a copy upon request, of the work in its original “Plain Vanilla ASCII” or other form. Any alternate format must include the full Project Gutenberg License as specified in paragraph 1.E.1.

1.E.7. Do not charge a fee for access to, viewing, displaying, performing, copying or distributing any Project Gutenberg works unless you comply with paragraph 1.E.8 or 1.E.9.

1.E.8. You may charge a reasonable fee for copies of or providing access to or distributing Project Gutenberg electronic works provided that:

- You pay a royalty fee of 20% of the gross profits you derive from the use of Project Gutenberg works calculated using the method you already use to calculate your applicable taxes. The fee is owed to the owner of the Project Gutenberg trademark, but he has agreed to donate royalties under this paragraph to the Project Gutenberg Literary Archive Foundation. Royalty payments must be paid within 60 days following each date on which you prepare (or are legally required to prepare) your periodic tax returns. Royalty payments should be clearly marked as such and sent to the Project Gutenberg Literary Archive Foundation at the address specified in Section 4, “Information about donations to the Project Gutenberg Literary Archive Foundation.”
- You provide a full refund of any money paid by a user who notifies you in writing (or by e-mail) within 30 days of receipt that s/he does not agree to the terms of the full Project Gutenberg™ License. You must require such a user to return or destroy all copies of the works possessed in a physical medium and discontinue all use of and all access to other copies of Project Gutenberg™ works.
- You provide, in accordance with paragraph 1.F.3, a full refund of any money paid for a work or a replacement copy, if a defect in the electronic work is discovered and reported to you within 90 days of receipt of the work.

- You comply with all other terms of this agreement for free distribution of Project Gutenberg™ works.

1.E.9. If you wish to charge a fee or distribute a Project Gutenberg™ electronic work or group of works on different terms than are set forth in this agreement, you must obtain permission in writing from the Project Gutenberg Literary Archive Foundation, the manager of the Project Gutenberg™ trademark. Contact the Foundation as set forth in Section 3 below.

1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread works not protected by U.S. copyright law in creating the Project Gutenberg™ collection. Despite these efforts, Project Gutenberg™ electronic works, and the medium on which they may be stored, may contain “Defects,” such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

1.F.2. LIMITED WARRANTY, DISCLAIMER OF DAMAGES - Except for the “Right of Replacement or Refund” described in paragraph 1.F.3, the Project Gutenberg Literary Archive Foundation, the owner of the Project Gutenberg™ trademark, and any other party distributing a Project Gutenberg™ electronic work under this agreement, disclaim all liability to you for damages, costs and expenses, including legal fees. YOU AGREE THAT YOU HAVE NO REMEDIES FOR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTY OR BREACH OF CONTRACT EXCEPT THOSE PROVIDED IN PARAGRAPH 1.F.3. YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES

EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

1.F.3. LIMITED RIGHT OF REPLACEMENT OR REFUND - If you discover a defect in this electronic work within 90 days of receiving it, you can receive a refund of the money (if any) you paid for it by sending a written explanation to the person you received the work from. If you received the work on a physical medium, you must return the medium with your written explanation. The person or entity that provided you with the defective work may elect to provide a replacement copy in lieu of a refund. If you received the work electronically, the person or entity providing it to you may choose to give you a second opportunity to receive the work electronically in lieu of a refund. If the second copy is also defective, you may demand a refund in writing without further opportunities to fix the problem.

1.F.4. Except for the limited right of replacement or refund set forth in paragraph 1.F.3, this work is provided to you 'AS-IS', WITH NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of certain types of damages. If any disclaimer or limitation set forth in this agreement violates the law of the state applicable to this agreement, the agreement shall be interpreted to make the maximum disclaimer or limitation permitted by the applicable state law. The invalidity or unenforceability of any provision of this agreement shall not void the remaining provisions.

1.F.6. INDEMNITY - You agree to indemnify and hold the Foundation, the trademark owner, any agent or employee of the Foundation, anyone providing copies of Project Gutenberg™ electronic works in accordance with this agreement, and any volunteers associated with the production, promotion and distribution of Project Gutenberg™ electronic works, harmless from all liability, costs and expenses, including legal fees, that arise directly or indirectly from any of the following which you do or cause to occur: (a)

distribution of this or any Project Gutenberg work, (b) alteration, modification, or additions or deletions to any Project Gutenberg work, and (c) any Defect you cause.

Section 2. Information about the Mission of Project Gutenberg

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non-profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Contributions to the Project Gutenberg Literary Archive Foundation are tax deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's business office is located at 41 Watchung Plaza #516, Montclair NJ 07042, USA, +1 (862) 621-9288. Email contact

links and up to date contact information can be found at the Foundation's website and official page at www.gutenberg.org/contact

Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit www.gutenberg.org/donate.

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: www.gutenberg.org/donate.

Section 5. General Information About Project Gutenberg electronic works

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our website which has the main PG search facility: www.gutenberg.org.

This website includes information about Project Gutenberg, including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.
