These torture instruments were purchased on behalf of the Earl of Shrewsbury, by Mr. J. D. Ichenhäuser, expert in works of art and curios, 68 New Bond St., London, by whom this catalogue was compiled.

The entire collection was removed from the Royal Castle of Nuremberg, in April, 1890, since which time it has been exhibited in all the principal cities of Great Britain by special permission of Lord Shrewsbury.

It is the original and only genuine collection of its kind, and what adds to the impressiveness of the exhibition is the fact that *every one of the barbarous implements have been in actual use.*

THE RENOWNED COLLECTION OF INSTRUMENTS OF TORTURE FROM THE ROYAL CASTLE OF NUREMBERG.

Nuremberg, the old Reichstadt, the cradle of the Hohenzollerns, the birthplace of many of the fine arts, has a history which dates back to the earliest times. One of its oldest monuments is the burg or castle, of which the five-cornered tower existed in the days of the heathen. Here for many years this collection of torture instruments was an object of interest, not only to the inhabitants of the town, but to all travellers whose wanderings brought them that way. No journey to Bavaria could be counted completed until the burg had been visited and the “Iron Maiden” interviewed. The fiendish ingenuity displayed in the construction of these instruments so that they should inflict the greatest amount of suffering, shows that the question of torture must have not only been well thought out, but that it must have had the sanction and, if we may use the term, patronage of the law-makers and municipalities. As we look through this collection, we see that neither tender youth, weak old age, delicate female, or ailing man was spared its horrors or its shame. And we cannot be too thankful to think we live in an age where more enlightened and humanitarian principles prevail.

This collection, so complete, may be to many somewhat grewsome, but it is of the *highest educational value*, as showing us the great strides which have been made, not only in arts and sciences, but in the interests of truth, humanity, and justice. No more does the *Iron Maiden* clasp her unhappy and unwilling victim in her deadly embrace; no more are men and women broken on the *wheel*, tortured on the *rack*, branded with *red-hot irons*, driven mad with *thumb-screws*, stretched on *ladders*, or suffer the terrible and lingering “*peine forte et dure*,” and never again will the laws allow tender women to be mutilated by the horrible and sharp-clawed *spider*.

These and hundreds of other instruments of the greater tortures will be found catalogued hereafter. For the punishments of lesser degrees or shame tortures, as great an amount of ingenuity is also evident. Shame masks and stocks for scolds; masks and cages for fraudulent tradesmen; for drunkards and brawlers, the drunkards' mantle, various masks, stocks, branding-irons, collars, bracelets. For thieves and thief-children there are also torture instruments of various designs, all cruel and pitiless.

Religious or penitential torture is very rich in examples. Here we find branding-irons, for burning on foreheads and backs; martyr lashes, which at every stroke tear away the flesh; pear-shaped screw gags, which entirely prevented any cries or exclamations; iron-spiked collars; torture seats; feet squeezers; iron boots, which were filled with hot water or molten metal; thumb-screws, etc., etc.

The executioner's axe or sword ended all torture, and no doubt in many cases came as a happy relief. Space forbids our enlarging further upon this interesting subject. To the student of bygone generations, and their cruelty in the dispensation of justice, we commend an inspection of the torture instruments catalogued herein.

38 **Old Roman Martyr Pincers.** With these terrible tongs or pincers were culprits and Christian martyrs tortured. Not only did they pinch the skin, or flay, but entire pieces of flesh were pulled away with them from the ribs. In the old Roman days they were known as “Ungula,” and the early Germans knew them as “Klaue,” because of their roughened or teeth-like appearance.

38a An old book on Martyrdom and Torture, with illustration of these Pincers and description of their use.

39 **Condemned’s Crucifix.** Crucifix made of wood, which the condemned criminal carried in his hand on his way to execution.

40 **Pair of Iron early Handcuffs or Wristlets,** with lock fastening.

41 **Cruel Iron Flagellant,** with five woven iron tails, each studded with a sharp spur-shaped star to cut into the flesh.

42 **A Jointed Iron Handcuff,** by which the wrists were fastened together.

43 **Strong Iron Double Hand-fastener and Thumbscrew** combined.

44 An Iron Implement affixed to the Ears before they were cut off.

45 Strong Iron Body Ring, with long centre chain and a couple of strong iron wrist-fasteners.

In the Treatise on Instruments of Torture, by Antonio Gallonio, published in Rome in 1591, in which the author discourses upon the true way in which the followers of Christianity were martyred, we find diagrams showing the use of this belt and wrist-holders. The victim was suspended thus, fastened to a beam or cross-bar, and weights were hung upon his neck and feet until his body was almost torn asunder.

46 A Pair of Finger-screws.

47 Handscrew, with coarsely roughened plank, so as to hurt the hands as much as possible.

48 Iron Gallows Hook.

49 Extra Strong Wrought-iron Spiked Collar studded with spikes inside and out.

50 Iron Mail Chain Foot-glove, which was placed on the foot when red hot.

51 A similar Instrument.

52 A Branding Iron from Bamberg for marking the letter B.

53 Large Pair of Iron Martyr Tongs for tearing the flesh.

54 Large Ball-shaped Iron Ladle, into which boiling oil was poured and then dropped on to the body through the perforations.

55 A Pair of Manacles with strong iron bar between, by which a prisoner was fastened to a horse.

It seems beyond a doubt that manacles originally came from Spain. In the history of English torture these instruments were quite unknown until found in some of the ships of the Spanish Armada in the year 1588. They were immediately adopted as a means of securing a prisoner, and those now shown in the Tower of London are of Spanish manufacture, and date back over 350 years.

56 Spanish Wrought-iron Collar, completely studded with sharp spikes inside and out.

57 Branding Iron which marked the letter U.

- 58 **Strong Iron Body Belt** with long iron chain and the side chain fixers to fasten to wall or to a running horse.
- 59 **An Early Spanish Pair-hand Handcuffs** with lock fastening.
- 50 **A somewhat similar one** of different formation, early Italian.
- 51 **Early German Copper Mask, Devil's Head and Horns**, all embossed with small heads over the nose, mouth, and eyes, typical of a slanderous backbiting personage.
- 52 **A somewhat similar same-period Copper Mask**, likewise with small embossed faces on end of nose, etc.
- 53 **A somewhat similar Mask**, but with frog's eyes.
- 54 **Curious Iron Brank**, shape of devil's head, with stumpy horns, and small faces on the nose and cheeks, and with trumpet ears, for listeners, backbiters, etc.
- 55 **Strong Wooden Roller**, which was placed on the rack or on the stretching gallows, and over which the victim was rolled and stretched.
- 56 **Mask worn by the Judge of the notorious Vehmgericht**, of copper, pierced with five breathing holes, also with small perforations all round the edge so as to permit of a leather or cotton cap being sewn on.

As is well known, the accused before the Vehmgericht (secret judgment) did not see his judges. All were masked completely, the head being covered with a cap, and the face with such a mask as here shown. The accused may have been before his dearest friend, brother, or father, but he could not tell; and so sacred was the judge's oath, and so strong the influence exercised by the awe-inspiring tribunal, whose inexorable judgment none might gainsay, that the judges themselves dared not reveal their identity.

Voltaire, in his commentary on the Marquis de Beccana's *Essay on Crimes and Punishment* (1749), says: "Charlemagne established the most cruel and most horrible tribunal that ever existed. It was known as the Vehmic Court, or the judgment of Westphalia. It went so far as to punish with death those who broke fast during Lent. When an execution was ordered and no executioner was forthcoming, the youngest judge had to officiate. Delegates from this court spread all over Germany, taking information secretly and

unknown to the accused, who was often condemned without being heard. There was no appeal except to the emperor, and his commands of mercy were not always effective. This tribunal was finally abolished in the reign of Maximilian I. The Venetian Council of Ten was, in comparison, a court of mercy.”

57 **Scold's Wooden Collar**, with two places for the hands. See note below.

58 **A somewhat similar Collar**, with four places for hands, used for a man and his wife.

NOTE.—Mr. William Andrews, in his interesting book, *Old-Time Punishments*, says: “Scolding women in the olden times were treated as offenders against the public peace, and for their transgressions were subjected to several cruel modes of punishment. The corporations of towns during the Middle Ages made their own regulations for punishing persons guilty of crimes which were not rendered penal by the laws of the land. The punishments for correcting scolds differed greatly in various parts of the country.... The free use of the tongue gave rise to riots and feuds to such an extent that it is difficult for us to realize at the present day.”

59 **Long Wooden Roller**, studded with spikes, and known as a “spiked hare;” used on the rack.

70 **A similar Roller**, with raised edges.

71 **Scold's Pillory**, shape of a violin, made of wood. In this the woman charged with being a scold was affixed, and so driven round the town, or whipped at the cart's tail, accompanied by the public executioner, or a drummer, who beat his drum to call the public's attention.

72 A ditto, somewhat longer.

73 **Scold's Collar of Oak**, in the shape of a ruff. This was fitted round the neck and had to be worn as shame or penitence punishment for a certain time in a public place.

74 **Spanish Iron Collar**, studded inside with iron spikes and with sharp saw-toothed edges; worn by religious martyrs.

75 **A very similar Iron Collar**.

76 **Malefactor's Collar Pillory**, with places for both hands. Made of wood, with very broad collar board so as to show out well in a crowded market-place or church-porch.

77 A ditto, smaller, with sexagonal rim.

78 A ditto, round edge, with notched ornamentation.

-
- A black and white woodcut illustration depicting a public execution scene. In the center, a man is hanging from a gallows, his body exposed and his arms outstretched. To the right, four men in period clothing are seated at a table, observing the execution. One man is writing on a document. To the left, a table holds a candle and a book. The background shows a building with arched windows and a door. The scene is set outdoors, with a large pile of straw or hay in the foreground.

See Catalogue, No. 953.

- “Die Herrn steuern dem Unheil
Und ich executire das Urtheil

Wenn ich das Schwerdt thu aufheben
So geb Gott dem armen Sünder das ewige Leben.”

TRANSLATION.—“The world steers towards mischief, and I execute the judgment. When I lift up my sword, God give the poor sinner eternity.”

34 **Executioner’s Extra Heavy Sword**, with sharp-pointed blade, straight long guard and wire-covered hilt, strong iron-pointed ferrule top.

35 **Executioner’s Sword**. Thuringen executioner, Balthasar Glaser. With gilt metal work, and the motto:

“Hüte Dich, Thu kein Böses nicht,
So Kommst du nicht ins Gericht.”

TRANSLATION.—“Be careful, do no ill, and you won’t come to judgment.”

Under the verses are engraved “Justice & St. Michael.” On the handle is the letter “G.”

36 **An Extra Long and Extra Strong Iron Chain**, with foot shackle at one end and strong iron bar to fasten on to a wall at the other end.

37 **A Heavy Hempen Scourge or Whip**, with numerous lashes, each one having a steel barb woven into it so as to cut at each stroke.

38 **A similar one, not so Heavy**.

It was a common thing in England for prisoners to be whipped with a three-cord whip knotted at each end, and in the feudal times servants were often whipped to death. Whipping vagrants at the cart’s tail was also greatly resorted to, and in many a country town or village a whipping-post exists until this day. In the penitential cell the scourge was also greatly used, and from what we can gather was of the utmost severity. Many of the whips and rods in this collection seem to be of unusual strength, and were doubtless used by the public executioner on criminals without the slightest mercy.

39 **Long Spiked Wooden Roller**, with numerous rows of long spikes. Known as a “spiked hare.” The victim was laid on a bench or stretched on a ladder, and the “spiked hare” was rolled over his naked body, or, to vary it, he was rolled over the spikes. Some of the old writers describe this torture as being most fearful.

40 **Thief-catcher**. Very curious instrument. Was used with a long iron handle, terminating at the top with a round hoop, garnished inside with

triangular iron spikes. The front of the hoop is made to push open, so that the officer of the law can push it round the neck, arm, or leg of whoever he wants to catch, who on his or her part has no possible means of getting away, the ring having closed on him and preventing any effort to escape.

11 **Iron Manacle.**

12 **Manacle**, somewhat similar.

13 **A Pair of Wrist-fasteners**, each at the end of a long iron bar so as to keep the arms wide apart; were used when prisoners were being whipped.

18 **Headsmen's Sword**, from Bayreuth, with brass grip, and with the motto:

“Ich stehe hoff nebst Gott zu richten recht,
Jesus du bist der Richter und ich der Knecht.”

Under this a figure of Justice and some ornamentation; also:

“O Herr nimm Diesen Sünder auff in dein Reich,
Damit er kann werden vor einem glücklichen streich.”

TRANSLATION.—“O God, take this sinner into thy kingdom,
That he may know happiness.”

Under this a knight with dagger, and some ornamentation.

- l06 **Relief Carved Portrait**, in wood, of the Nuremberg hangman of the year 1578, with manuscript of the period. Very characteristic.

- l08 **Iron Mail Chain Glove**. Was made red hot before being put on.
- l09 **A similar Mail Glove**.
- l10 **Hiesel's Gun**, a very heavy and massive arm with very large bore, the stock so arranged by Hiesel himself that he could fire it off from either shoulder. The lock was also engraved by him.

Hiesel was a notorious bandit whose name spread terror through all the hill-lands of Upper Bavaria. For many years he was able to elude the vigilant hunt made for him by the soldiery or police, but at last he was taken and executed.
- l11 **Strong Iron Foot Presser or Foot Screw**, the cruelty of which is apparent.
- l12 **Set of Irons**, consisting of two strong iron bands, two shackles, a pair of handcuffs, padlock, small weights, and twelve-link chain; with this a police officer was enabled to couple a pair of prisoners.

“VOR DIE SCHWATZHAFT—UND UNZÜCHTIGEN WEIBER ZU POEN. SIRAH NAGELNEI GEIGENMACHER.—

l36 **An Iron Tongue-tearer** in the shape of a pair of tongs with screw. With this instrument a strong hold could be taken of a tongue so that it could be torn right out by the roots. Was used on blasphemers, heretics, etc., etc.

Louis IX., King of France (St. Louis), made a law against blasphemers. He condemned them to a new punishment. Their tongues were to be torn and pierced with red-hot irons, and so terrorizing was this mandate that many of the expletives and oaths which had hitherto been used were moderated and changed. Tête de Dieu became “Tête bleu,” Corps de Dieu “Corbleu,” Sang de Dieu “Sangbleu,” etc., etc. By this means the nobles hoped to escape the wrath of the King and at the same time make their peace with the offended clerics. Many of these so changed words are in vogue now, though few imagine the source whence they came.

l37 **An Iron Armlet and Lock Combined**, with inscription of maker’s name.

l38 **A Very Early Strong Iron Double Hand-fastener** with lock and key.

l39 **An Iron Whip** with six sharp-edged iron tails.

l40 **Spanish Mouth-Pear or Gag**, made of iron and in sections, so that it may be squeezed together in the shape of a pear, hence its name. This was used for those condemned to torture or those privately seized. The instrument was forced into the mouth, and then, by touching the screw, it springs open, and the victim could utter no sound.

It was not in human nature (except in *very rare* cases) to stand this ordeal long; and under its baneful influence, its heart-breaking torture, who knows how many perfectly innocent people were accused and convicted of crimes they had never thought of?

Breaking on the wheel was not a figure of speech, but a stern and terrible reality. When the condemned was laid out on the wooden bed and the wheel brought into action over and over him and weighted with all the strength of the executioner and his assistants, every bone in the body was literally broken. In some countries the victim was tied on to a wheel and turned round and round as the wagon moved; he, sometimes over, sometimes under it. But here the combination of wheel and wooden bed seems much more cruel and lingering.

‡78 **Witch-catching Staff**, with the words Jesus, Nazarenum, and Ave Maria.

Under the iron point for prodding is also a hook for catching hold. This was so arranged that when a witch was to be caught it was unnecessary to touch her, as in those days of superstition no man could lay his hand upon a witch for fear of all sorts of evil spells. Catching hold of her with this staff, protected as it was by the words Jesus, Nazarenum, and Ave Maria, was considered to have the effect of circumventing all her machinations.

‡79 **Witch-catcher Staff** of a somewhat different kind.

‡80 **Curious Iron Brank or Mask**, with small eyes, with pointed beard and weathercock on crown, showing a changeable disposition or one given to untruths.

‡81 **Strong Iron Body Ring**, with two chains.

‡82 **Another**, lighter, with hinged movement.

‡83 **Curious Mask** without any face, with long speaking-trumpet and snake on which to hang any stolen property; for thieves.

‡84 **An Iron Brank**, without face, long ass's ears for drunkards.

‡85, 486, 487 **Three strong Iron Leglets**, with long chains.

‡88 **Large Iron Chandelier**, used for lighting the torture chamber.

‡89 to 491 **Three long Chains and Iron Fasteners**, various sizes and strengths.

!92 **A Strong Circular Wood and Iron Pulley** and rope for running victim up to a beam, when his feet were heavily weighted until his joints were broken.

!93 **Nobleman's very curious Iron Brank or Shame Mask**, shaped like a man's face, with movable visor and mustache, at each end of which is a bell; also one at each ear, a larger one at the point of the beard, and surmounted by two iron rods, each terminating in a bell. The use of this brank seems lost in obscurity, and we have searched in vain for its application; but there can be little doubt it was worn by malefactors of noble birth; and the idea seems to be that it was worn on the way to execution by a parricide, the bells being to call all the world's attention to the despicable criminal.

NOTE.—In England branks seem only to have been used for scolds; but in the cities of the Continent they were used for criminals of both sexes.

!94 **An Executioner's Cord or Rope**, by which the delinquents were bound before going to execution.

!95 **Another Executioner's Rope**, similar.

!96 to 554 **A Large Collection** of strong iron manacles, shackles, and body rings of various times and nationalities.

NOTE.—Although the space at our command will not allow us to individualize and describe each of these manacles, shackles, and chains, each and every one is different, made at different periods, and of various designs. They played a great part in the criminal history of Europe, having been used in every country. Criminals wore them in prison, in the torture chamber, at the stake, and in the Tumbril. In the penitent's cell they also found their place. In fact, volumes might be written on their use and abuse.

555 **A Model of the Guillotine**, made of wood.

556 **A Metal Model** of same, differently constructed.

557 **Iron Coal Stove** on tripod feet. In this the coals were lighted and got to a white heat in order to make the branding irons red hot, and so burn the marks or letters into the flesh of the forehead or back.

558 **Iron Coal Box** for same purpose.

559 **Pair of Bellows**, used for blowing up the fire in above.

The history of branding is so well known that it is needless to enter into it here. Both men and women were branded in all European countries for all sorts of crimes, and even in the earlier times a serf bore his master's brand mark.

560 **The Condemned's Cup or Mug.** Made of glass, with engraving of the crucifixion. Out of this cup the condemned was given wine to drink during his last day.

561 **An Antique Fayence Beer Jug,** with burnt-in picture of Hiesel and his big dog.

562 **Punishment Officers' Drum.** This small, long four-cornered iron-bound oak drum or rattle was used to call all wayfarers' and passers' attention to the culprit, so that all might see, hear, and take warning by the punishment thus being meted out.

563 **Soup Bowl and Spoon.** This was used to affix to a scolds' collar, in which two females were fastened, so that if, as it frequently happened, the shame of the punishment did not bring the combatant females to a renewal of friendship and forgiveness, they were reduced by *hunger*. The bowl was hung close under their noses, filled with soup or stew; the women had one hand loosened, and were glad to eat out of the same bowl, using the only spoon one after the other. This was taken as a sign of returning affection.

564 **Iron WristscREW,** of great cruelty, with outward roughed movement for lacerating the arm.

565 **Spanish Gaiter** for torturing the leg, with strong screw and roughed inner movement for crushing the shin bone.

566 Ditto, with similar movement, different screws.

567 **Another,** of different construction.

568 **Another,** different.

569 **Another,** different.

570 **Another,** larger and more powerful.

571 **Another,** with an addition of sharp iron teeth in base.

572 **Another,** still different, with double screws for entirely crushing the leg bone.

573, 574 & 575 **Three very curious and different large Prison-gate Padlocks.**

576 & 577 **Two Scolds' Wooden Collars**, with aperture for neck and both hands.

578 **A large Wooden Winder or Pulley**, used to stretch criminals.

579 Ditto, of wood and iron.

580 **A long Wooden Spiked Hare**, with strong spikes. (See No. 89.)

581 **Strong Iron Neck Collar**, with outstanding iron rod with bell on end, so that prisoner could never move without giving warning.

582 **A Witches' Idol Figure of the Evil One**, which witches were supposed to worship.

583 **An Iron Chandelier**, somewhat similar to No. 488.

See Catalogue, No. 1019.

584 **Curious barred face Helmet or Mask**, worn by juvenile criminals.

585 **A Poacher's Flint Gun**, made of iron, formed so that it looks like a mountaineer's stick, with a chamois horn handle, the lock made so that it can be taken off and put on at will.

586 **Prison Whip**, with thorn handle.

587 **An Extra Heavy Brank, or Punishment Hat, for Lazy People**. It is of iron, and with iron bars across the face.

588 **Instrument used to draw knots of cords as tightly as possible**.

589 **Long Iron Chain with ankle fastener at the end**.

590 **Penitent's Cap, made of Linen**, with opening for eyes, ears, mouth, and nose.

591 **Executioner's Staff**, carried before the execution. Wooden handle, with red and white rings.

592 **A Set of Stocks, with place for two Culprits**. In these delinquents of almost all kinds were placed, for varying periods, exposed to public gaze and scorn.

593 **Penitent's Linen Shirt**.

594 **Executioner's Cloak**, very long, of red woollen material, presumably red so as not to show blood spots or stains.

595 **Wonderful Wooden Chain** of many links, with hanging spoons. This work of patience was done by Baron von der Trenk whilst in prison, and cut out of a plank of wood, with no other tools than the knife he was allowed to cut his bread with. What makes this chain the more remarkable is that it has no joints of any kind, is neither nailed, screwed, or glued, but is entirely self-containing, and cut out of the solid. Baron von der Trenk was imprisoned for high treason at Magdeburg.

596 **A Heavy Stone**, used for stretching.

597 **Another**, similar weight.

598 **A Pair of Stone Bullet Weights**.

599 **An Iron Ball Weight**.

500 **A Heavy Pair of Weights**.

501 **A Heavy Stone Weight**.

502 Ditto.

503 Ditto.

504 **Spanish Mantle, or Drunkard's Cloak, and Helmet.** This so-called cloak is really in the form of a long barrel, wider at the bottom than at the top. It was hinged at the back so as to open. The drunkard or ne'er-do-well was placed in it, and it was closed to and locked, the top having an iron-bound orifice just large enough to let his head through. On his head was placed the barred helmet, through which he could see and be seen by all. The period of confinement was varied according to the offence or its frequency. One or two hours was the usual sentence. To tall men this was more severe than to short ones. Whereas a tall one, standing up, would lift the entire wooden barrel on his shoulders, and would after a time, borne down by its weight, have to sink on to his knees, a short man would be able to stand inside and so suffer far less pain.

“Several historians, dealing with the social life of England in bygone times, have described the wearing of the barrel after the manner of a cloak as a general mode of punishing drunkards in force during the Commonwealth. Mr. Ralph Gardner, of Cheriton, in the county of Norfolk, printed in 1655 a work, in which he says, ‘He the deponent further affirms that he hath seen men drove up and down the streets with a great tub or barrel, opened in the sides, with a whole in one end to put their heads through, and so cover their shoulders and bodies down to the small of their legs, and then close the same—called the new-fashioned cloak, and so make them march to the view of all beholders; and this is their punishment for drunkards and the like.’

“It is noticed in *Travels in Holland*, by Sir William Brereton, under the date of May 29th, 1634, as seen at Delft. John Evelyn visited Delft on August 17th, 1641, and writes, ‘that in the Senate House hangs a weighty vessel of wood, not unlike a butter churn, which the adventurous woman that hath two husbands at one time is to wear on her shoulders, her head peeping out of the top only, and so led about the town as a penance for her incontinence.’ Samuel Pepys has an entry in his diary respecting seeing a similar barrel at The Hague in the year 1660. We have traces of this mode of punishment in Germany. John Howard, in his work entitled *The State Prisons in England and Wales*, 1684, thus writes, ‘In Denmark some criminals of the lower sort, as watchmen, coachmen, &c., are punished by being led through the city in what is called “The Spanish Mantle.”...’ I measured one at Berlin. This mode of punishment is particularly dreaded, and is one cause that night robberies are never heard of in Copenhagen.”—*Old-Time Punishments*, W. ANDREWS.

From the above it appears that not only was it used for drunkards, but also for burglars, bigamous women, etc., etc.

505 **A similar Spanish Mantle or Drunkard's Cloak** without helmet, from Munich.

506 **A somewhat similar one**, from Lauingen, in Suabia.

- 507 **Weighty Stone** in the shape of a coat-of-arms shield, and dated 1661. This somewhat great weight was hung by a chain round the neck of the accused. Crimes such as theft, assaults, etc.
- 508 **A similar Stone**, used for field or garden thieves. It is engraved with a head, and has on the top a crown of flowers and some fruit.
- 509 **A similar Stone** for gamblers, with deeply-cut engravings of playing cards.
- 510 **Very large-sized Double Brank or Shame Mask**, shaped like the fiend's head, with horns, protruding eyes, and teeth. Belonging to this are also a snake and dragon's head. This hideous mask was worn by a woman who had daily assaulted her husband. As in all these old punishments, the culprit stood in a most public place. In this instance the snake or dragon was held in the hand. It signified that the holder was a house dragon, and as such, deserving the scorn and obloquy of all beholders.
- 511 **Wooden Tablet** with the word mörder (murderer) written on it. This was worn by a criminal convicted of murder. On it was also inscribed a written notice of the executioner's as to particulars of the crime, date of execution, etc.
- 512 **Large Wooden Stocks**, in which a condemned culprit was forced to stand tied up in a market or public place so many hours daily, fastened by the feet, and with a tablet bearing his name, description of crime, and punishment. In most cases he was also sentenced to receive so many whippings per day or week, which were applied by the public executioner.
- 513 **Iron Stocks**, shape of a chair. Was frequently used as a ducking-stool to duck scolds or witches.
- 514 **Tablet worn by the Occupant of Stocks**. This one was evidently worn by fruit or field thieves.
- 515 **Baker's Ducking-Cage**. Very curious oak cage, about six feet high. Inside is a seat. In this cage the baker who gave short weight was locked up, and the cage was then hung to chains and drawn up and down in the water until the occupant was nearly drowned. See engraving, No. 709.

NOTE.—This ducking-cage was not known in England. There are many ducking-stools still extant, but from all inquiries we find that they were only used to duck scolds or women charged with witchcraft.

§16 **Large Oil Painting**, by Michael Angelo di Caravaggio, showing *Man's First Crime*, Cain killing his brother Abel.

§17 **Seat or Settle belonging to a Torture Chamber**, with one-half for the physician and the other for the executioner. It will be noticed that the part intended for the doctor has a back to lean against, whilst the executioner's part has not.

§18 **Small Table** on which there is a sharp-toothed thumb and finger screw, an instrument which the victim must have seen with a shuddering sense of fear, so ingenious is it in its cruelty.

§19 **A Pair of Heavy Weights.**

§20 **Torture Chair**, covered all over with wooden spikes, so that the occupant could not sit without being severely punished, the more so as his feet were often weighted with heavy stones to add to his pain.

§21 **The Spiked Portion of a Torture Seat.**

§22 **Torture Chair**, the back, the seat-stretcher, foot-rest, completely covered with sharp wooden spikes, so that the occupant was tortured sitting, leaning, standing; in fact, after a short time the pain became unbearable.

§23 **Heavy Wooden Torture Seat**, with front lockable iron bar so that the victim could be securely fastened in. In this chair tortures of all kinds were inflicted.

§24 **Torture Rack**, about 10 feet long, with "spiked hare," round roller, and all the necessary cords for binding and stretching the victim.

§25 **Torture Cradle**, about 6 feet long, completely covered with wooden spikes and with wooden spiked movable cushion (?) head rest.

§26 **Stretching Gallows**, known in German as Schlimme Liesel (Fearful Eliza). At the foot are strong iron rings, into which the man's feet were placed; his hands were then fastened to a triangle, which was raised by means of ropes and pulleys until he was stretched beyond endurance. When in this position he was perhaps flayed, or else cruelly whipped at stated periods by the public executioner.

527 **Spanish Donkey.** This terrible instrument is formed with a Λ or cone-shaped top, worked to a sharp point. The victim was placed straddle-legged on this, and heavy weights placed on each foot, until the sharp point of the donkey's back cut clean through his body, or broke him right in halves.

528 **Whipping Bench,** from Berlin. A large bench upholstered, straps to fasten the arms, legs, head, and feet, with a movable footboard, to be raised according to the height of the whipper.

529 **Ball and Chain** for prisoner's leg.

530 **The Wooden Bed** on which the victim of the wheel was laid.

531 **Heavy Iron Execution Chair.**

The culprit sat or kneeled in the chair, with head leaning over the back, and the headsman, after cutting away the hair, with one stroke severed the head from the body.

532 **A large heavy Bell,** which was rung all the way the condemned was being taken to the block or scaffold. Backward and forward, forward and backward, swung the bell, until the executioner was ready to do his grewsome work.

533 **The Mummified Head of a Beheaded Nuremberg Child Murderess,** together with the spear on which it was shown at the wheel.

534 **A small old German Delinquent's Altar,** with small figure of the crucified Saviour.

535 **A Pair of Bronze Candlesticks** which were chained to the altar; same period.

536 **The Celebrated Original IRON MAIDEN (Eiserne Jungfrau).** This terror-inspiring torture instrument is made of strong wood, bound together with iron bands. Opens with two doors, to allow the prisoner to be placed inside. The entire interior is fitted with long, sharp iron spikes, so that, when the doors are pressed to, the sharp prongs force their way into various portions of the victim's body. Two entered his eyes, others pierced his back, his chest, and, in fact, *impaled* him alive in such a manner that he lingered in the most agonizing torture. When death relieved the poor wretch from his agonies, perhaps after days, a trap-door in the base was pulled open and the body was allowed to fall into the moat or river below.

Persons were condemned to death by the embraces of the *Iron Maiden* for plots against the governing powers, parricide, religious unbelief, and murder with attempt against puberty. The date of this rare specimen is the fifteenth century.

It is believed that the Iron Maiden is purely and peculiarly a relic of old Nuremberg, as at that date we do not read of it anywhere else, whilst the annals of that town contain many allusions to its terrors.

We find that in the next (16th) century there was an instrument of execution in Scotland known as the “Maiden,” but it was perfectly different to this one, and was really a beheading block on to which a knife fell from a certain height, and something after the style of the present guillotine—a much more merciful and expeditious mode of execution than the slow, cruel, lingering death above mentioned. As we said in our Preface, the fiendish ingenuity displayed in inventing terrible torture is in no instance more in evidence than in the construction of this relic of ancient Nuremberg, known as “The Iron Maiden.”

537 **An Engraving** showing the “Iron Maiden.”

538 **An Old Painting** on panel, “Justice,” with the inscription:

“Gott ist gerecht in sainn Gericht drum thu gutts und sündge nicht.”

Translation:

“God’s judgment is aright; do thou good, and sin not.”

This was fixed over the judge’s seat.

539 **Small Panel Painting.** “The Sign of the Ban of Blood,” showing an axe and a severed hand.

540 **A similar Panel.**

541 **Stone Tablet**, which hung over the entrance door to the torture chamber, with the inscription—

“Atris patratris sunt atra theatra parata.”

Translation:

“Dark deeds make dark endings.”

542 **A Papal Bull**, dated Rome, 5th February, 1492. Written in Latin on parchment, giving an authority to the Abbot of St. Ægidus, in

Nuremberg, to hold and constitute Courts of Justice in that town.

§43 **A Witch's Charm**, of lead, with engraved characters and motto.

§44 **Wooden Model of the Witch's Castle**, near Straubing, in Lower Bavaria; here the notorious Agnes Bernauer was accused of being a witch, and as such kept until she was drowned in the Danube.

§45 **Oil Painting of the Gilder, Erdmann of Nuremberg**. He was the last man publicly tortured in Nuremberg. After his death he was found to have been innocent of the crime of theft to which he had *confessed* under torture, and in consequence of this lamentable miscarriage of justice, it was decided that torture should be forever abolished in the town.

§46 **Picture of the Guillotine** on wood.

§47 **A Curious 15th-Century Forerunner of the Mitrailleuse or Gatling Gun**, constructed so as to fire fifteen balls at one time; was in those days called a *Hell Machine*, and its use was forbidden by the International agreement as being outside the pale of fair warfare.

§48 **Thumb Instrument, or Press**, with two pressers for thumbs.

§49 **A Set of Stocks with Wheels**, so that they could be wheeled about to any part of the city or from town.

§50 **A Strong Wooden Windlass** for running the victim up to the ceiling, where he was suspended by the thumb, with weights attached to his feet.

§51 **Portrait of Maria Renata, of Wurzburg**, who was the last woman burnt at the stake in Germany for being suspected of witchcraft.

§52 **Oil Painting of a Bavarian Court Jester** who was bricked in alive, with his hands tied behind him, at the Castle of Trausnitz, and so left miserably to starve to death.

See Catalogue, No. 1020.

Creating the works from print editions not protected by U.S. copyright law means that no one owns a United States copyright in these works, so the Foundation (and you!) can copy and distribute it in the United States without permission and without paying copyright royalties. Special rules, set forth in the General Terms of Use part of this license, apply to copying and distributing Project Gutenberg™ electronic works to protect the PROJECT GUTENBERG™ concept and trademark. Project Gutenberg is a registered trademark, and may not be used if you charge for an eBook, except by following the terms of the trademark license, including paying royalties for use of the Project Gutenberg trademark. If you do not charge anything for copies of this eBook, complying with the trademark license is very easy. You may use this eBook for nearly any purpose such as creation of derivative works, reports, performances and research. Project Gutenberg eBooks may be modified and printed and given away—you may do practically ANYTHING in the United States with eBooks not protected by U.S. copyright law. Redistribution is subject to the trademark license, especially commercial redistribution.

If you do not agree to abide by all the terms of this agreement, you must cease using and return or destroy all copies of Project Gutenberg electronic works in your possession. If you paid a fee for obtaining a copy of or access to a Project Gutenberg electronic work and you do not agree to be bound by the terms of this agreement, you may obtain a refund from the person or entity to whom you paid the fee as set forth in paragraph 1.E.8.

1.B. “Project Gutenberg” is a registered trademark. It may only be used on or associated in any way with an electronic work by people who agree to be bound by the terms of this agreement. There are a few things that you can do with most Project Gutenberg electronic works even without complying with the full terms of this agreement. See paragraph 1.C below. There are a lot of things you can do with Project Gutenberg electronic works if you follow the terms of this agreement and help preserve free future access to Project Gutenberg electronic works. See paragraph 1.E below.

1.C. The Project Gutenberg Literary Archive Foundation (“the Foundation” or PGLAF), owns a compilation copyright in the

collection of Project Gutenberg electronic works. Nearly all the individual works in the collection are in the public domain in the United States. If an individual work is unprotected by copyright law in the United States and you are located in the United States, we do not claim a right to prevent you from copying, distributing, performing, displaying or creating derivative works based on the work as long as all references to Project Gutenberg are removed. Of course, we hope that you will support the Project Gutenberg mission of promoting free access to electronic works by freely sharing Project Gutenberg works in compliance with the terms of this agreement for keeping the Project Gutenberg name associated with the work. You can easily comply with the terms of this agreement by keeping this work in the same format with its attached full Project Gutenberg License when you share it without charge with others.

1.D. The copyright laws of the place where you are located also govern what you can do with this work. Copyright laws in most countries are in a constant state of change. If you are outside the United States, check the laws of your country in addition to the terms of this agreement before downloading, copying, displaying, performing, distributing or creating derivative works based on this work or any other Project Gutenberg work. The Foundation makes no representations concerning the copyright status of any work in any country other than the United States.

1.E. Unless you have removed all references to Project Gutenberg:

If an individual Project Gutenberg electronic work is derived from texts not protected by U.S. copyright law (does not contain a notice indicating that it is posted with permission of the copyright holder), the work can be copied and distributed to anyone in the United States without paying any fees or charges. If you are redistributing or providing access to a work with the phrase “Project Gutenberg” associated with or appearing on the work, you must comply either with the requirements of paragraphs 1.E.1 through 1.E.7 or obtain permission for the use of the work and the Project Gutenberg trademark as set forth in paragraphs 1.E.8 or 1.E.9.

1.E.3. 1.E.9. If you wish to charge a fee or distribute a Project Gutenberg™ electronic work or group of works on different terms than are set forth in this agreement, you must obtain permission in writing from the Project Gutenberg Literary Archive Foundation, the manager of the Project Gutenberg™ trademark. Contact the Foundation as set forth in Section 3 below.

1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread works not protected by U.S. copyright law in creating the Project Gutenberg™ collection. Despite these efforts, Project Gutenberg™ electronic works, and the medium on which they may be stored, may contain “Defects,” such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

1.F.2. LIMITED WARRANTY, DISCLAIMER OF DAMAGES - Except for the “Right of Replacement or Refund” described in paragraph 1.F.3, the Project Gutenberg Literary Archive Foundation, the owner of the Project Gutenberg™ trademark, and any other party distributing a Project Gutenberg™ electronic work under this agreement, disclaim all liability to you for damages, costs and expenses, including legal fees. YOU AGREE THAT YOU HAVE NO REMEDIES FOR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTY OR BREACH OF CONTRACT EXCEPT THOSE PROVIDED IN PARAGRAPH 1.F.3. YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

1.F.3. LIMITED RIGHT OF REPLACEMENT OR REFUND - If you discover a defect in this electronic work within 90 days of receiving it, you can receive a refund of the money (if any) you paid for it by sending a written explanation to the person you received the work from. If you received the work on a physical medium, you must return the medium with your written explanation. The person or entity that provided you with the defective work may elect to provide a replacement copy in lieu of a refund. If you received the work electronically, the person or entity providing it to you may choose to give you a second opportunity to receive the work electronically in lieu of a refund. If the second copy is also defective, you may demand a refund in writing without further opportunities to fix the problem.

1.F.4. Except for the limited right of replacement or refund set forth in paragraph 1.F.3, this work is provided to you 'AS-IS', WITH NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of certain types of damages. If any disclaimer or limitation set forth in this agreement violates the law of the state applicable to this agreement, the agreement shall be interpreted to make the maximum disclaimer or limitation permitted by the applicable state law. The invalidity or unenforceability of any provision of this agreement shall not void the remaining provisions.

1.F.6. INDEMNITY - You agree to indemnify and hold the Foundation, the trademark owner, any agent or employee of the Foundation, anyone providing copies of Project Gutenberg™ electronic works in accordance with this agreement, and any volunteers associated with the production, promotion and distribution of Project Gutenberg™ electronic works, harmless from all liability, costs and expenses, including legal fees, that arise directly or indirectly from any of the following which you do or cause to occur: (a) distribution of this or any Project Gutenberg work, (b) alteration,

modification, or additions or deletions to any Project Gutenberg work, and (c) any Defect you cause.

Section 2. Information about the Mission of Project Gutenberg

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non-profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Contributions to the Project Gutenberg Literary Archive Foundation are tax deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's business office is located at 41 Watchung Plaza #516, Montclair NJ 07042, USA, +1 (862) 621-9288. Email contact links and up to date contact information can be found at the Foundation's website and official page at www.gutenberg.org/contact

Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit www.gutenberg.org/donate.

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: www.gutenberg.org/donate.

Section 5. General Information About Project Gutenberg electronic works

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our website which has the main PG search facility:
www.gutenberg.org.

This website includes information about Project Gutenberg, including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.
