Footnotes

It is consoling as often as dismaying to find in what seems a cataclysmal tide of a certain direction a strong drift to the opposite quarter. It is so divivable, if not so perceptible, that its presence may usually be recognized as a beginning of the turn in every tide which is sure, sooner or later, to come. In reform, it is the menace of reaction; in reaction, it is the promise of reform; we may take heart as we must lose heart from it. A few years ago, when a movement which carried fiction to the highest place in literature was apparently of such onward and upward sweep that there could be no return or descent, there was a counter-current in it which stayed it at last, and pulled it back to that lamentable level where fiction is now sunk, and the word "novel" is again the synonym of all that is morally false and mentally despicable. Yet that this, too, is partly apparent, I think can be shown from some phases of actual fiction which happen to be its very latest phases, and which are of a significance as hopeful as it is interesting. Quite as surely as romanticism lurked at the heart of realism, something that we may call "psychologism" has been present in the romanticism of the last

four or five years, and has now begun to evolve itself in examples which it is the pleasure as well as the duty of criticism to deal with.

I.

No one in his day has done more to popularize the romanticism, now decadent, than Mr. Gilbert Parker; and he made way for it at its worst just because he was so much better than it was at its worst, because he was a poet of undeniable quality, and because he could bring to its intellectual squalor the graces and the powers which charm, though they could not avail to save it from final contempt. He saves himself in his latest novel, because, though still so largely romanticistic, its prevalent effect is psychologistic, which is the finer analogue of realistic, and which gave realism whatever was vital in it, as now it gives romanticism whatever will survive it. In "The Right of Way" Mr. Parker is not in a world where mere determinism rules, where there is nothing but the happening of things, and where this one or that one is important or unimportant according as things are happening to him or not, but has in himself no claim upon the reader's attention. Once more the novel begins to rise to its higher function, and to teach that men are somehow masters of their fate. His Charley Steele is, indeed, as unpromising material for the experiment, in certain ways, as could well be chosen. One of the few memorable things that Bulwer said, who said so many quotable things, was that pure intellectuality is the devil, and on his plane Charley Steele comes near being pure intellectual. He apprehends all things from the mind, and does the effects even of goodness from the pride of mental strength. Add to these conditions of his personality that pathologically he is from time to time a drunkard, with always the danger of remaining a drunkard, and you have a figure of which so much may be despaired that it might almost be called hopeless. I confess that in the beginning this brilliant, pitiless lawyer, this consciencelessly powerful advocate, at once mocker and poseur, all but failed to interest me. A little of him and his monocle went such a great way with me that I thought I had enough of him by the end of the trial, where he gets off a man charged with murder, and then cruelly snubs the homicide in his gratitude; and I do not quite know how I kept on to the point where Steele in his drunkenness first dazzles and then insults the gang of drunken lumbermen, and begins his second life in the river where they have thrown him, and where his former

client finds him. From that point I could not forsake him to the end, though I found myself more than once in the world where things happen of themselves and do not happen from the temperaments of its inhabitants. In a better and wiser world, the homicide would not perhaps be at hand so opportunely to save the life of the advocate who had saved his; but one consents to this, as one consents to a great deal besides in the story, which is imaginably the survival of a former method. The artist's affair is to report the appearance, the effect; and in the real world, the appearance, the effect, is that of law and not of miracle. Nature employs the miracle so very sparingly that most of us go through life without seeing one, and some of us contract such a prejudice against miracles that when they are performed for us we suspect a trick. When I suffered from this suspicion in "The Right of Way" I was the more vexed because I felt that I was in the hands of a connoisseur of character who had no need of miracles.

I have liked Mr. Parker's treatment of French-Canadian life, as far as I have known it; and in this novel it is one of the principal pleasures for me. He may not have his habitant, his seigneur or his cure down cold, but he makes me believe that he has, and I can ask no more than that of him. In like manner, he makes the ambient, physical as well as social, sensible around me: the cold rivers, the hard, clear skies, the snowy woods and fields, the little frozen villages of Canada. In this book, which is historical of the present rather than the past, he gives one a realizing sense of the Canadians, not only in the country but in the city, at least so far as they affect each other psychologically in society, and makes one feel their interesting temperamental difference from Americans. His Montrealers are still Englishmen in their strenuous individuality; but in the frank expression of character, of eccentricity, Charley Steele is like a type of lawyer in our West, of an epoch when people were not yet content to witness ideals of themselves, but when they wished to be their poetry rather than to read it. In his second life he has the charm for the imagination that a disembodied spirit might have, if it could be made known to us in the circumstances of another world. He has, indeed, made almost as clean a break with his past as if he had really been drowned in the river. When, after the term of oblivion, in which he knows nothing of his past self, he is restored to his identity by a famous surgeon too opportunely out of Paris, on a visit to his brother, the cure, the problem is how he shall expiate the errors of his past,

work out his redemption in his new life; and the author solves it for him by appointing him to a life of unselfish labor, illumined by actions of positive beneficence. It is something like the solution which Goethe imagines for Faust, and perhaps no other is imaginable. In contriving it, Mr. Parker indulges the weaker brethren with an abundance of accident and a luxury of catastrophe, which the reader interested in the psychology of the story may take as little account of as he likes. Without so much of them he might have made a sculpturesque romance as clearly and nobly definite as "The Scarlet Letter"; with them he has made a most picturesque romantic novel. His work, as I began by saying, or hinting, is the work of a poet, in conception, and I wish that in some details of diction it were as elect as the author's verse is. But one must not expect everything; and in what it is, "The Right of Way" satisfies a reasonable demand on the side of literature, while it more than meets a reasonable expectation on the side of psychological interest. Distinctly it marks an epoch in contemporary noveling, and mounts far above the average best toward the day of better things which I hope it is not rash to image dawning.

II.

I am sure I do not merely fancy the auroral light in a group of stories by another poet. "The Ruling Passion," Dr. Henry Van Dyke calls his book, which relates itself by a double tie to Mr. Parker's novel through kinship of Canadian landscape and character, and through the prevalence of psychologism over determinism in it. In the situations and incidents studied with sentiment that saves itself from sentimentality sometimes with greater and sometimes with less ease, but saves itself, the appeal is from the soul in the character to the soul in the reader, and not from brute event to his sensation. I believe that I like best among these charming things the two sketches—they are hardly stories—"A Year of Nobility" and "The Keeper of the Dight," though if I were asked to say why, I should be puzzled. Perhaps it is because I find in the two pieces named a greater detachment than I find in some others of Dr. Van Dyke's delightful volume, and greater evidence that he has himself so thoroughly and finally mastered his material that he is no longer in danger of being unduly affected by it. That is a danger which in his very quality of lyrical poet he is most liable to, for he is above all a lyrical poet, and such drama as the chorus usually comments is

the drama next his heart. The pieces, in fact, are so many idyls, and their realism is an effect which he has felt rather than reasoned his way to. It is implicational rather than intentional. It is none the worse but all the better on that account, and I cannot say that the psychologism is the worse for being frankly, however uninsistently, moralized. A humor, delicate and genuine as the poetry of the stories, plays through them, and the milde macht of sympathy with everything human transfers to the pleasant pages the foresters and fishermen from their native woods and waters. Canada seems the home of primitive character; the seventeenth century survives there among the habitants, with their steadfast faith, their picturesque superstitions, their old world traditions and their new world customs. It is the land not only of the habitant, but of his oversoul, the good cure, and his overlord the seigneur, now faded economically, but still lingering socially in the scene of his large possessions. Their personality imparts a charm to the many books about them which at present there seems to be no end to the making of; and such a fine touch as Dr. Van Dyke's gives us a likeness of them, which if it is idealized is idealized by reservation, not by attribution.

III.

Mr. William Allen White's method is the reverse of Dr. Van Dyke's. If he has held his hand anywhere the reader does not suspect it, for it seems, with its relentless power of realization, to be laid upon the whole political life of Kansas, which it keeps in a clutch so penetrating, so comprehensive, that the reader does not quite feel his own vitals free from it. Very likely, it does not grasp the whole situation; after all, it is a picture, not a map, that Mr. White has been making, and the photograph itself, though it may include, does not represent everything. Some years ago there was a silly attempt to reproach the true painters of manners by calling them photographic, but I doubt if even then Mr. White would have minded any such censure of his conscientious work, and I am sure that now he would count it honor. He cannot be the admirable artist he is without knowing that it is the inwardness as well as the outwardness of men that he photographs, and if the reader does not know it, the worse for the reader. He is not the sort of reader who will rise from this book humiliated and fortified, as any reader worthy of it will.

The author has put his best foot forward in the opening story, "The Man on Horseback," which, when I read it a few years ago in the magazine where it first appeared, seemed to me so perfect in its way that I should not have known how to better it. Of course, this is a good deal for a critic to say; it is something like abdicating his office; but I repeat it. It takes rather more courage for a man to be honest in fiction than out of it, for people do not much expect it of him, or altogether like it in him; but in "The Man on Horseback" Mr. White is at every moment honest. He is honest, if not so impressively honest, in the other stories, "A Victory for the People," "A Triumph's Evidence," "The Mercy of Death," and "A Most Lamentable Comedy;" and where he fails of perfect justice to his material, I think it is because of his unconscious political bias, rather than anything wilfuller. In the story last named this betrays itself in his treatment of a type of man who could not be faithful to any sort of movement, and whose unfaithfulness does not necessarily censure the movement Mr. White dislikes. Wonderfully good as the portrait of Dan Gregg is, it wants the final touch which could have come only from a little kindness. His story might have been called "The Man on Foot," by the sort of antithesis which I should not blame Mr. White for scorning, and I should not say anything of it worse than that it is pitilessly hard, which the story of "The Man on Horseback" is not, or any of the other stories. Sentimentality of any kind is alien to the author's nature, but not tenderness, especially that sparing sort which gives his life to the man who is down.

Most of the men whom Mr. White deals with are down, as most men in the struggle of life are. Few of us can be on top morally, almost as few as can be on top materially; and probably nothing will more surprise the saints at the judgment day than to find themselves in such a small minority. But probably not the saints alone will be saved, and it is some such hope that Mr. White has constantly in mind when making his constant appeal to conscience. It is, of course, a dramatic, not a didactic appeal. He preaches so little and is so effectively reticent that I could almost wish he had left out the preface of his book, good as it is. Yes, just because it is so good I could wish he had left it out. It is a perfect justification of his purpose and methods, but they are their own justification with all who can think about them, and the others are themselves not worth thinking about. The stories are so bravely faithful to human nature in that political aspect which is but

one phase of our whole average life that they are magnificently above all need of excusing or defending. They form a substantial body of political fiction, such as we have so long sighed for, and such as some of us will still go on sighing for quite as if it had not been supplied. Some others will be aware that it has been supplied in a form as artistically fine as the material itself is coarse and common, if indeed any sort of humanity is coarse and common except to those who themselves are so.

The meaning that animates the stories is that our political opportunity is trammelled only so far as we have trammelled it by our greed and falsehood; and in this aspect the psychology of Mr. White offers the strongest contrast to that of the latest Russian master in fiction. Maxim Gorky's wholly hopeless study of degeneracy in the life of "Foma Gordyeeff" accuses conditions which we can only imagine with difficulty. As one advances through the moral waste of that strange book one slowly perceives that he is in a land of No Use, in an ambient of such iron fixity and inexorable bounds that perhaps Foma's willingness to rot through vice into imbecility is as wise as anything else there. It is a book that saturates the soul with despair, and blights it with the negation which seems the only possible truth in the circumstances; so that one questions whether the Russian in which Turgenieff and Tolstoy, and even Dostoyevsky, could animate the volition and the expectation of better things has not sunk to depths beyond any counsel of amelioration. To come up out of that Bottomless Pit into the measureless air of Mr. White's Kansas plains is like waking from death to life. We are still among dreadfully fallible human beings, but we are no longer among the damned; with the worst there is a purgatorial possibility of Paradise. Even the perdition of Dan Gregg then seems not the worst that could befall him; he might again have been governor.

IV.

If the human beings in Dr. Weir Mitchell's very interesting novel of "Circumstance" do not seem so human as those Russians of Gorky and those Kansans of Mr. White, it is because people in society are always human with difficulty, and his Philadelphians are mostly in society. They are almost reproachfully exemplary, in some instances; and it is when they

give way to the natural man, and especially the natural woman, that they are consoling and edifying. When Mary Fairthorne begins to scold her cousin, Kitty Morrow, at the party where she finds Kitty wearing her dead mother's pearls, and even takes hold of her in a way that makes the reader hope she is going to shake her, she is delightful; and when Kitty complains that Mary has "pinched" her, she is adorable. One is really in love with her for the moment; and in that moment of nature the thick air of good society seems to blow away and let one breathe freely. The bad people in the book are better than the good people, and the good people are best in their worst tempers. They are so exclusively well born and well bred that the fitness of the medical student, Blount, for their society can be ascertained only by his reference to a New England ancestry of the high antiquity that can excuse even dubious cuffs and finger-nails in a descendant of good principles and generous instincts.

The psychological problem studied in the book with such artistic fineness and scientific thoroughness is personally a certain Mrs. Hunter, who manages through the weak-minded and selfish Kitty Morrow to work her way to authority in the household of Kitty's uncle, where she displaces Mary Fairthorne, and makes the place odious to all the kith and kin of Kitty. Intellectually, she is a clever woman, or rather, she is a woman of great cunning that rises at times to sagacity; but she is limited by a bad heart and an absence of conscience. She is bold up to a point, and then she is timid; she will go to lengths, but not to all lengths; and when it comes to poisoning Fairthorne to keep him from changing his mind about the bequest he has made her, she has not quite the courage of her convictions. She hesitates and does not do it, and it is in this point she becomes so aesthetically successful. The guilt of the uncommitted crimes is more important than the guilt of those which have been committed; and the author does a good thing morally as well as artistically in leaving Mrs. Hunter still something of a problem to his reader. In most things she is almost too plain a case; she is sly, and vulgar, and depraved and cruel; she is all that a murderess should be; but, in hesitating at murder, she becomes and remains a mystery, and the reader does not get rid of her as he would if she had really done the deed. In the inferior exigencies she strikes fearlessly; and when the man who has divorced her looms up in her horizon with doom in his presence, she goes and makes love to him. She is not the less successful because she disgusts

him; he agrees to let her alone so long as she does no mischief; she has, at least, made him unwilling to feel himself her persecutor, and that is enough for her.

Mrs. Hunter is a study of extreme interest in degeneracy, but I am not sure that Kitty Morrow is not a rarer contribution to knowledge. Of course, that sort of selfish girl has always been known, but she has not met the open recognition which constitutes knowledge, and so she has the preciousness of a find. She is at once tiresome and vivacious; she is cold-hearted but not cold-blooded, and when she lets herself go in an outburst of passion for the celibate young ritualist, Knellwood, she becomes fascinating. She does not let herself go without having assured herself that he loves her, and somehow one is not shocked at her making love to him; one even wishes that she had won him. I am not sure but the case would have been a little truer if she had won him, but as it is I am richly content with it. Perhaps I am the more content because in the case of Kitty Morrow I find a concession to reality more entire than the case of Mrs. Hunter. She is of the heredity from which you would expect her depravity; but Kitty Morrow, who lets herself go so recklessly, is, for all one knows, as well born and as well bred as those other Philadelphians. In my admiration of her, as a work of art, however, I must not fail of justice to the higher beauty of Mary Fairthorne's character. She is really a good girl, and saved from the unreality which always threatens goodness in fiction by those limitations of temper which I have already hinted.

V.

It is far from the ambient of any of these imaginary lives to that of the half-caste heroine of "A Japanese Nightingale" and the young American whom she marries in one of those marriages which neither the Oriental nor the Occidental expects to last till death parts them. It is far, and all is very strange under that remote sky; but what is true to humanity anywhere is true everywhere; and the story of Yuki and Bigelow, as the Japanese author tells it in very choice English, is of as palpitant actuality as any which should treat of lovers next door. If I have ever read any record of young married love that was so frank, so sweet, so pure, I do not remember it. Yet, Yuki, though she loves Bigelow, does not marry him because she loves him, but

because she wishes with the money he gives her to help her brother through college in America. When this brother comes back to Japan—he is the touch of melodrama in the pretty idyl—he is maddened by an acquired Occidental sense of his sister's disgrace in her marriage, and falls into a fever and dies out of the story, which closes with the lasting happiness of the young wife and husband. There is enough incident, but of the kind that is characterized and does not characterize. The charm, the delight, the supreme interest is in the personality of Yuki. Her father was an Englishman who had married her mother in the same sort of marriage she makes herself; but he is true to his wife till he dies, and possibly something of the English constancy which is not always so evident as in his case qualifies the daughter's nature. Her mother was, of course, constant, and Yuki, though an outcast from her own people—the conventions seen to be as imperative in Tokyo as in Philadelphia—because of her half-caste origin, is justly Japanese in what makes her loveliest. There is a quite indescribable freshness in the art of this pretty novelette—it is hardly of the dimensions of a novel—which is like no other art except in the simplicity which is native to the best art everywhere. Yuki herself is of a surpassing loveliness. Nothing but the irresistible charm of the American girl could, I should think keep the young men who read Mrs. Watana's book from going out and marrying Japanese girls. They are safe from this, however, for the reason suggested, and therefore it can be safely commended at least to young men intending fiction, as such a lesson in the art of imitating nature as has not come under my hand for a long while. It has its little defects, but its directness, and sincerity, and its felicity through the sparing touch make me unwilling to note them. In fact, I have forgotten them.

VI.

I wish that I could at all times praise as much the literature of an author who speaks for another colored race, not so far from us as the Japanese, but of as much claim upon our conscience, if not our interest. Mr. Chesnutt, it seems to me, has lost literary quality in acquiring literary quantity, and though his book, "The Marrow of Tradition," is of the same strong material as his earlier books, it is less simple throughout, and therefore less excellent in manner. At his worst, he is no worse than the higher average of the ordinary novelist, but he ought always to be very much better, for he began

better, and he is of that race which has, first of all, to get rid of the cakewalk, if it will not suffer from a smile far more blighting than any frown. He is fighting a battle, and it is not for him to pick up the cheap graces and poses of the joust. He does, indeed, cast them all from him when he gets down to his work, and in the dramatic climaxes and closes of his story he shortens his weapons and deals his blows so absolutely without flourish that I have nothing but admiration for him. "The Marrow of Tradition," like everything else he has written, has to do with the relations of the blacks and whites, and in that republic of letters where all men are free and equal he stands up for his own people with a courage which has more justice than mercy in it. The book is, in fact, bitter, bitter. There is no reason in history why it should not be so, if wrong is to be repaid with hate, and yet it would be better if it was not so bitter. I am not saying that he is so inartistic as to play the advocate; whatever his minor foibles may be, he is an artist whom his stepbrother Americans may well be proud of; but while he recognizes pretty well all the facts in the case, he is too clearly of a judgment that is made up. One cannot blame him for that; what would one be one's self? If the tables could once be turned, and it could be that it was the black race which violently and lastingly triumphed in the bloody revolution at Wilmington, North Carolina, a few years ago, what would not we excuse to the white man who made the atrocity the argument of his fiction?

Mr. Chesnutt goes far back of the historic event in his novel, and shows us the sources of the cataclysm which swept away a legal government and perpetuated an insurrection, but he does not paint the blacks all good, or the whites all bad. He paints them as slavery made them on both sides, and if in the very end he gives the moral victory to the blacks—if he suffers the daughter of the black wife to have pity on her father's daughter by his white wife, and while her own child lies dead from a shot fired in the revolt, gives her husband's skill to save the life of her sister's child—it cannot be said that either his aesthetics or ethics are false. Those who would question either must allow, at least, that the negroes have had the greater practice in forgiveness, and that there are many probabilities to favor his interpretation of the fact. No one who reads the book can deny that the case is presented with great power, or fail to recognize in the writer a portent of the sort of

negro equality against which no series of hangings and burnings will finally avail.

VII.

In Mr. Chesnutt's novel the psychologism is of that universal implication which will distinguish itself to the observer from the psychologism of that more personal sort—the words are not as apt as I should like—evident in some of the interesting books under notice here. I have tried to say that it is none the less a work of art for that reason, and I can praise the art of another novel, in which the same sort of psychologism prevails, though I must confess it a fiction of the rankest tendenciousness. "Lay Down Your Arms" is the name of the English version of the Baroness von Suttner's story, "Die Waffen Nieder," which has become a watchword with the peacemakers on the continent of Europe. Its success there has been very great, and I wish its success on the continent of America could be so great that it might replace in the hands of our millions the baleful books which have lately been glorifying bloodshed in the private and public wars of the past, if not present. The wars which "Lay Down Your Arms" deals with are not quite immediate, and yet they are not so far off historically, either. They are the Franco-Austrian war of 1859, the Austro-Prussian war of 1866, and the Franco-German war of 1870; and the heroine whose personal relation makes them live so cruelly again is a young Austrian lady of high birth. She is the daughter and the sister of soldiers, and when the handsome young officer, of equal rank with her own, whom she first marries, makes love to her just before the outbreak of the war first named, she is as much in love with his soldiership as with himself. But when the call to arms comes, it strikes to her heart such a sense of war as she has never known before. He is killed in one of the battles of Italy, and after a time she marries another soldier, not such a beau sabreur as the first, but a mature and thoughtful man, who fights through that second war from a sense of duty rather than from love of fighting, and comes out of it with such abhorrence that he quits the army and goes with his family to live in Paris. There the third war overtakes him, and in the siege, this Austrian, who has fought the Prussians to the death, is arrested by the communards as a Prussian spy and shot.

The bare outline of the story gives, of course, no just notion of the intense passion of grief which fills it. Neither does it convey a due impression of the character in the different persons which, amidst the heartbreak, is ascertained with some such truth and impartiality as pervade the effects of "War and Peace." I do not rank it with that work, but in its sincerity and veracity it easily ranks above any other novel treating of war which I know, and it ought to do for the German peoples what the novels of Erckmann-Chatrian did for the French, in at least one generation. Will it do anything for the Anglo-Saxon peoples? Probably not till we have pacified the Philippines and South Africa. We Americans are still apparently in love with fighting, though the English are apparently not so much so; and as it is always well to face the facts, I will transfer to my page some facts of fighting from this graphic book, which the reader may apply to the actualities in the Philippines, with a little imagination. They are taken from a letter written to the heroine by her second husband after one of the Austrian defeats. "The people poured boiling water and oil on the Prussians from the windows of the houses at ——.... The village is ours—no, it is the enemy's, now ours again—and yet once more the enemy's; but it is no longer a village, but a smoking mass of ruins of houses....One family has remained behind...an old married couple and their daughter, the latter in childbed. The husband is serving in our regiment.... Poor devil! he got there just in time to see the mother and child die; a shell had exploded under their bed.... I saw a breastwork there which was formed of corpses. The defenders had heaped all the slain who were lying near, in order, from that rampart, to fire over at their assailants. I shall surely never forget that wall in my life. A man who formed one of its bricks was still alive, and was waving his arm.... What is happening there? The execution party is drawn out. Has a spy been caught? Seventeen this time. There they come, in four ranks, each one of four men, surrounded by a square of soldiers. The condemned men step out, with their heads down. Behind comes a cart with a corpse in it, and bound to the corpse the dead man's son, a boy of twelve, also condemned.... Steep, rocky heights; Jaegers, nimble as cats, climbing up them.... Some of them, who are hit by the enemy's shot, suddenly stretch out both their arms, let their muskets fall, and, with their heads falling backwards, drop off the height, step by step, from one rocky point to another, smashing their limbs to pieces. I saw a horseman at some distance, obliquely behind me, at whose side a shell burst. His horse swerved aside and came against the tail of

mind, then shot past me. The man sat still in the saddle, but a fragment of the shell had ripped his belly open and torn out all the intestines. The upper part of his body was held to the lower only by the spine. From the ribs to the thighs nothing but one great, bleeding cavity. A short distance farther he fell to the ground, one foot still clinging in the stirrup, and the galloping horse dragging him on over the stony soil.... Another street fight in the little town of Saar.... In the middle of the square stands a high pillar of the Virgin. The mother of God holds her child in one arm, and stretches the other out in blessing.... Here the fight was prolonged, man to man. They were hacking at me, I laying about me on all sides.... A Prussian dragoon, strong as Goliath, tore one of our officers (a pretty, dandified lieutenant—how many girls are, perhaps, mad after him?) out of his saddle and split his skull at the feet of the Virgin's pillar. The gentle saint looked on unmoved. Another of the enemy's dragoons—a Goliath, too—seized, just before me almost, my right-hand man, and bent him backwards in his saddle so powerfully that he broke his back—I myself heard it crack. To this the Madonna gave her blessing also."

VIII.

It can be said that these incidents of battle are imagined, like the facts of Vereschagin's pictures, but like these they are imagined rather below than above the real horror of war, and represent them inadequately. The incidents of another book, the last on my list, are of the warfare which goes on in times of peace, and which will go on as long as there are human passions, and mankind are divided into men and women, and saints and sinners. Of all the books on my list, "Let Not Man Put Asunder" is, narrowing the word to the recognition of the author's intellectual alertness and vividness, the cleverest. The story is of people who constantly talk so wonderfully well beyond the wont even of society people that the utmost skill of the author, who cannot subdue their brilliancy, is needed to make us feel their reality. But he does make us feel this in most cases, the important cases, and in the other cases his power of interesting us is so great that we do not stop to examine the grounds of our sensation, or to question the validity of our emotions. The action, which is positively of to-day, or yesterday at the furthest, passes in Boston and England, among people of such great fortune and high rank and transcendent fashion that the proudest reader cannot

complain of their social quality. As to their moral quality, one might have thought the less said the better, if the author had not said so much that is pertinent and impressive. It is from first to last a book with a conscience in it, and its highest appeal is to the conscience. It is so very nearly a great book, so very nearly a true book, that it is with a kind of grief one recognizes its limitations, a kind of surprise at its shortcomings, which, nevertheless, are not shortcomings that impair its supreme effect. This, I take it, is the intimation of a mystical authority in marriage against which divorce sins in vain, which no recreancy can subvert, and by virtue of which it claims eternally its own the lovers united in it; though they seem to become haters, it cannot release them to happiness in a new union through any human law.

If the author had done dramatically (and his doing is mainly dramatic) no more than this, he would have established his right to be taken seriously, but he has done very much more, and has made us acquainted with types and characters which we do not readily forget, and with characters much more real than their ambient. For instance, the Old Cambridge in which the Vassalls live is not the Old Cambridge of fact, but the Vassalls are the Vassalls of fact, though the ancestral halls in which they dwell are of a baroniality difficult of verification. Their honor, their righteousness, their purity are veracious, though their social state is magnified beyond any post-revolutionary experience. The social Boston of the novel is more like; its difference from an older Boston is sensitively felt, and finely suggested, especially on the side of that greater lawlessness in which it is not the greater Boston. Petrina Faneuil, the heroine, is derivatively of the older Boston which has passed away, and actually of the newer Boston which will not be so much regretted when it passes, the fast Boston, the almost rowdy Boston, the decadent Boston. It is, of course, a Boston much worse in the report than in the fact, but it is not unimaginably bad to the student who notes that the lapse from any high ideals is to a level lower than that of people who have never had them. As for Petrina herself, who was in Boston more than of it, she is so admirably analyzed in the chapter devoted to the task that I am tempted to instance it as the best piece of work in the book, though it does not make one hold one's breath like some of the dramatic episodes: "Whatever religious instinct had been in the family had spent itself at least two generations before her time. She was a pagan—a tolerant,

indifferent, slightly scornful pagan.... But she was none the less a Puritan. Certain of her ways of thought and habits of life, had survived the beliefs which had given them birth, as an effect will often outlive its cause. If she was a pagan, she was a serious one, a pagan with a New England conscience."

This is mightily well said, and the like things that are said of Petrina's sister-in-law, who has married an English title, are mightily well, too. "She had inherited a countenance whose expression was like the light which lingers in the sky long after sunset—the light of some ancestral fire gone out. If in her face there were prayers, they had been said by Pepperells and Vassalls now sleeping in Massachusetts churchyards. If in her voice there were tears, they had been shed by those who would weep no more. She mirrored the emotions she had never felt; and all that was left of joys and sorrows and spiritual aspirations which had once thrilled human hearts was in that plaintive echo they had given to this woman's tone, and the light of petition they had left burning in her eyes."

No one who reads such passages can deny that the author of "Let Not Man Put Asunder" can think subtly as well as say clearly, and the book abounds in proofs of his ability to portray human nature in its lighter aspects. Lady de Bohun, with her pathetic face, is a most amusing creature, with all her tragedy, and she is on the whole the most perfectly characterized personality in the story. The author gives you a real sense of her beauty, her grace, her being always charmingly in a hurry and always late. The greatest scene is hers: the scene in which she meets her divorced husband with his second wife. One may suspect some of the other scenes, but one must accept that scene as one of genuine dramatic worth. Too much of the drama in the book is theatre rather than drama, and yet the author's gift is essentially dramatic. He knows how to tell a story on his stage that holds you to the fall of the curtain, and makes you almost patient of the muted violins and the limelight of the closing scene. Such things, you say, do not happen in Brookline, Mass., whatever happens in London or in English country houses; and yet the people have at one time or other convinced you of their verity. Of the things that are not natural, you feel like saying that they are supernatural rather than unnatural, and you own that at its worst the book is worth while in a time when most novels are not worth while.

Creating the works from print editions not protected by U.S. copyright law means that no one owns a United States copyright in these works, so the Foundation (and you!) can copy and distribute it in the United States without permission and without paying copyright royalties. Special rules, set forth in the General Terms of Use part of this license, apply to copying and distributing Project Gutenberg™ electronic works to protect the PROJECT GUTENBERG™ concept and trademark. Project Gutenberg is a registered trademark, and may not be used if you charge for an eBook, except by following the terms of the trademark license, including paying royalties for use of the Project Gutenberg trademark. If you do not charge anything for copies of this eBook, complying with the trademark license is very easy. You may use this eBook for nearly any purpose such as creation of derivative works, reports, performances and research. Project Gutenberg eBooks may be modified and printed and given away—you may do practically ANYTHING in the United States with eBooks not protected by U.S. copyright law. Redistribution is subject to the trademark license, especially commercial redistribution.

THE FULL PROJECT GUTENBERG™ LICENSE

PLEASE READ THIS BEFORE YOU DISTRIBUTE OR USE THIS WORK

To protect the Project Gutenberg™ mission of promoting the free distribution of electronic works, by using or distributing this work (or any other work associated in any way with the phrase “Project Gutenberg”), you agree to comply with all the terms of the Full Project Gutenberg License available with this file or online at www.gutenberg.org/license.

Section 1. General Terms of Use and Redistributing Project Gutenberg electronic works

1.A. By reading or using any part of this Project Gutenberg electronic work, you indicate that you have read, understand, agree to and accept all the terms of this license and intellectual property (trademark/copyright) agreement. If you do not agree to abide by all the terms of this agreement, you must cease using and return or destroy all copies of Project Gutenberg electronic works in your possession. If you paid a fee for obtaining a copy of or access to a Project Gutenberg electronic work and you do not agree to be bound by the terms of this agreement, you may obtain a refund from the person or entity to whom you paid the fee as set forth in paragraph 1.E.8.

1.B. “Project Gutenberg” is a registered trademark. It may only be used on or associated in any way with an electronic work by people who agree to be bound by the terms of this agreement. There are a few things that you can do with most Project Gutenberg electronic works even without complying with the full terms of this agreement. See paragraph 1.C below. There are a lot of things you can do with Project Gutenberg electronic works if you follow the terms of this agreement and help preserve free future access to Project Gutenberg electronic works. See paragraph 1.E below.

1.C. The Project Gutenberg Literary Archive Foundation (“the Foundation” or PGLAF), owns a compilation copyright in the collection of Project Gutenberg electronic works. Nearly all the individual works in the collection are in the public domain in the United States. If an individual work is unprotected by copyright law in the United States and you are

located in the United States, we do not claim a right to prevent you from copying, distributing, performing, displaying or creating derivative works based on the work as long as all references to Project Gutenberg are removed. Of course, we hope that you will support the Project Gutenberg mission of promoting free access to electronic works by freely sharing Project Gutenberg works in compliance with the terms of this agreement for keeping the Project Gutenberg name associated with the work. You can easily comply with the terms of this agreement by keeping this work in the same format with its attached full Project Gutenberg License when you share it without charge with others.

1.D. The copyright laws of the place where you are located also govern what you can do with this work. Copyright laws in most countries are in a constant state of change. If you are outside the United States, check the laws of your country in addition to the terms of this agreement before downloading, copying, displaying, performing, distributing or creating derivative works based on this work or any other Project Gutenberg work. The Foundation makes no representations concerning the copyright status of any work in any country other than the United States.

1.E. Unless you have removed all references to Project Gutenberg:

1.E.1. The following sentence, with active links to, or other immediate access to, the full Project Gutenberg License must appear prominently whenever any copy of a Project Gutenberg work (any work on which the phrase “Project Gutenberg” appears, or with which the phrase “Project Gutenberg” is associated) is accessed, displayed, performed, viewed, copied or distributed:

This eBook is for the use of anyone anywhere in the United States and most other parts of the world at no cost and with almost no restrictions whatsoever. You may copy it, give it away or re-use it under the terms of the Project Gutenberg™ License included with this eBook or online at www.gutenberg.org. If you are not located in the United States, you will have to check the laws of the country where you are located before using this eBook.

1.E.2. If an individual Project Gutenberg electronic work is derived from texts not protected by U.S. copyright law (does not contain a notice indicating that it is posted with permission of the copyright holder), the work can be copied and distributed to anyone in the United States without paying any fees or charges. If you are redistributing or providing access to a work with the phrase “Project Gutenberg” associated with or appearing on the work, you must comply either with the requirements of paragraphs 1.E.1 through 1.E.7 or obtain permission for the use of the work and the Project Gutenberg trademark as set forth in paragraphs 1.E.8 or 1.E.9.

1.E.3. If an individual Project Gutenberg electronic work is posted with the permission of the copyright holder, your use and distribution must comply with both paragraphs 1.E.1 through 1.E.7 and any additional terms imposed by the copyright holder. Additional terms will be linked to the Project Gutenberg License for all works posted with the permission of the copyright holder found at the beginning of this work.

1.E.4. Do not unlink or detach or remove the full Project Gutenberg License terms from this work, or any files containing a part of this work or any other work associated with Project Gutenberg.

1.E.5. Do not copy, display, perform, distribute or redistribute this electronic work, or any part of this electronic work, without prominently displaying the sentence set forth in paragraph 1.E.1 with active links or immediate access to the full terms of the Project Gutenberg License.

1.E.6. You may convert to and distribute this work in any binary, compressed, marked up, nonproprietary or proprietary form, including any word processing or hypertext form. However, if you provide access to or distribute copies of a Project Gutenberg work in a format other than “Plain Vanilla ASCII” or other format used in the official version posted on the official Project Gutenberg website (www.gutenberg.org), you must, at no additional cost, fee or expense to the user, provide a copy, a means of exporting a copy, or a means of obtaining a copy upon request, of the work in its original “Plain Vanilla ASCII” or other form. Any alternate format must include the full Project Gutenberg License as specified in paragraph 1.E.1.

1.E.7. Do not charge a fee for access to, viewing, displaying, performing, copying or distributing any Project Gutenberg works unless you comply with paragraph 1.E.8 or 1.E.9.

1.E.8. You may charge a reasonable fee for copies of or providing access to or distributing Project Gutenberg electronic works provided that:

- You pay a royalty fee of 20% of the gross profits you derive from the use of Project Gutenberg works calculated using the method you already use to calculate your applicable taxes. The fee is owed to the owner of the Project Gutenberg trademark, but he has agreed to donate royalties under this paragraph to the Project Gutenberg Literary Archive Foundation. Royalty payments must be paid within 60 days following each date on which you prepare (or are legally required to prepare) your periodic tax returns. Royalty payments should be clearly marked as such and sent to the Project Gutenberg Literary Archive Foundation at the address specified in Section 4, "Information about donations to the Project Gutenberg Literary Archive Foundation."
- You provide a full refund of any money paid by a user who notifies you in writing (or by e-mail) within 30 days of receipt that s/he does not agree to the terms of the full Project Gutenberg™ License. You must require such a user to return or destroy all copies of the works possessed in a physical medium and discontinue all use of and all access to other copies of Project Gutenberg™ works.
- You provide, in accordance with paragraph 1.F.3, a full refund of any money paid for a work or a replacement copy, if a defect in the electronic work is discovered and reported to you within 90 days of receipt of the work.
- You comply with all other terms of this agreement for free distribution of Project Gutenberg™ works.

1.E.9. If you wish to charge a fee or distribute a Project Gutenberg™ electronic work or group of works on different terms than are set forth in this agreement, you must obtain permission in writing from the Project Gutenberg Literary Archive Foundation, the manager of the Project

Gutenberg™ trademark. Contact the Foundation as set forth in Section 3 below.

1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread works not protected by U.S. copyright law in creating the Project Gutenberg™ collection. Despite these efforts, Project Gutenberg™ electronic works, and the medium on which they may be stored, may contain “Defects,” such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

1.F.2. LIMITED WARRANTY, DISCLAIMER OF DAMAGES - Except for the “Right of Replacement or Refund” described in paragraph 1.F.3, the Project Gutenberg Literary Archive Foundation, the owner of the Project Gutenberg™ trademark, and any other party distributing a Project Gutenberg™ electronic work under this agreement, disclaim all liability to you for damages, costs and expenses, including legal fees. YOU AGREE THAT YOU HAVE NO REMEDIES FOR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTY OR BREACH OF CONTRACT EXCEPT THOSE PROVIDED IN PARAGRAPH 1.F.3. YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

1.F.3. LIMITED RIGHT OF REPLACEMENT OR REFUND - If you discover a defect in this electronic work within 90 days of receiving it, you can receive a refund of the money (if any) you paid for it by sending a written explanation to the person you received the work from. If you received the work on a physical medium, you must return the medium with your written explanation. The person or entity that provided you with the defective work may elect to provide a replacement copy in lieu of a refund. If you received the work electronically, the person or entity providing it to

you may choose to give you a second opportunity to receive the work electronically in lieu of a refund. If the second copy is also defective, you may demand a refund in writing without further opportunities to fix the problem.

1.F.4. Except for the limited right of replacement or refund set forth in paragraph 1.F.3, this work is provided to you 'AS-IS', WITH NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of certain types of damages. If any disclaimer or limitation set forth in this agreement violates the law of the state applicable to this agreement, the agreement shall be interpreted to make the maximum disclaimer or limitation permitted by the applicable state law. The invalidity or unenforceability of any provision of this agreement shall not void the remaining provisions.

1.F.6. INDEMNITY - You agree to indemnify and hold the Foundation, the trademark owner, any agent or employee of the Foundation, anyone providing copies of Project Gutenberg™ electronic works in accordance with this agreement, and any volunteers associated with the production, promotion and distribution of Project Gutenberg™ electronic works, harmless from all liability, costs and expenses, including legal fees, that arise directly or indirectly from any of the following which you do or cause to occur: (a) distribution of this or any Project Gutenberg work, (b) alteration, modification, or additions or deletions to any Project Gutenberg work, and (c) any Defect you cause.

Section 2. Information about the Mission of Project Gutenberg

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the

efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non-profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Contributions to the Project Gutenberg Literary Archive Foundation are tax deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's business office is located at 41 Watchung Plaza #516, Montclair NJ 07042, USA, +1 (862) 621-9288. Email contact links and up to date contact information can be found at the Foundation's website and official page at www.gutenberg.org/contact

Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment

including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit www.gutenberg.org/donate.

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: www.gutenberg.org/donate.

Section 5. General Information About Project Gutenberg electronic works

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a

copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our website which has the main PG search facility:
www.gutenberg.org.

This website includes information about Project Gutenberg, including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.
