# PREFACE

Controversy, which is the breath of life to any of the arts or sciences, has reared its head among the ranks of Cross Word solvers. The air is filled with 'tis and 'tain't. The clan is divided into schools, which is well for the vitality of puzzling. It is undoubtedly true that a house divided against itself cannot stand; but it is also veritable that an art divided against itself flourisheth exceedingly.

The schism that is causing all the noise, reduced to its simplest terms, is stated in the question, "Shall the Cross Word Puzzle be made hard or easy?"

On the one hand stand the pundits, with thesaurus and dictionary armed. They crave queer words and exotic definitions. They thrill to the cross-clue unravelling of some strange combination of vowels and consonants resembling nothing ever uttered by human tongue, but which their reference-books declare is a genuine word, with meanings and inflections and everything. They delight in extracting a simple word from its definition of secondary or tertiary meaning: when "express generally" is solved as "air" they greet the word so often defined as "mixture of gases" with cries of delight; "introduce as an antagonist" is found to be "pit," and tears of joy are shed over the relief from the common "hole" or "depression."

Thus the solvers who revel in the recondite. Opposed to them stand the serried ranks of those whose pleasure lies in the accomplishment; who do not wish their onward march to [2]victory

delayed by forests of Javanese shrubs or oceans full of rajidae with enlarged pectoral fins. Nor do they wish words torn far from their daily, or at least semi-weekly, use. A Leer by the river's brim a simple Sly Glance is to them, and not an Annealing-furnace.

A third element enters the lists at this point—the constructors. When a man has a superb puzzle almost finished, with complete interlock and no abbreviations or unkeyed letters, he frequently finds a space left into which nothing will go except a particularly rare combination of letters—let us say, for example, TIL. The constructor runs hastily through his vocabulary and finds no TIL; he has a vague recollection of such a word somewhere in his poetic remembrances; but the familiar abbreviation of “until” is “till,” and the constructor has no wish to add the damning parenthesis-enclosed “poet. contr.” after his definition. He tries all the combinations possible; none will fit. Torn between despair and hope he seeks Webster's Unabridged. Trembling finger runs down the columns. Ah! Between “tikur” and “tilbury,” in small type, as though ashamed of existence, he finds what he seeks. “Til—Sesame.” Into the construction goes the word, and the puzzle is finished. Observe that the constructor had no desire to introduce this exotic syllable; he did not even know that there was such a word in any language. If he could have written “tic,” or “tie,” or “tin,” or “tip,” or “tis,” or “tit,” he would have done so. But “til” was his sole refuge, and the Unabridged bore him nobly out. Thus, says the constructor, why should the solver rage when he discovers “sesame” among the definitions? Let him try to make one himself, etc., etc.

Returning a moment to the pundits' side of the argument, observe a fact. If any solver had been asked, before he took  up cross words, to give offhand the name of Egypt's sun-god, a three-letter word

meaning island, a four-letter word for handbag, the name of a large Australian bird, or the sash affected by the ladies of cherry-blossom land, it is odds but that he would have been reduced to stammering evasions. But even a tyro at the glorious game can now rattle off by rote the words Ra, Uit, Etui, Moa, Obi. In running down the definitions of a new puzzle it is not the household words that set him scribbling frantically, but such old friends as the above. So, contend the punditti, a word that may be a nameless horror at the moment becomes through association a friend in time of trouble.

True enough, answer the believers in the simplicities, but the introduction of such words is evidence of laziness on the part of the constructor. Moreover, their constant use tends to eliminate them, their places to be taken by other literal monstrosities. And there is much in this contention. Where now are the Emu and the Eel? Time was, and not so long ago, that every other construction was the combined aviary and aquarium necessary to harbor these two; today they are one with Nineveh and Tyre. And so it may well be with Ra and Uit and Etui. They will march one by one into the shades where lurk the other gallant words that died of over-work. And the strange combinations that take their places will also abide their little hour, and go their way.

Once again the constructor beats on the table and demands to be heard. "Where," he asks, "do I get off? Am I to be barred from including words that finish my design because a group of you insist that no word not included in everyday vocabularies appear in the little white squares? Or am I to suffer under the lash of scorn because a few of you mock my brilliant construction wherein no exotic letter-combination [4]rears its head?—a construction that cost me more time than if I had allowed a few oddities, I may add. What am I to do?"

“Go as far as you like!” cry the Recondites.

“Stick to the common words!” insist the Champions of the Plain.

Of course, these admonitions do not help the constructor in the least. He is the ham in the verbal sandwich—necessary, but spread rather thin and squashed flat. It is in the nature of things that this should be so. No creator has had a different experience. You can please some of the people, and the rest of it. It is part of the penalty of the builder to receive criticism. Scarce have the birth-pangs passed when the child is the storm-center of a tempest of contradictory comment.

It is, of course, an indeterminable debate. The Simplicities have their case, as have the Abstrusities. In the meantime, short of erasure and complete rebirth, the constructor’s pattern remains. For better, for worse, for easier, for harder, in the pocket edition or the Unabridged, his words cross and twine all among the blacks and the whites.

In the meantime, the schism remains. What is to come of it, we know not. Whatever the decision may be, the constructor will not change his status. Once a constructor, always between the millstones.

Once from the world I sought surcease  
    Between a novel's covers pressed;  
No longer there I look for peace;  
    Of anodynes I've found the best.  
So, when the sun sinks in the west  
Sunk, too, are husband, friends and cook—  
    Where do I find my treasure chest?  
All in the leaves of the Cross Word Book.

If from ennui you seek release  
    Purchase this book; don't beg; invest!  
Madame, she will love ze fine service  
    A caller intrudes? Hein? Kill ze pest!  
Oh, Noah Webster, you are blest  
When for a clue in your works I look—  
    Where is all life from "less" to "crest"?  
All in the leaves of the Cross Word Book.

What galleon sought the Golden Fleece?  
    What is the Welsh for "eagle's nest"?  
What is a Flemish tartan crease?

Who was it asked the Erse for “breast”?  
Who can define a Baltic jest?  
Who ever called it a six-pronged hook!  
You will discern them, mixed and messed,  
All in the leaves of the Cross Word Book.

# VOCABULARY ENRICHMENT IN THE SUBURBS DUE TO THE CROSS WORD PUZZLE INFLUENCE

*(Two neighbors, Mrs. Wordsworth and Mrs. Frazee, are spending a warm summer afternoon together on the former's front porch. They are sewing.)*

*Mrs. W.*—What is that you are working at, my dear?

*Mrs. F.*—I'm tatting Joe's initials on his moreen vest. Are you making that ebon garment for yourself?

*Mrs. W.*—Yea. Just a black dress for every day. Henry says I look rather naif in black.

*Mrs. F.*—Well, perhaps; but it's a bit too anile for me. Give me something in indigo or, say, ecru.

*Mrs. W.*—Quite right. There is really no neb in such solemn investments.

*Mrs. F.*—Stet.

*Mrs. W.*—By the way, didn't I hear that your little Junior met with an accident?

*Mrs. F.*—Yes. The little oaf fell from an apse and fractured his artus.

*Mrs. W.*—Egad!

*Mrs. F.*—And to make matters worse Dr. Bloop botched it so that we had to trek into town to a specialist. How Dr. Bloop makes his sal is a rebus to me.

*Mrs. W.*—The zany.

*Mrs. F.*—Joe's ire was so aroused that he told Dr. Bloop [Z]right to his visage that he was a dolt and an ort. Is your offspring well?

*Mrs. W.*—Not entirely. He was abed yester with a severe megrim, dark arcs neath his orbs and as pale as talc.

*Mrs. F.*—Renal?

*Mrs. W.*—That is moot. You see, Dicky is so active.

*Mrs. F.*—A perfect icon of his pater; restless as a little emu.

*Mrs. W.*—He took a canoe out on the tarn and paddled over to the ait. There he stepped into a fen and got his feet roric.

*Mrs. F.*—Boys have such an elan for the eau.

*Mrs. W.*—Why can't they play on the muirs and in the wald nearby? I gave him a drachm of ricin and thank goodness he was better this morn.

*Mrs. F.*—I'm so glad. This torrid weather is very trying. One's vitality reaches its nadir in this heat, and to add to the discomfort I

have an incompetent serf to contend with.

*Mrs. W.*—Oh, this esne problem. The last one I had was such a schelm I had to let her go. Would you drink a nice cold beaker of negus? I'm so sere.

*Mrs. F.*—Don't trouble yourself, my dear.

*Mrs. W.*—Not at all. It's Henry's favorite quaff and he insists upon it being on the ice at all times. He gets quite roiled if it isn't.

*Mrs. F.*—Well, we must humor our sires. I hate to hear them gnar.

*(They are interrupted by piercing juvenile shrieks growing rapidly louder and nearer. Junior and Dicky, ages six [8] and seven, burst into view around the corner of the house. They take final kicks at each other before smothering their sobs in the laps of their respective mothers.)*

*Mrs. F.*—Why, Junior, what is this?

*Mrs. W.*—Come, come, Dicky, aren't you ashamed of such——

*Dicky (Howling)*—W-well, it's h-his fault. He said I was a five-letter word meaning a human being with inferior intelligence and wit!

*Junior*—And he called me a four-letter word meaning an invisible particle of matter!

*Dicky*—And that's what you are.

*(They mix it up once more and are disentangled with difficulty.)*

*Mrs. F.*—I think we had better be going, Mrs. Wordsworth. I'm so sorry.

*Mrs. W.*—Male progeny will be male progeny, you know.

*(Mrs. F. drags Junior away.)*

*Dicky*—(Yelling after him with much feeling)—ATOM!!

*Junior*—(Not too gently)—MORON!!!

# RULES FOR CONSTRUCTION OF CROSS WORD PUZZLES

*Reported by the Committee on Rules, and adopted by The Amateur Cross Word Puzzle League of America at its meeting, September 27, 1924, in The Wanamaker Auditorium, New York City.*

## 1. PATTERN

The pattern shall interlock all over.

Only approximately one-sixth of the squares shall be black.

Only approximately one-tenth of the letters shall be unkeyed.

The design shall be symmetrical.

## 2. WORDS

Obsolete, and dialectic words may be used in moderation, if plainly marked and accessible in some standard dictionary, such as Webster's New International (Merriam's), Funk & Wagnalls' and Century.

Foreign words that are more or less familiar and are easily accessible, may be used, but should be marked with the language to which they belong.

Technical terms that are found in a standard dictionary may be used.

Abbreviations, prefixes and suffixes, should be avoided as far as possible. When used they should be plainly marked and must be legitimate.

### 3. DEFINITIONS

Great variety may be attained in writing the definitions and as wide a scope as possible must be left to the constructor. The only requirement is common sense. This means that the definitions may be of the safe and sane dictionary kind, may be literary or historical, may employ secondary meanings cleverly, may be legitimately funny. Synonyms that are too far removed from the word and what Gelett Burgess calls “smarty-cat definitions” should be avoided.

# HOW TO SOLVE A CROSS WORD PUZZLE

There are two essential points that must be remembered by initiates into the cross word puzzlers' fraternity. First, the numbers in the squares refer to the definitions; secondly, there should be but one letter to each white square.

Figure 1 shows a cross word puzzle challenging each and every one of us to solve it. Looking the puzzle over we find that 1 horizontal calls for a seven letter word meaning "disparage." That is not so easy, so we leave it temporarily. We go on to the next one, which is a three letter word meaning "a cereal grass." What else could it be but OAT? Therefore we ink in OAT in the proper squares. "Vice Admiral." That most assuredly must be VA. We place that into position. The ninth, tenth and eleventh do not come to our minds immediately, so we pass them up. We will catch them on the cross check. Twelve is familiar, however, and with a little thought we place LO in the vacant squares. The rest do not come to us, so we leave them also, and turn to the verticals.

[11]

Looking over the diagram (See Figure 2) we find that one vertical calls for a seven letter word whose third and fifth letters are V and L respectively and which is defined as “evolve.” The V and the L give us the clue. The word is DEVELOP. We place it in the diagram. Two, three and four are easy, for we have three clues to work on and we find the proper words without much difficulty. The next one is beyond us, so we go on to the one numbered 8. We find

that a three letter word—starting with A—meaning “gone by,” is needed. The clues of A and O enable us to get that without much trouble, and we place AGO in the square. We pass by nine, but thirteen is easy. “A male sheep?” Why, of course, the word is RAM.

|    |   |    |   |    |   |    |

| 17 | P |   |    |   | M  |    |   |    |  |   |

FIG. 3

From now on the going is easy. We have plenty of clues to the words that we do not know. (See Figure 3.) Rechecking the horizontals, we find that we have the first, third, fourth and fifth letters of “disparage,” and with their aid we easily see that the word is DETRACT. Looking for a two letter word meaning “an edge-tool,” we soon find that there is but one word that will fit. We place

AX in position. With nine vertical beginning with an A it is easy to find that ARE is the proper word. Ten horizontal [12] proves to be EGG and eleven becomes ART. We say to ourselves that if we could only get five vertical we would have the puzzle solved. Well, why not? Is the second letter an a, e, i, o, or u? The definition gives it as “a web.” What word will fit but TEXTURE? We place that into position. Now, we find that we have the puzzle almost completed. Fifteen horizontal needs a three letter word meaning “impair.” Its middle letter must be an A. With the A to guide us that is simple. The word is “SAP.” Fifteen and sixteen being two letter words are easily found, and we place SO and PI into position. We now find that we have the puzzle completed with one exception. Seventeen horizontal has to be found. Its first, third, fourth, fifth and seventh letters are P OMI E. A consonant is needed for the second letter, and R seems to be the most logical choice. That gives us the word, which is defined as “agreement.” (See Figure 4.)

|    |   |   |    |   |    |    |   |   |    |   |   |

FIG. 4

We settle back into our chair with a sigh of content at the thought of a job well done. But that is not the finish. Rather it is but the start. Now that we have tasted the pleasures of cross word puzzling, we are loath to give our time to anything else. What other

amusement offers the pleasure, instruction and satisfaction that is to be found in Cross Word Puzzles? There is but one answer to that question, and—foregoing the movies—we settle down to the elusive task of tracking words to their lairs. [\[13\]](#)

## DO'S AND DON'T'S FOR SOLVERS

Don't get scared if you can't guess the first horizontal word. Go through the list till you find a definition that you're sure of. That is the simplest method of beginning the solution. When you have written in all the words you are sure of, you will have plenty of clues for the unknowns.

Don't spend too much time with the long words unless you are sure of them. They will appear when the short ones have been solved. Of course, not all the short ones are easy, but they are generally more readily attended to than the long ones. Also, there are more of them, increasing the chances of finding familiar faces among the definitions.

If you think a word is right, pencil it in lightly till you are sure. This saves erosion of paper and temper. But never hesitate to try a word that may be right. The trial and error method holds in puzzling as it does in life.

Remember that the horizontals furnish a sure check on the verticals, and vice versa.

If you are hopelessly stuck, try another puzzle. Inspiration sometimes waits for a return engagement.

A pleasant feeling of something attempted, something done, accompanies the solution of a cross word puzzle. It's good for the inferiority complex. [\[15\]](#)

# A CHRISTMAS TREE

By MOBY DICK

This Christmas tree is a *tour de force* in consecutive two-letter words. Even the veriest beginner should finish it in a half hour, for the words are all fair and should come to mind immediately. This is a case where the rule on ratio of black squares to white is purposely violated for appropriateness of design.

## PUZZLE No. 121

# A ROSE WITH A THORN OR TWO

By ALFRED A. WICKLUND

Conscience compels the editors to warn the solver of several troublous words lying unobtrusively among a collection of pleasant and easily diverting ones. But that is the delight of cross word puzzling. The solver likes a little pain mixed with his pleasure.

# NINE CROSSES

By MADGE SWEENEY

Fine masses of words, but not too difficult. A few unkeyed letters. Most puzzlers complain about them, and we don't blame them. At the same time, it is good dictionary practise to hunt along among the "pal"s until you come to "pali."

By ISIDORE EDELSTEIN

Not much here to make you go around the house shouting, “a twenty-seven letter word meaning ‘cat’s eyeballs.’” Mr. Edelstein by no means makes himself a fiend, as some of the constructors do.

We are told that puzzles put people to sleep and prevent nervous breakdowns by taking the subject's mind off his troubles. This one should have therapeutic qualities, for according to the ratio rule it could have at least 38 black squares, whereas it has only 33.

# CRUTCHES AND CROSSES

By KNACKER

Here's a stiff one, with enough mythology and history in it to keep even the scholars guessing. But the marvellous double interlock and the presence of only four unkeyed letters should help out in the solution. Knacker didn't care what problems he set himself in this construction.

# WORDS AND MUSIC

By MR. and MRS. OTTOKAR T. CADEK

Mr. Cadek is quite a figure in that field of music where the string quartette raises its austere voice. But no feat of counterpoint is more difficult than the placing against each other of two long words such as in 19 and 26 Horizontal or 72 and 78 Horizontal.

# DON'T BE CROSS

# A MILITARY SALUTE

By SERGEANT

This one comes from West Point. Note the fine central backbones of long words. You will observe something interesting about these two. Incidentally, is there anything finer than the way difficulties dissolve once long words like these flash into your mind?

# WAFFLED WORDS

By MRS. ERIC CRULL

Some people mumble their words, but what is more appropriate than this waffling of Mrs. Crull's? This is medium well done—by which we refer not to quality, but to difficulty. Try it when the simple ones seem too easy and the difficult ones too tough.

# THE SQUARE ROOT OF CROSS WORDS

By IRVAN NECKERMAN

# THE OLD ARMY GAME

By CHARLEY CINDERGLASS and STONEY LONESOME

Remember “West Pointer” in Series I? The soldiers are at it again. There ought to be some healthful dictionary practice here. 37 Vertical, by the way, appears to have been conned from some erudite work on natural history. (Might as well tell you that the two unkeyed letters are U and O.)

## PUZZLE No. 150

# AN INDENTED TERROR

By J. T. DELANEY

“With such friends one does not need enemies,” an old proverb goes. Mr. Delaney is a familiar friend to followers of The Cross Word Puzzle Books, but the editors will bet that many a one has said that his worst enemy could not have given him more cold sweats.

## WHY NOT GIVE A CROSS WORD PUZZLE PARTY?

Special party boards may be obtained separately, printed on stiff cardboard. Several copies of the same puzzle are ideal for a party.

In solving the puzzles in this book, you may possibly have thought it good fun to stage a Cross Word Puzzle Party. Heretofore, this called for one copy of The Cross Word Puzzle Book for each person. But this is rather expensive, unless you plan to give a great many parties.

Furthermore, it is almost certain that at least one person in your party has done all or most of the puzzles in this book and, therefore, would have an unfair advantage in the contest.

Responding to a general request, therefore, we have prepared three puzzles specially constructed by the editors of this book for party use, and *printed separately on stiff cardboard* (8×12 inches). In other words, everyone at a party can now have his own puzzle, and a contest can be arranged to see who will be the first to turn in a perfect solution.

This was first done at the Cross Word Puzzle Convention held at the Ambassador Hotel, New York,

on May 18, 1924. Everybody there agreed that it was an intensely exciting and enjoyable party. A contest of this sort can be made really thrilling by scoring each contestant's time with a stop-watch and noting the number of errors. The winner is the first person turning in a 100 per cent correct solution.

The price per puzzle (diagram and definitions) printed on stiff board (so that you won't have to lean on a book or table) is ten cents. Each puzzle comes in an individually sealed envelope. You may order as many or as few as you require for your party. Merely give the letter (A, B or C) of the puzzle (or puzzles) you wish, and state the quantity of each. Send ten cents for each copy you order. They will be sent to you post-paid. They may be had only direct from the publishers.

These puzzles come in three grades of difficulty: Puzzle A—Easy, Puzzle B—Moderately Difficult, and Puzzle C—Difficult. Choose the one you think best adapted to the individuals who will be at your party. The price is the same: ten cents for each card in a sealed envelope.

For experienced puzzlers we have also printed *on similar cardboards* three puzzle designs, X, Y, and Z, each a bit more complicated than the previous one. A delightful party can be arranged by dividing the party into teams of two or three and setting the teams to constructing puzzles for each other. The price of these blank puzzles is also ten cents each.

Whether or not you have a definite party in mind, we suggest that you order some of these puzzle-cards at once. You will appreciate having them on hand for one of those informal occasions when friends drop in. Send in your order today to

\*\*\* END OF THE PROJECT GUTENBERG EBOOK THE  
CROSS WORD PUZZLE BOOK: THIRD SERIES \*\*\*

Updated editions will replace the previous one—the old editions will be renamed.

Creating the works from print editions not protected by U.S. copyright law means that no one owns a United States copyright in these works, so the Foundation (and you!) can copy and distribute it in the United States without permission and without paying copyright royalties. Special rules, set forth in the General Terms of Use part of this license, apply to copying and distributing Project Gutenberg™ electronic works to protect the PROJECT GUTENBERG™ concept and trademark. Project Gutenberg is a registered trademark, and may not be used if you charge for an eBook, except by following the terms of the trademark license, including paying royalties for use of the Project Gutenberg trademark. If you do not charge anything for copies of this eBook, complying with the trademark license is very easy. You may use this eBook for nearly any purpose such as creation of derivative works, reports, performances and research. Project Gutenberg eBooks may be modified and printed and given away—you may do practically ANYTHING in the United States with eBooks not protected by U.S. copyright law. Redistribution is subject to the trademark license, especially commercial redistribution.

START: FULL LICENSE

# THE FULL PROJECT GUTENBERG™ LICENSE

PLEASE READ THIS BEFORE YOU DISTRIBUTE OR  
USE THIS WORK

To protect the Project Gutenberg™ mission of promoting the free distribution of electronic works, by using or distributing this work (or any other work associated in any way with the phrase “Project Gutenberg”), you agree to comply with all the terms of the Full Project Gutenberg License available with this file or online at [www.gutenberg.org/license](http://www.gutenberg.org/license).

## **Section 1. General Terms of Use and Redistributing Project Gutenberg electronic works**

1.A. By reading or using any part of this Project Gutenberg electronic work, you indicate that you have read, understand, agree to and accept all the terms of this license and intellectual property (trademark/copyright) agreement. If you do not agree to abide by all the terms of this agreement, you must cease using and return or destroy all copies of Project Gutenberg electronic works in your possession. If you paid a fee for obtaining a copy of or access to a Project Gutenberg electronic work and you do not agree to be bound by the terms of this agreement, you may obtain a refund from the person or entity to whom you paid the fee as set forth in paragraph 1.E.8.

1.B. “Project Gutenberg” is a registered trademark. It may only be used on or associated in any way with an electronic

work by people who agree to be bound by the terms of this agreement. There are a few things that you can do with most Project Gutenberg electronic works even without complying with the full terms of this agreement. See paragraph 1.C below. There are a lot of things you can do with Project Gutenberg electronic works if you follow the terms of this agreement and help preserve free future access to Project Gutenberg electronic works. See paragraph 1.E below.

1.C. The Project Gutenberg Literary Archive Foundation (“the Foundation” or PGLAF), owns a compilation copyright in the collection of Project Gutenberg electronic works. Nearly all the individual works in the collection are in the public domain in the United States. If an individual work is unprotected by copyright law in the United States and you are located in the United States, we do not claim a right to prevent you from copying, distributing, performing, displaying or creating derivative works based on the work as long as all references to Project Gutenberg are removed. Of course, we hope that you will support the Project Gutenberg mission of promoting free access to electronic works by freely sharing Project Gutenberg works in compliance with the terms of this agreement for keeping the Project Gutenberg name associated with the work. You can easily comply with the terms of this agreement by keeping this work in the same format with its attached full Project Gutenberg License when you share it without charge with others.

1.D. The copyright laws of the place where you are located also govern what you can do with this work. Copyright laws in most countries are in a constant state of change. If you are outside the United States, check the laws of your country in

addition to the terms of this agreement before downloading, copying, displaying, performing, distributing or creating derivative works based on this work or any other Project Gutenberg work. The Foundation makes no representations concerning the copyright status of any work in any country other than the United States.

1.E. Unless you have removed all references to Project Gutenberg:

1.E.1. The following sentence, with active links to, or other immediate access to, the full Project Gutenberg License must appear prominently whenever any copy of a Project Gutenberg work (any work on which the phrase “Project Gutenberg” appears, or with which the phrase “Project Gutenberg” is associated) is accessed, displayed, performed, viewed, copied or distributed:

This eBook is for the use of anyone anywhere in the United States and most other parts of the world at no cost and with almost no restrictions whatsoever. You may copy it, give it away or re-use it under the terms of the Project Gutenberg™ License included with this eBook or online at [www.gutenberg.org](http://www.gutenberg.org). If you are not located in the United States, you will have to check the laws of the country where you are located before using this eBook.

1.E.2. If an individual Project Gutenberg electronic work is derived from texts not protected by U.S. copyright law (does not contain a notice indicating that it is posted with permission

of the copyright holder), the work can be copied and distributed to anyone in the United States without paying any fees or charges. If you are redistributing or providing access to a work with the phrase “Project Gutenberg” associated with or appearing on the work, you must comply either with the requirements of paragraphs 1.E.1 through 1.E.7 or obtain permission for the use of the work and the Project Gutenberg trademark as set forth in paragraphs 1.E.8 or 1.E.9.

1.E.3. If an individual Project Gutenberg electronic work is posted with the permission of the copyright holder, your use and distribution must comply with both paragraphs 1.E.1 through 1.E.7 and any additional terms imposed by the copyright holder. Additional terms will be linked to the Project Gutenberg License for all works posted with the permission of the copyright holder found at the beginning of this work.

1.E.4. Do not unlink or detach or remove the full Project Gutenberg License terms from this work, or any files containing a part of this work or any other work associated with Project Gutenberg.

1.E.5. Do not copy, display, perform, distribute or redistribute this electronic work, or any part of this electronic work, without prominently displaying the sentence set forth in paragraph 1.E.1 with active links or immediate access to the full terms of the Project Gutenberg License.

1.E.6. You may convert to and distribute this work in any binary, compressed, marked up, nonproprietary or proprietary form, including any word processing or hypertext form. However, if you provide access to or distribute copies of a

Project Gutenberg work in a format other than “Plain Vanilla ASCII” or other format used in the official version posted on the official Project Gutenberg website ([www.gutenberg.org](http://www.gutenberg.org)), you must, at no additional cost, fee or expense to the user, provide a copy, a means of exporting a copy, or a means of obtaining a copy upon request, of the work in its original “Plain Vanilla ASCII” or other form. Any alternate format must include the full Project Gutenberg License as specified in paragraph 1.E.1.

1.E.7. Do not charge a fee for access to, viewing, displaying, performing, copying or distributing any Project Gutenberg works unless you comply with paragraph 1.E.8 or 1.E.9.

1.E.8. You may charge a reasonable fee for copies of or providing access to or distributing Project Gutenberg electronic works provided that:

- You pay a royalty fee of 20% of the gross profits you derive from the use of Project Gutenberg works calculated using the method you already use to calculate your applicable taxes. The fee is owed to the owner of the Project Gutenberg trademark, but he has agreed to donate royalties under this paragraph to the Project Gutenberg Literary Archive Foundation. Royalty payments must be paid within 60 days following each date on which you prepare (or are legally required to prepare) your periodic tax returns. Royalty payments should be clearly marked as such and sent to the Project Gutenberg Literary Archive Foundation at the address specified in Section 4, “Information about donations to the Project Gutenberg Literary Archive Foundation.”
- You provide a full refund of any money paid by a user who notifies you in writing (or by e-mail) within 30 days of receipt that s/he does not agree to the terms of the full Project Gutenberg™ License. You must require such a user to return or destroy all copies of the works

possessed in a physical medium and discontinue all use of and all access to other copies of Project Gutenberg™ works.

- You provide, in accordance with paragraph 1.F.3, a full refund of any money paid for a work or a replacement copy, if a defect in the electronic work is discovered and reported to you within 90 days of receipt of the work.
- You comply with all other terms of this agreement for free distribution of Project Gutenberg™ works.

1.E.9. If you wish to charge a fee or distribute a Project Gutenberg™ electronic work or group of works on different terms than are set forth in this agreement, you must obtain permission in writing from the Project Gutenberg Literary Archive Foundation, the manager of the Project Gutenberg™ trademark. Contact the Foundation as set forth in Section 3 below.

## 1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread works not protected by U.S. copyright law in creating the Project Gutenberg™ collection. Despite these efforts, Project Gutenberg™ electronic works, and the medium on which they may be stored, may contain “Defects,” such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

**1.F.2. LIMITED WARRANTY, DISCLAIMER OF DAMAGES** - Except for the “Right of Replacement or Refund” described in paragraph 1.F.3, the Project Gutenberg Literary Archive Foundation, the owner of the Project Gutenberg™ trademark, and any other party distributing a Project Gutenberg™ electronic work under this agreement, disclaim all liability to you for damages, costs and expenses, including legal fees. YOU AGREE THAT YOU HAVE NO REMEDIES FOR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTY OR BREACH OF CONTRACT EXCEPT THOSE PROVIDED IN PARAGRAPH 1.F.3. YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

**1.F.3. LIMITED RIGHT OF REPLACEMENT OR REFUND** - If you discover a defect in this electronic work within 90 days of receiving it, you can receive a refund of the money (if any) you paid for it by sending a written explanation to the person you received the work from. If you received the work on a physical medium, you must return the medium with your written explanation. The person or entity that provided you with the defective work may elect to provide a replacement copy in lieu of a refund. If you received the work electronically, the person or entity providing it to you may choose to give you a second opportunity to receive the work electronically in lieu of a refund. If the second copy is also

defective, you may demand a refund in writing without further opportunities to fix the problem.

1.F.4. Except for the limited right of replacement or refund set forth in paragraph 1.F.3, this work is provided to you ‘AS-IS’, WITH NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of certain types of damages. If any disclaimer or limitation set forth in this agreement violates the law of the state applicable to this agreement, the agreement shall be interpreted to make the maximum disclaimer or limitation permitted by the applicable state law. The invalidity or unenforceability of any provision of this agreement shall not void the remaining provisions.

1.F.6. INDEMNITY - You agree to indemnify and hold the Foundation, the trademark owner, any agent or employee of the Foundation, anyone providing copies of Project Gutenberg™ electronic works in accordance with this agreement, and any volunteers associated with the production, promotion and distribution of Project Gutenberg™ electronic works, harmless from all liability, costs and expenses, including legal fees, that arise directly or indirectly from any of the following which you do or cause to occur: (a) distribution of this or any Project Gutenberg work, (b) alteration, modification, or additions or deletions to any Project Gutenberg work, and (c) any Defect you cause.

## **Section 2. Information about the Mission of Project Gutenberg**

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at [www.gutenberg.org](http://www.gutenberg.org).

## **Section 3. Information about the Project Gutenberg Literary Archive Foundation**

The Project Gutenberg Literary Archive Foundation is a non-profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Contributions to the Project Gutenberg Literary Archive Foundation are tax

deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's business office is located at 41 Watchung Plaza #516, Montclair NJ 07042, USA, +1 (862) 621-9288. Email contact links and up to date contact information can be found at the Foundation's website and official page at [www.gutenberg.org/contact](http://www.gutenberg.org/contact)

## **Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation**

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit [www.gutenberg.org/donate](http://www.gutenberg.org/donate).

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit:

## **Section 5. General Information About Project Gutenberg electronic works**

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our website which has the main PG search facility: [www.gutenberg.org](http://www.gutenberg.org).

This website includes information about Project Gutenberg, including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.
