*“And the Lord God ... breathed into his nostrils the breath of life, and
man became a living soul.”*

Copyright, 1922, Corrective Eating Society, Inc.

FOREWORD

The staff of life is not bread—it is *breath*. For you can live days without drink, and weeks without food. But you can only live a few minutes without air.

You would think, inasmuch as the human race has been breathing for at least five hundred thousand years, that men and women today would know *how* to breathe.

As a matter of fact, however, consciously controlled breathing is known to but very few people. These few fortunate individuals have been rewarded by Nature in the way Nature always rewards those who follow her laws.

She blesses them with magnificent constitutions, tireless energy and the strength and beauty that comes from radiant health; skin that shows the rich blood flowing under its clear surfaces, sparkling eyes, and the vivacious manner that attracts and holds the attention of men and women alike.

This, Nature does for those who use rightly her great gift.

Of the few in all the world who know the inmost secrets of the art of breathing, Edward Lankow, the talented author of this course, is perhaps the greatest.

The Editor of Physical Culture Magazine says of him:

“Mr. Edward Lankow is rated by many critics as the greatest basso in America. The richness, resonance, depth, power, flexibility and cello-like beauty of his voice has not been duplicated in America for years. Mr. Lankow is thirty-five years old; weight, 205 pounds stripped; height 6 feet, 1-1/2 inches; chest 44-1/2 inches; waist, 38 inches. He is Russian-American, born in Tarrytown, N. Y.”

In 1902, at the age of nineteen, Lankow was offered the principle Bass engagement with the “Bostonians” by Barnabee and MacDonald, which he declined on account of a desire for further study. The same year he was offered a Tour with Adelina Patti, which he declined for the same reason. In 1906 he started his career in Europe, where he sang at all the principle

opera houses, and in concerts. In 1911 he returned to America and made his debut on the opening evening of the season with the Boston Opera Company. Before going to Boston, he studied *Pelleas et Mellisande* in Paris, at the first rehearsal at which the famous composer Debussy was present, he received the superlative compliment from the composer, who said to him “In your voice, I hear for the first the mystic timbre of voice I thought of when I composed the part fifteen years ago.” Mr. Lankow sang all the nine performances of this opera in Boston with Mme. Leblanc and Mary Garden.

In 1912-1913 at the first performance of the *Magic Flute* at the Metropolitan Opera House, the management brought Mr. Lankow over from Boston for the first half dozen performances, where three of the New York newspaper critics pronounced him the greatest basso in America—one critic saying “A voice of amazing beauty, he is by long odds the greatest basso in America.”

In April, 1917, while attending a garden party at Governor’s Island, Mr. Lankow noticed that the speaking voice of Colonel Hartman was naturally exceedingly well placed (or resonant) and asked the Colonel if he had studied to produce it that way. To which the Colonel answered, “No, I always spoke that way, and always wanted to find out how I did it so as to show it to younger officers—but I couldn’t.”

Mr. Lankow then showed the Colonel by pressing his hand on the Colonel’s abdomen how by Nature he used that organ in support—a support which most of us had to learn but which came quite natural to him. The quick mind of Colonel Hartman absorbed the value of the idea at once, and he asked Mr. Lankow to teach this subject at Camp Gordon, Ga., the largest development camp in the country.

Here official instructors of various subjects from all the other camps in the country from Maine to San Francisco were gathered for special instructions—from 6.45 A. M. Mr. Lankow would have classes ranging from 25 to 1100, and gradually developed 41 officer assistant instructors, so that several thousand men were doing the work at the same time. The Commanding General, Brigadier General William Sage and all of his staff were in his morning class.

After the third week, Mr. Lankow was asked to mess at Headquarters, and live at the former home of Brigadier General Shaw. The results of his work were more than astounding.

Men who had apparently no voices at all, and who had pain in the throat while giving commands, suddenly found that it was a pleasure to use the voice. On the other hand, men whose health was run down so that they were on their way to forced retirement, were so changed in appearance that their civilian friends asked them what they were doing.

Surgeon General Rupert Blue thought so highly of the health-building power of Mr. Lankow's course of instruction that he made the following statement to Mr. Lankow in Washington:

"Use my name for anything you like in connection with your system of teaching breath control."

Another health authority said:

"Give the world two generations of children taught this trained, scientific method of breathing and you'll make the community free of consumption."

Many of the world's greatest singers have profited by Mr. Lankow's instructions. Mary Garden, Director of the Chicago Opera Company and famous prima donna, has written "Half the world does not know that correct breathing means health, happiness and contentment. I had the joy of learning this truth from Mr. Lankow. Every day my voice became better—and my health too. His work is *really great*."

In this complete course of "Lessons" Mr. Lankow tells all the secrets of his wonderful work.

Within a few days you, too, by following the simple directions Mr. Lankow advises, may be well on the road to such health, strength, mental clearness and physical beauty as you have never known before.

For you will be working in harmony with Nature—and with Nature's great and beneficent laws.

The Publisher.

LESSON I

Importance of Consciously Controlled Breathing

Air is truly the breath of life. It is the vital fluid that animates our being; that stimulates into activity every one of the billion of cells that go to make up **the body**.

It is a fact, conceded by every scientific man today, that the oxygen in the air we breathe is absolutely the greatest purifying force in all Nature.

Yet there is but one way to get oxygen into your lungs and into your system—and this is to breathe it in.

As long ago as two thousand years before the Christian Era, the Chinese and the Hindoos made elaborate studies in the art of breathing. Indeed, they developed a complex science having to do with control of the breath. Certain forms of breathing were employed for the cure of various diseases. Thus, for example, it was believed that controlled inhalations and exhalations would allay fevers; or, in a contrary condition of the body, induce a salutary rise in temperature.

In India the Buddhist priests were at pains to practice breath-control so as always to command deep, quiet action of the lungs. In this measured breathing the number of breaths was greatly reduced. The usual eighteen to twenty-two breaths per minute were reduced to six or eight. Experience justified the theories of the priests concerning the value of a controlled breathing. Its merits have stood the tests of ages, and today, in the Orient proper, breathing is still deemed the fountain of health.

Aside from the distinctly physical advantages derived from breath-control, there results also a poise of mind that is most desirable in its benefits to the whole nature of the man.

Later in history both the Greeks and the Romans practiced controlled breathing for hygienic purposes and for the attainment of bodily perfection. They even went further than the Orientals of an earlier epoch, for they deliberately set out to enlarge the chest cavity. They realized that the

principal part of the body is the trunk, and that in this the chief constituent is the chest. The success they attained in the development of superb physiques is demonstrated by the examples that survived to us of their classic art. They were able to attain a bodily perfection unequalled in the history of the world. In their methods, controlled breathing was the chief agent.

In Europe, during the Middle Ages, this science of breath suffered from increasing neglect, and finally died out.

As an appalling commentary on the neglect of proper breathing by the mass of mankind, we may consider the fact, now generally admitted by the medical profession, that fully one half of the world's death-rate is due to consumption.

The fact could hardly be otherwise. Any experienced physician is well aware that only a small part of the lungs is ordinarily used by the average person. A large portion of the breathing apparatus is in most cases never employed at all. Naturally, inevitably, such areas in the lungs weaken and become degenerate. They offer a breeding place for the germs of various infections.

Why Ordinary Systems of Exercise Fail

The various systems of gymnastics are designed for the surface-building of the body. The exercises affect almost exclusively the outer muscular structure. The scientific cultivation of the breath, on the contrary, acts directly on the inner, vital organs. These are strengthened and developed from the outset. Thus a sure foundation is laid on which to build toward physical perfection, and the true beauty which is, or should be, the heritage of every healthy man or woman. Any ordinary method must of necessity prove itself as ineffective as it is illogical.

The majority of athletes exhibit exterior muscles of most impressive bulk. It is a curious fact, however, that the bony structure, which measures the chest cavity, shows only a trifling development when deprived of its muscular support. It must always be borne in mind that the strength of the body lies in its organic power—not in the surface muscles. In fact, the larger the surface muscles are, the more strength is taken from the organic vitality in

order to support and feed them. It is by reason of this drain upon the inner forces that athletes so often die young. Abnormal development of the muscular system at the expense of organic vitality is a folly always dangerous, often fatal.

How We Live On Air

Air is the substance on which principally we feed. What we eat is of secondary importance. The purity of the blood and the strength of the arteries through which it throbs depend absolutely upon right breathing. The greater the quantity of air taken into the lungs, the more oxygen for the purification of the blood—the constant and prime requirement for health.

The system of breathing which I advocate in this work is not a mere matter of theory, something vague and experimental. It is concrete; it is exact; its worth has been definitely proved. I have demonstrated the merit of the exercises in my own case. During a year and a half of practice my chest measurement increased from thirty-eight inches to forty-two.

Breathing Color Into Pale Faces

With many flat-chested and anemic girls I have seen an equally astonishing improvement. I have seen their chest develop, their busts become firm and rounded, and tell-tale hollows under their collar bones fill out.

Almost invariably, flabby muscles become resilient, pale sallow cheeks become pink with the sweet flush of healthy youth.

Incidentally, I have discovered a variety of virtues in controlled breathing. Thus, in the case of that most annoying among minor ailments, a cold, I have found that I could invariably be rid of it within twenty-four hours by means of strenuous breathing exercises for twenty minutes at a time repeated often during the day.

For a more formal indorsement of this system, I may refer to the Societe Internationale de la Tuberculose. An investigation by the society was reported favorably at The Hague and London.

In this connection, it should be remembered that the world at large has not yet begun to realize the supreme value of correct, quiet, slow breathing for

general health. Its practice regularly would unquestionably prove a preventative of tubercular disease. Its judicious employment by those already affected would prove a powerful remedial agent. Consumptives who seek the pure air of mountains or plains often fail to receive benefit, for the simple reason that they have never learned the proper manner of breathing. To such, the best of air is useless as the most nourishing food to the one who has no teeth with which to chew.

When one inhales, the lungs seem to grow. As the cells are filled with air, the chest proportionately enlarges. At the same time, the ribs and the diaphragm assume a new position. The result is that the chest, the between-rib muscles, and the diaphragm are all very strenuously exercised. By proper breathing, the various muscles involved are constantly trained; they are developed and made elastic to such an extent that the lungs are not required to stand alone in their resistance against adverse conditions, both without and within.

The lungs expand during inhalation; they contract during exhalation. A full breath dilates the lungs to their maximum capacity; they relax to the minimum size when the breath is completely expelled. By practice one can readily learn to influence the various movements, and gradually to control them. The practice of the first exercises in the series given includes sudden exhalation, slow exhalation, and rhythmic exhalation. These tend to reduce the quantity of air that is left in the lungs when the breath is expelled. Such residual air is poisonous, and an excess of it, due to improper breathing, is very injurious. Its retention in the lung cells not only lessens the space available to be filled with fresh air, but it also acts as a direct agent for ill in the bodily processes.

How Consciously Controlled Breathing Makes You Resist Disease

It should be added, and with emphasis, that *the habit of deep breathing makes one immune to the germs of various diseases*. The practice of breath-control gives a toughened fiber to the whole breathing apparatus. This and

the constant purifying of the blood develop the body's vital forces to the highest degree possible, against which disease is rendered powerless. Thus one may enter into possession of the health and strength that are his by right; and thus, and thus only, shall he know the joy of life.

Here is an illustration of what may be done by serious and persistent attention to breathing. It must be understood, however, that I by no means advise others to follow my example, although I believe it quite possible for anybody—man, woman, boy or girl—by constant practice, to develop the same perfect resistance that I myself have.

For a period of five years, I have made it a rule to dress in January exactly as in July—except in the matter of an overcoat. I go without underclothing, I wear no waistcoat, (vest). I do not take exception to the wearing by others of such garments, during the winter months. But for myself, as I gradually learned to take advantage of systematic breathing exercises and thus to charge my blood abundantly with oxygen, the necessity for much clothing disappeared. Underwear grew to be uncomfortable. I found myself both happier and healthier without it. When I wore the heavier clothing in winter, I suffered from frequent colds. Now I am rarely troubled in that manner. If, through carelessness, I do catch cold, I am able easily to throw it off within twenty-four hours by means of extra practice in deep breathing, together with a short fast.

I do not wish to infer that the heavier clothing is the cause of colds. My point is, rather, that the extra amount of oxygen I take into my blood supplies the place of the garments formerly worn by me, as well as acts in consuming, or burning up, the poisonous material that gathers in the tissues, and tends to make you *feel* cold.

Let me repeat that I do not advise anyone to experiment with the wearing of summer apparel in winter until after several months of systematic breathing exercises, with the consequent enriching of the blood. The matter, like that of the cold bath, is one for individual discrimination.

In my own case, the lighter garb has become actually a necessity for comfort's sake.

Why We Should Establish Schools To Teach The New Science of Breathing

Whatever the different systems for muscular and health development may be, the value of developing those vital inner organs—the heart, the lungs and the digestive organs, is easily understood. A large arm, or a wonderful leg development cannot help these inner organs, if they are naturally weak, or if they have been weakened. The point is—what *will* give health to these organs the fundamental or motor power to all health.

Special exercises for the lungs, that is, conscious deep breathing exercises for a specific period of time, will give results which few realize. It is all so simple that most of us cannot believe it, like all truths. The maximum oxygenation of the blood through taking in large quantities of air—thereby feeding the organs with purer blood—the *improved circulation*, the exhilarated heartbeat, the drawing away of drowsiness from the brain, *the improved digestion through the unconscious massage of the lower organs*, all these will show what results are obtainable. If the children in our schools were taught conscious, deep, slow breathing at that period of their lives when body and mind are flexible, the habit would be easily formed for life. This habit would surely wipe out consumption within two generations. Millions of human beings die yearly from this, the greatest human menace. Why not, therefore, have schools for breathing. Surely this experiment is entitled to a place among the hundreds of other experiments which have been and which are being tried.

SCIENCE OF CONTROLLED BREATHING, VOL. 1 (OF 2) ***

Updated editions will replace the previous one—the old editions will be renamed.

Creating the works from print editions not protected by U.S. copyright law means that no one owns a United States copyright in these works, so the Foundation (and you!) can copy and distribute it in the United States without permission and without paying copyright royalties. Special rules, set forth in the General Terms of Use part of this license, apply to copying and distributing Project Gutenberg™ electronic works to protect the PROJECT GUTENBERG™ concept and trademark. Project Gutenberg is a registered trademark, and may not be used if you charge for an eBook, except by following the terms of the trademark license, including paying royalties for use of the Project Gutenberg trademark. If you do not charge anything for copies of this eBook, complying with the trademark license is very easy. You may use this eBook for nearly any purpose such as creation of derivative works, reports, performances and research. Project Gutenberg eBooks may be modified and printed and given away—you may do practically ANYTHING in the United States with eBooks not protected by U.S. copyright law. Redistribution is subject to the trademark license, especially commercial redistribution.

START: FULL LICENSE

THE FULL PROJECT GUTENBERG™ LICENSE

PLEASE READ THIS BEFORE YOU DISTRIBUTE OR USE THIS WORK

To protect the Project Gutenberg™ mission of promoting the free distribution of electronic works, by using or distributing this work (or any other work associated in any way with the phrase “Project Gutenberg”), you agree to comply with all the terms of the Full Project Gutenberg License available with this file or online at www.gutenberg.org/license.

Section 1. General Terms of Use and Redistributing Project Gutenberg electronic works

1.A. By reading or using any part of this Project Gutenberg electronic work, you indicate that you have read, understand, agree to and accept all the terms of this license and intellectual property (trademark/copyright) agreement. If you do not agree to abide by all the terms of this agreement, you must cease using and return or destroy all copies of Project Gutenberg electronic works in your possession. If you paid a fee for obtaining a copy of or access to a Project Gutenberg electronic work and you do not agree to be bound by the terms of this agreement, you may obtain a refund from the person or entity to whom you paid the fee as set forth in paragraph 1.E.8.

1.B. “Project Gutenberg” is a registered trademark. It may only be used on or associated in any way with an electronic work by people who agree to be bound by the terms of this agreement. There are a few things that you can do with most Project Gutenberg electronic works even without complying with the full terms of this agreement. See paragraph 1.C below. There are a lot of things you can do with Project Gutenberg electronic works if you follow the terms of this agreement and help preserve free future access to Project Gutenberg electronic works. See paragraph 1.E below.

1.C. The Project Gutenberg Literary Archive Foundation (“the Foundation” or PGLAF), owns a compilation copyright in the collection of Project Gutenberg electronic works. Nearly all the individual works in the collection are in the public domain in the United States. If an individual work is unprotected by copyright law in the United States and you are

located in the United States, we do not claim a right to prevent you from copying, distributing, performing, displaying or creating derivative works based on the work as long as all references to Project Gutenberg are removed. Of course, we hope that you will support the Project Gutenberg mission of promoting free access to electronic works by freely sharing Project Gutenberg works in compliance with the terms of this agreement for keeping the Project Gutenberg name associated with the work. You can easily comply with the terms of this agreement by keeping this work in the same format with its attached full Project Gutenberg License when you share it without charge with others.

1.D. The copyright laws of the place where you are located also govern what you can do with this work. Copyright laws in most countries are in a constant state of change. If you are outside the United States, check the laws of your country in addition to the terms of this agreement before downloading, copying, displaying, performing, distributing or creating derivative works based on this work or any other Project Gutenberg work. The Foundation makes no representations concerning the copyright status of any work in any country other than the United States.

1.E. Unless you have removed all references to Project Gutenberg:

1.E.1. The following sentence, with active links to, or other immediate access to, the full Project Gutenberg License must appear prominently whenever any copy of a Project Gutenberg work (any work on which the phrase “Project Gutenberg” appears, or with which the phrase “Project Gutenberg” is associated) is accessed, displayed, performed, viewed, copied or distributed:

This eBook is for the use of anyone anywhere in the United States and most other parts of the world at no cost and with almost no restrictions whatsoever. You may copy it, give it away or re-use it under the terms of the Project Gutenberg™ License included with this eBook or online at www.gutenberg.org. If you are not located in the United States, you will have to check the laws of the country where you are located before using this eBook.

1.E.2. If an individual Project Gutenberg electronic work is derived from texts not protected by U.S. copyright law (does not contain a notice indicating that it is posted with permission of the copyright holder), the work can be copied and distributed to anyone in the United States without paying any fees or charges. If you are redistributing or providing access to a work with the phrase “Project Gutenberg” associated with or appearing on the work, you must comply either with the requirements of paragraphs 1.E.1 through 1.E.7 or obtain permission for the use of the work and the Project Gutenberg trademark as set forth in paragraphs 1.E.8 or 1.E.9.

1.E.3. If an individual Project Gutenberg electronic work is posted with the permission of the copyright holder, your use and distribution must comply with both paragraphs 1.E.1 through 1.E.7 and any additional terms imposed by the copyright holder. Additional terms will be linked to the Project Gutenberg License for all works posted with the permission of the copyright holder found at the beginning of this work.

1.E.4. Do not unlink or detach or remove the full Project Gutenberg License terms from this work, or any files containing a part of this work or any other work associated with Project Gutenberg.

1.E.5. Do not copy, display, perform, distribute or redistribute this electronic work, or any part of this electronic work, without prominently displaying the sentence set forth in paragraph 1.E.1 with active links or immediate access to the full terms of the Project Gutenberg License.

1.E.6. You may convert to and distribute this work in any binary, compressed, marked up, nonproprietary or proprietary form, including any word processing or hypertext form. However, if you provide access to or distribute copies of a Project Gutenberg work in a format other than “Plain Vanilla ASCII” or other format used in the official version posted on the official Project Gutenberg website (www.gutenberg.org), you must, at no additional cost, fee or expense to the user, provide a copy, a means of exporting a copy, or a means of obtaining a copy upon request, of the work in its original “Plain Vanilla ASCII” or other form. Any alternate format must include the full Project Gutenberg License as specified in paragraph 1.E.1.

1.E.7. Do not charge a fee for access to, viewing, displaying, performing, copying or distributing any Project Gutenberg works unless you comply with paragraph 1.E.8 or 1.E.9.

1.E.8. You may charge a reasonable fee for copies of or providing access to or distributing Project Gutenberg electronic works provided that:

- You pay a royalty fee of 20% of the gross profits you derive from the use of Project Gutenberg works calculated using the method you already use to calculate your applicable taxes. The fee is owed to the owner of the Project Gutenberg trademark, but he has agreed to donate royalties under this paragraph to the Project Gutenberg Literary Archive Foundation. Royalty payments must be paid within 60 days following each date on which you prepare (or are legally required to prepare) your periodic tax returns. Royalty payments should be clearly marked as such and sent to the Project Gutenberg Literary Archive Foundation at the address specified in Section 4, "Information about donations to the Project Gutenberg Literary Archive Foundation."
- You provide a full refund of any money paid by a user who notifies you in writing (or by e-mail) within 30 days of receipt that s/he does not agree to the terms of the full Project Gutenberg™ License. You must require such a user to return or destroy all copies of the works possessed in a physical medium and discontinue all use of and all access to other copies of Project Gutenberg™ works.
- You provide, in accordance with paragraph 1.F.3, a full refund of any money paid for a work or a replacement copy, if a defect in the electronic work is discovered and reported to you within 90 days of receipt of the work.
- You comply with all other terms of this agreement for free distribution of Project Gutenberg™ works.

1.E.9. If you wish to charge a fee or distribute a Project Gutenberg™ electronic work or group of works on different terms than are set forth in this agreement, you must obtain permission in writing from the Project Gutenberg Literary Archive Foundation, the manager of the Project

Gutenberg™ trademark. Contact the Foundation as set forth in Section 3 below.

1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread works not protected by U.S. copyright law in creating the Project Gutenberg™ collection. Despite these efforts, Project Gutenberg™ electronic works, and the medium on which they may be stored, may contain “Defects,” such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

1.F.2. LIMITED WARRANTY, DISCLAIMER OF DAMAGES - Except for the “Right of Replacement or Refund” described in paragraph 1.F.3, the Project Gutenberg Literary Archive Foundation, the owner of the Project Gutenberg™ trademark, and any other party distributing a Project Gutenberg™ electronic work under this agreement, disclaim all liability to you for damages, costs and expenses, including legal fees. YOU AGREE THAT YOU HAVE NO REMEDIES FOR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTY OR BREACH OF CONTRACT EXCEPT THOSE PROVIDED IN PARAGRAPH 1.F.3. YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

1.F.3. LIMITED RIGHT OF REPLACEMENT OR REFUND - If you discover a defect in this electronic work within 90 days of receiving it, you can receive a refund of the money (if any) you paid for it by sending a written explanation to the person you received the work from. If you received the work on a physical medium, you must return the medium with your written explanation. The person or entity that provided you with the defective work may elect to provide a replacement copy in lieu of a refund. If you received the work electronically, the person or entity providing it to

you may choose to give you a second opportunity to receive the work electronically in lieu of a refund. If the second copy is also defective, you may demand a refund in writing without further opportunities to fix the problem.

1.F.4. Except for the limited right of replacement or refund set forth in paragraph 1.F.3, this work is provided to you 'AS-IS', WITH NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of certain types of damages. If any disclaimer or limitation set forth in this agreement violates the law of the state applicable to this agreement, the agreement shall be interpreted to make the maximum disclaimer or limitation permitted by the applicable state law. The invalidity or unenforceability of any provision of this agreement shall not void the remaining provisions.

1.F.6. INDEMNITY - You agree to indemnify and hold the Foundation, the trademark owner, any agent or employee of the Foundation, anyone providing copies of Project Gutenberg™ electronic works in accordance with this agreement, and any volunteers associated with the production, promotion and distribution of Project Gutenberg™ electronic works, harmless from all liability, costs and expenses, including legal fees, that arise directly or indirectly from any of the following which you do or cause to occur: (a) distribution of this or any Project Gutenberg work, (b) alteration, modification, or additions or deletions to any Project Gutenberg work, and (c) any Defect you cause.

Section 2. Information about the Mission of Project Gutenberg

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the

efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non-profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Contributions to the Project Gutenberg Literary Archive Foundation are tax deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's business office is located at 41 Watchung Plaza #516, Montclair NJ 07042, USA, +1 (862) 621-9288. Email contact links and up to date contact information can be found at the Foundation's website and official page at www.gutenberg.org/contact

Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment

including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit www.gutenberg.org/donate.

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: www.gutenberg.org/donate.

Section 5. General Information About Project Gutenberg electronic works

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a

copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our website which has the main PG search facility:
www.gutenberg.org.

This website includes information about Project Gutenberg, including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.
