Presentation Pieces

In the Museum of History and Technology

As a social document, the collection of presentation pieces, mostly silver, in the United States National Museum provides evidence of the taste and craftsmanship in America at various periods from the mid-18th century to the 1920's.

Although the representative items selected for illustration confirm the view that such pieces often lack artistic merit, the collection nevertheless reveals the deeds—in war, politics, technology, diplomacy, sports—that our forebears deemed worthy of special recognition. And it helps to bring alive some figures now submerged in our ever-expanding history.

The author: Margaret Brown Klapthor is associate curator of political history in the Smithsonian Institution's Museum of History and Technology.

THE CUSTOM OF GIVING A PIECE OF SILVER to an individual in recognition of service or in appreciation of accomplishment probably began as soon as man developed the fashioning of that metal into objects. Such a presentation piece was a tangible and durable form of recognition which could be appreciated, used, displayed, and enjoyed by the recipient. Many of these silver pieces became for succeeding generations the cherished evidence of recognition accorded to an ancestor, and they were preserved long after the more customary family silver had worn out or been lost.

The Smithsonian Institution's Museum of History and Technology has what may well be the most varied and extensive collection of such presentation pieces ever to be preserved and exhibited in one place. The collection contains the work of some of the more prominent American silversmiths, but most of the pieces are by lesser known makers and are in the collection because of historic interest rather than artistic merit. The chief usefulness of the collection lies in its value as a social document and in the mute evidence it gives of the taste and craftsmanship of the periods covered. The collection

is also helpful in dating type specimens that do not have specific associations with persons and dates. Perhaps even more interesting than the gamut of styles that the collection presents is the panorama of deeds, events, and persons that our forebears considered worthy of recognition. Silver presentation pieces were awarded to persons in almost every walk of life—to military men, to peace-loving Indians, and to men who achieved success in politics and agriculture. They were given for sea rescues, for heroic deeds by firemen and school-patrol boys, and for outstanding community and civic work. Within our time they have been given as trophies for excellence in athletics, automobile racing, and many other events.

Figure 2.—Snuffbox inlaid with mother-of-pearl and horn made around 1769 by William Cario, who worked in Portsmouth, New Hampshire. The box measures $2\frac{7}{8} \times 2\frac{1}{8} \times \frac{1}{2}$ inches. Bequest of Arthur Michaels. In Division of Cultural History. (Acc. 162866, cat. 383486; Smithsonian photo 36941.)

18th-Century Pieces

Silversmiths have been making presentation pieces from the earliest days of our country, but the Smithsonian Institution has only a few 18th-century pieces in its collection.

The earliest of these is an inlaid silver snuffbox ([fig. 2](#)) made by William Cario, who worked in Portsmouth, New Hampshire, about 1763. The oval box—evidently a gift to the silversmith’s second wife, Lydia Croxford, whom he married in 1768—has inscribed on its base “The property of Lydia Cario” and “1769.” The cover has an undersurface of horn, and the silver on the outer surface is inlaid with mother-of-pearl and tortoise shell in a filigree pattern.

Many of the earliest pieces of presentation silver were made for use in churches, and they were given by groups as well as by individuals. Representative of this type is a silver alms plate^[1] with the following inscription on the rim:

The Gift of the Honble thomas hancock esqr to the church in Brattle Street Boston 1764.

The plate is shallow with a slightly domed center. Engraved on the flat rim, in addition to the inscription, is a crest at the top and the cherub’s head at the bottom. The piece is marked by John Coburn, who lived in Boston from 1725 to 1803. Five trays matching this one are in the Boston Museum of Fine Arts.^[2]

A silver tankard made by Samuel Minott, who worked in Boston from about 1765 to 1803, can be accurately placed by the account of ownership thoughtfully inscribed on its base by one of its later owners. The legend reads:

Richard Derby to E. S. Hasket Derby 1763
John Derby
George Derby 1831
Roger Derby 1874

The tankard has a tapered, ringed body, an S-shaped handle with a plain boss at the end, a scroll thumb-piece, a flat molded drop ornament on the handle, and a domed cover with an acorn finial. On the body beneath the Derby coat of arms, is monogrammed “E H D” for Elias Hasket Derby ([fig. 3](#)). Elias Hasket Derby achieved wealth and fame as a Salem merchant prince engaged in the China trade.

84

Similar in design to these 18th-century pieces is a standing cup[\[3\]](#) or chalice with the inscription:

Presented by the Sisters of the New South Church for its communion service—January 1, 1815.

This cup, with a concave body and a baluster stem with a square foot, is marked “Moulton” and is in the style of Ebenezer Moulton who worked in Boston between 1768 and 1824.

Figure 3.—Mark of Samuel Minott and monogram of Elias Hasket Derby on silver tankard. Bequest of Arthur Michaels. In Division of Cultural History. (Acc. 162866, cat. 383545; Smithsonian photos 44828-D, 44828-F.)

19th-Century Pieces

The collections of the United States National Museum that cover the political, cultural, military, and technological history of America in the 19th century are probably without rival, and the collection of presentation silver is no exception. The recognition of military prowess by the presentation of silver objects was especially popular during this century.

FOR SERVICE IN WAR OF 1812

Some handsome pieces of silver of the federal style were given for service in the War of 1812. Historically the most important of these is a mammoth punch set ([fig. 4](#)) presented to Colonel George Armistead by the citizens of Baltimore in recognition of his services in the defense of Fort McHenry against the British attack in 1814. The service includes an oval silver tray with a handle on each end, the whole of which is supported on six winged-claw feet. The tray is 29 inches long and 22 inches wide.

The ball-shaped punch bowl, 12½ inches in diameter, is supported by four eagles mounted on a round base. There is a loop handle of silver rope on each side. The bowl is an exact copy in size and design of the mortar bombs the British hurled at the fort. On one side of the bowl is the following inscription:

Presented by a number of the citizens of Baltimore to Lieutenant Colonel George Armistead for his gallant and successful defense of Fort McHenry during the bombardment by a large British Force, on the 12th and 13th September 1814 when upwards of 1500 shells were thrown; 400 of which fell within the area of the Fort and some of them of the diameter of this vase.

(Note the discrepancy in the dates of the inscription. The Battle of Fort McHenry was fought on the 13th and 14th of September 1814.)

Figure 4.—Punch set presented to Col. George Armistead by the citizens of Baltimore in recognition of his services in the defense of Fort McHenry against the British in 1814. Gift of Alexander Gordon, Jr., great-grandson of the recipient. In Division of Political History. (Acc. 6642, cats. 30914-17; Smithsonian photo P-64357.)

On the other side is engraved a view of Fort McHenry and Baltimore Harbor. The bowl is marked by Thomas Fletcher and Sidney Gardiner, silversmiths who worked in Philadelphia from 1814 to 1838. In regard to the excellence of the work of these silversmiths, there is an interesting comment in a diary of Philip Hone that is owned by the New-York Historical Society. On February 14, 1838, Hone wrote:

Fletcher and Co. are the artist who made the Clinton vases. Nobody in this “world” of ours hereabouts can compete with them in their kind of work.^[4]

In the set are ten silver cups, each 3¼ inches high and 3 inches in diameter. The cups have the same rounded shape as the bowl, without the loop handles, and are marked on the bottom by Andrew E. Warner, a silversmith who was working in Baltimore from 1805 until his death in 1870.

The ladle, in the same shape as the cups, is also marked by Warner.

During the defense of Fort McHenry Colonel Armistead had under him about 1,000 men, including soldiers, sailors, and volunteers. It is said he was the only man aware of the alarming fact that the powder magazine was not bombproof. During the night of September 13 the fort was under constant bombardment by the enemy, but the attack failed. Discouraged by the loss of the British general in land action, and finding that the shallow water and sunken ships prevented a close approach to the city by water, the British fleet withdrew. Fort McHenry was but little damaged and loss of life was small.

Figure 5.—Tureen presented to Com. John Rodgers by the citizens of Baltimore for his part in the defense of the city against the British in 1814. Bequest of Gen. M. C. Meigs. In Division of Political History. (Acc. 25386, cat. 5863; Smithsonian photo P-64357-A.)

Closely related to this punch set is a covered tureen ([fig. 5](#)) that the citizens of Baltimore gave to Commodore John Rodgers, U.S.N., for his part in the defense of Baltimore in September 1814. During the battle of North Point and the attack on Fort McHenry, the naval forces under Commodore Rodgers defended the water battery, the auxiliary forts Covington and Babcock, and the barges of the naval flotilla.

The oval-shaped tureen is mounted on a square base that stands on four winged feet. The piece is 15 inches high. The handles at each end are supported by eagles' heads. An applied design of flying horses and winged cherub heads makes an attractive border around the edge of the tureen. The

knob on the cover of the tureen is a stylized bunch of grapes. On the inside of the bottom of the base is inscribed:

Presented by the citizens of Baltimore to Commodore John Rodgers in testimony of their sense of the important aid afforded by him in the defense of Baltimore on the 12th and 13th of Sept'r, 1814.

This piece too bears the mark of Philadelphia silversmiths Fletcher and Gardiner.

The gold snuffbox presented to Major General Jacob Brown by the City of New York in recognition of his services in the War of 1812 does not fall strictly within the province of this article, but it is included because it is similar to the silver pieces just described. The exterior of the box ([fig. 6](#)) is beautifully chased in a line design. The inside of the lid is inscribed as follows:

The Corporation of the City of New York to Major General Jacob Brown in testimony of the high sense they entertain of his valor and skill in defeating the British forces superior in number, at the battles of Chippewa and Bridgewater on the 5th and 25th of July, 1814.

Figure 6.—Gold snuffbox presented to Maj. Gen. Jacob Brown by the City of New York in recognition of his services in the War of 1812. Gift of Mrs. Susan Brown Chase. In Division of Political History. (Acc. 116682, cat. 37664; Smithsonian photo 57009.)

FOR PEACE AND FRIENDSHIP

Unusual in the Museum's collection of presentation silver is the treaty pipe ([fig. 7](#)) formally presented to the Delaware Indians in 1814 by General

William Henry Harrison at the conclusion of the second Treaty of Greenville.

The treaty was intended to commit the Indians to active resistance in the American cause during the War of 1812. General Harrison and Lewis Cass had been appointed commissioners by the U.S. Government to conclude the treaty. On July 8, 1814, General Harrison read to the Indians a message from the President of the United States, and afterward he presented to the Wyandotte, Delaware, and Shawnee Indian tribes large silver pipes elegantly ornamented and engraved with emblems signifying the protection and friendship of the United States.^[5]

Figure 7.—Peace pipe presented to the Delaware Indians by Gen. William Henry Harrison in 1814. Bequest of Victor J. Evans. In Bureau of American Ethnology. (Acc. 113604, cat. 362061; Smithsonian photos 44571, 44571-A.)

The pipe presented to the Delaware Indians has an urn-shaped bowl with a bead-edged cover bearing acanthus-leaf decorations. The S-shaped stem is 21 inches long and only one-fourth inch in diameter. The great length of the stem was necessary to cool the smoke; the S-shape added rigidity to the silver. The piece undoubtedly is the work of a competent craftsman but it bears no identifying mark.^[6]

Although not exactly a pipe of peace, another pipe in the collections of the Museum represents a gesture of friendship between nations. It is a meerschaum pipe^[7] with a silver lid on the bowl and with a silver mouthpiece. The lid bears this inscription:

This pipe was presented to Sir Frederick Hankey by the Grand Vizier of Turkey at Constantinople in the year 1830 and to Thomas Hankey Esqre by the Daughter of Sir Frederick and by him to Charles Alexander Esqre 9th March, 1873.

The only information that has been obtained about Hankey is that he held an official position as Chief Secretary of Malta for the British Government.

FOR POLITICS

In 1838 the Whig Young Men of New York City presented to Robert Charles Wetmore a pair of large, ornate, silver pitchers^[8] inscribed:

To Robert Charles Wetmore their late Chairman from the General Committee of Whig Young Men of the City of New York a Memorial of political fellowship, a token of personal esteem and a tribute of patriotic service 1838.

The bases of the pitchers are engraved:

Presented to Chas Fredk Wetmore by his father, January 1st, 1840.

These pitchers were made by Geradus Boyce, a New York silversmith who worked in the first half of the 19th century.

FOR SERVICE IN THE MEXICAN, CIVIL, AND INDIAN WARS

Most of these pieces, like the pitchers mentioned above, are not as pleasing aesthetically as the earlier ones, and they are much more closely allied with the exuberance of the Victorian era than they are with the classical lines of the Federal period.

A large, elaborate vase^[9] with two handles and a cover was presented to Major General Silas Casey, U.S.A., in recognition of his services during the Mexican War. The vase is inscribed:

To Capt. Silas Casey, 2 inf. U.S.A. For his bravery and skill at Contreras, Churubusco and other battles of Mexico; for his gallant leading of the storming party of Regulars at Chapultepec where he was severely wounded. The gift of citizens of his native town and others, E. Greenwich, Rhode Island, August 1848.

The vase is marked on the bottom with box-enclosed letters “G & H” and “1848.” The letters probably refer to Gale and Hughes, New York silversmiths, or perhaps to Gale and Hayden, who were in business about the same time.

Casey, a graduate of the U.S. Military Academy, received votes of thanks from the Rhode Island legislature for his services in both the Mexican and Civil Wars.

Lieutenant Colonel John Bankhead Magruder was given a silver pitcher by his friends in Baltimore for his Mexican War service. The pitcher^[10] is urn-shaped, has a long, narrow neck, and stands on a tall base. The entire pitcher is elaborate repoussé in a design of roses, sunflowers, and grapes. An arched and turreted castle is depicted on each side, and on the center front is the inscription:

Presented to Lt. Col. J. Bankhead Magruder by his Baltimore friends as a token of their appreciation of his Meritorious Services in the Mexican War, October 16, 1849.

On the inside of the base are the marks “S. Kirk & Son” and “11 oz.”

89

Magruder graduated from the U.S. Military Academy in 1830, and his military career encompassed service under three flags within a period of 35

years. In the Mexican War he was brevetted major for gallantry at Cerro Gordo and lieutenant colonel for Chapultepec, where he was severely wounded. At the outbreak of the Civil War, Colonel Magruder, a native of Virginia, entered the Confederate Army and was soon placed in command of the Department of Texas, where he served until the close of the war. He then entered the army of Maximilian in Mexico as major general and was in active service until Maximilian's capture and execution. When he returned to the United States he settled in Houston and died there in 1871.

A silver service ([fig. 8](#)) consisting of four goblets, pitcher, and tray, presented to Brevet Major General John Porter Hatch, U.S. Volunteers, is interesting because it was given in recognition of services during the Mexican War, the Indian expeditions of 1857-1859, and the Civil War. The gift is from Hatch's fellow citizens of Oswego, New York.

Figure 8.—Silver service given to Maj. Gen. John Hatch by the citizens of Oswego, New York. Gift of Mark Burckle Hatch. In Division of Political History. (Acc. 59476, cats. 16024-16026; Smithsonian photo 38259.)

The silver tray measures 15 by 20 inches and is decorated with four small waterscapes and a flower design. It is raised on four short scroll feet. The inscription reads:

Genl. John Porter Hatch Presented by Citizens of Oswego, Jany 1863

90

The pitcher (14 inches high and 7 inches in diameter) has a design of grapevines and birds. The spout is in the form of a face, and the handle represents entwined vines. It is inscribed:

Presented by citizens of Oswego, N.Y. to their esteemed fellow citizen Genl. John Porter Hatch as a testimonial of their appreciation of the gallantry and heroism displayed by him

in the service of his country especially on the battle fields of Mexico and in the Army of the Potomac Jan'y 1863.

The mark is "Tiffany & Co., 7899, G. & W., English Sterling 925-1000, 550 Broadway N.Y."

The four silver goblets are also decorated with grape vines and birds, and they have gilt interiors. They are 8 inches high and 3¼ inches in diameter. Each goblet has the inscription:

Testimonial of the Citizens of Oswego, N.Y. to Genl. John P. Hatch, Jan. 1863.

Below this inscription each goblet is marked with one of the following:

91

Mexico 1846-7
New Mexico 1857-8-9
Shenandoah Valley, May 25, 1862
South Mountain, Sep. 14, 1862

Each goblet is marked "Tiffany & Co."

Hatch graduated from the Academy in 1845 and immediately saw active service in the Mexican War. He fought not only in General Taylor's campaign in northern Mexico but also in General Scott's campaign to capture Mexico City. In the years intervening before the Civil War he saw active service in Indian campaigns and took part in a number of scouting expeditions. With the outbreak of the Civil War he was assigned with the Volunteers in the Army of the Potomac until he was severely wounded at South Mountain, for which action he received the Congressional Medal of Honor. He spent the rest of the Civil War on duty behind the lines where he was in command of various districts in the Department of the South following Sherman's campaign.

The largest and most elaborate set of presentation silver in the Museum is a complete table service ([fig. 9](#)) that was given to General Judson Kilpatrick by the Veterans Association of Connecticut on the occasion of his marriage to a Chilean in 1868 while he was serving as U.S. Minister to Chile. The set is engraved with emblems of the United States, Chile, the U.S. Army, and the U.S. Navy. The monograms on the individual pieces are in gold of four

colors. More than any other silver service in the Museum this one may be said to epitomize the elaborate realism so popular during the height of the Victorian era.

Figure 9.—Silver service presented to Gen. Judson Kilpatrick by the Veterans Association of Connecticut. Loan of the estate of Mrs. Luisa V. Kilpatrick. In Division of Political History. (Acc. 57292, cats. 15145-15167; Smithsonian photo 28067.)

The pieces are marked “Meriden B * Company *” in a circle around a shield surmounted by balanced scales. This mark was used in the second half of the 19th century by the Meriden Britannia Company for its high-grade, silver-plated hollow-ware made on a base of silver nickel.^[11]

There are two trays in the set. The smaller tray is shown in figure 9. The larger one measures 22½ inches by 38 inches and is inscribed:

The Veteran Soldiers of Connecticut to Kilpatrick

It is engraved in gold and silver with flags of the United States and Chile crossed with bayonets and spears. On one side there is a center medallion in gold with the monogram “L V K” (for Luisa V. Kilpatrick) in a circle surmounted on a shield of stars and stripes. Above the monogram there is a banner with three stars and a triangle. On the other side of the standing piece two eagles in fighting position are shown in front of a sunburst design. The United States flag can be seen directly behind the victorious eagle. The motto “Tuebor” is at the top of the sunburst. The entire design is encircled by a ring of stars, and there is a shield of stars and stripes at the top. This same design is repeated on all 40 pieces.

The service contains napkin rings, vegetable dishes, syrup jar, spoon holder, large centerpiece, porcelain-lined pitcher, and other miscellaneous pieces of silver used for table service. The pieces of the tea and coffee service are mounted on four feet that are fastened to the bowl with cattle heads with branched horns. Each foot stands on a cloven hoof. The knob of each of the pots is a tiny horse jumping over a four-bar hurdle.

One of the most interesting military presentation pieces in the collection is a silver and copper shield presented to Lieutenant General Nelson A. Miles, U.S. Army, by the officers of the 5th Infantry Regiment. General Miles served for many years as colonel of the regiment and led it in a number of notable Indian engagements. Beginning in 1869 his regiment defeated the Cheyenne, Kiowa, Comanche, Sioux, Nez Percé, and Bannock Indians, and, in 1886, after a long and difficult campaign, Miles compelled the surrender of the Apaches under Geronimo and Natchez.

The heart-shaped shield^[12] is surrounded by a rolled edge made of copper which originally had a gold wash. Inscribed on the inside of the rolled edge are the names “New Mexico,” “Kansas,” “Wyoming,” “Montana,” “Dakota,” “Colorado,” “Indian Territory,” and “Texas.” A profile portrait of General Miles, in relief, is suspended from an eagle’s beak in the center,

and below are the crossed weapons of the U.S. Army and the Indians surmounted by a peace pipe.

The background of the shield is silver with etched scenes depicting incidents of the career of General Miles in the states named. The scenes depicted are of a buffalo hunt, a covered wagon on the trail, wild horses with Indian tepees in the background, an Army council of war, General Miles receiving the surrender of Chief Joseph of the Nez Percé Indians, and a peaceful agricultural scene.

The plaque is inscribed as follows:

Presented to General Nelson A. Miles, U.S. Army, by the officers of the fifth U.S. Infantry.
As a token of personal esteem and their estimate of his distinguished services in which
unequaled successes over savages in war were paralleled by humanity and justice towards
the thousands of Indians whom he took captive and instructed in the Arts of Civilization.

The plaque, measuring 18½ by 23 inches overall, is marked “Tiffany & Co., 6565. Makers 2, Sterling Silver, 926-1000 and Other Metals, M.”

General Miles was colonel of the 5th Infantry Regiment for so many years that a modification of his family crest was selected as the crest on the coat of arms of the regiment. The Miles family crest is an arm in armor grasping an anchor. Arrows for each Indian campaign in which the regiment took part are substituted for the anchor in the regimental crest.^[13]

Figure 10.—Silver service presented to Mrs. Abraham Lincoln when she was First Lady. Gift of Mr. Lincoln Isham. In Division of Political History. (Acc. 216335.6-.13; Smithsonian photo 44851-B.)

TO MARY TODD LINCOLN

The Museum recently received a silver service ([fig. 10](#)) that belonged to Mary Todd Lincoln. The service consists of a large oval tray, a hot-water urn on a stand with a burner, coffeepot, teapot, hot-water pot, cream pitcher, sugar urn, and waste bowl. All the pieces have an overall repoussé floral and strapwork pattern with the monogram “MTL” on one side and an engraved crest on the other. The crest seems to be an adaptation of the Todd family crest. The pieces are marked with a lion, an anchor, and an old English “G,” which are the early marks of the Gorham Silver Company. It is assumed that this silver service was a presentation gift to Mrs. Lincoln during the time she was First Lady of the White House, as a letter dated July 19, 1876, from her to her son Robert Todd Lincoln calls his attention to a silver service in his possession that was a gift to her from “the Citizens of New York.”

FOR ENGINEERING

By far the most fanciful of all the mid-19th-century pieces is the silver teakettle and stand ([fig. 11](#)) given to General Montgomery C. Meigs by the citizens of Washington for his work on the Washington Aqueduct. The kettle, 18 inches high, is mounted on a base that is 8½ inches square and 3¼ inches high. The base is made in the shape of the stone arches of the aqueduct, and the head of George Washington, in profile, is depicted on the center front. There is a depression in the top of the base for holding a small alcohol lamp. Four rocks, one on each corner of the base, provide support for the kettle. The kettle's feet, in the form of fish, rest on the rocks and are fastened to them with hinges held by a chain and silver pin. The pins can be released so that the kettle can be tilted for pouring without moving it

93

Figure 11.—Teakettle and stand given to Gen. Montgomery C. Meigs in 1853 by the citizens of Washington for his work on the Washington Aqueduct. Gift of Gen. M. C. Meigs. In Division of Political History. (Acc. 25386, cat. 5864; Smithsonian photo 57008.)

from the base. By withdrawing all four pins, the kettle can be completely detached from the base. The body of the kettle is decorated with nautical designs—waves, fish, shells, etc.—and cattails and lily pads. Under the spout is an anchor entwined with a fish over the initial “M.” A belt ornamented with stars encloses the castellated towers of the Army Engineers symbol with the letters “U,” “S,” and “E” on one side of the kettle. On the other side is the inscription:

Presented to Captain Montgomery C. Meigs U.S. Engineers by the Corporation of Washington with a Resolution of Thanks approved 12th March 1853 for his Report on the Washington Aqueduct.

The handle of the kettle is in the form of a serpent’s tail, and the spout is the serpent’s open mouth. The lid is a nautilus shell on which stands an eagle with raised wings. On one side of the base is inscribed:

Presented 9th June 1854 by John W. Maury—Mayor, Joseph Borrows of Bd Ald., A. W. Miller of Bd Com. C. Committee of the Corporation.

The piece is marked “M. W. Galt & Bro.,” a firm established in Washington in 1802 that has been in continuous business since that time.

Montgomery Cunningham Meigs graduated from the U.S. Military Academy in 1836 and was soon assigned to the Engineer Corps. Thereafter, for a quarter of a century his outstanding talents were devoted to many important engineering projects. His favorite was the construction of the Washington Aqueduct, which carried a large part of Washington’s water supply from the Great Falls of the Potomac to the city. This work, under his direction between 1852 and 1860, involved devising ingenious methods of controlling the flow and distribution of the water and also the design of a monumental bridge across the Cabin John Branch—a bridge that for 50 years was the longest masonry arch in the world. At the same time Meigs was supervising the building of wings and a new dome on the Capitol and an extension on the General Post Office Building.

During the Civil War, Meigs served as quartermaster general, and in 1864 he was brevetted major general. As quartermaster general he supervised plans for the War Department Building, 1866-1867; the National Museum Building, 1876; and an extension of the Washington Aqueduct, 1876.

After his retirement, in 1882, General Meigs became architect of the Pension Office Building. He served as a regent of the Smithsonian

Institution, was a member of the American Philosophical Society, and one of the earliest members of the National Academy of Sciences.

General Meigs himself gave the Museum this interesting piece⁹⁴ of presentation silver. He also gave the previously described tureen ([fig. 5](#)) that had belonged to Commodore John Rodgers, who was General Meigs' father-in-law.

Cyrus W. Field became interested in the idea of a cable across the Atlantic between Newfoundland and Ireland in 1854. It was not a new idea, and other shorter submarine cables had been successful, but this was the first time a transatlantic cable had been promoted by a man of Field's business ability and financial standing. Through his efforts, a governmental charter was secured and a company of prominent New Yorkers was formed to underwrite the venture. An unsuccessful attempt to lay the cable was made by the company in 1857. Field tried again in 1858; on the fourth attempt he was successful and immediately acclaimed as the "genius of the age."

Figure 12.—Gold box presented to Cyrus W. Field by the City of New York. Loan of Metropolitan Museum of Art. In Division of Political History. (Acc. 64761, cat. 26209; Smithsonian photo 57010.)

New York greeted Field with wild rejoicing, and the city authorities set September 1, 1858, as a day of celebration to give him an official public ovation. The celebration surpassed anything the city had ever before witnessed. Mr. Field and the officers of the cable fleet landed at Castle Garden and received a national salute. From there the procession progressed through crowded and gaily decorated streets to the crowd-filled Crystal Palace, where an address was given on the history of the cable. Then the mayor of New York gave an address honoring Mr. Field and presented him with a gold box stating:

The municipal government of this city instructs me to present to you a gold box with the arms of the city engraved thereon, in testimony of the fact that to you mainly, under Divine Providence, the world is indebted for the successful execution of the grandest enterprise of our day and generation; and in behalf of the Mayor, Aldermen and Commonalty of the City of New York I now request your acceptance of this token of their approbation.

The gold box ([fig. 12](#)) presented to Field by the City of New York is in the collections of the United States National Museum.^[14] It measures 4½ inches by 3 inches. On the lid and around an engraved representation of the cable fleet is inscribed:

The City of New York to Cyrus W. Field

The sides of the box are engraved with vignettes depicting the landing of the cable, the planning group at work, science and industry united, and Europe and America united. The bottom is engraved with the American eagle and the British shield. The inside lid of the box is inscribed:

The City of New York to Cyrus W. Field commemorating his skill, fortitude and perseverance in originating and completing the first enterprise for an ocean telegraph successfully accomplished Aug. 5, 1858 uniting Europe and America.

Significant of the enthusiasm with which Field was greeted in 1858 is a silver-mounted tankard, made from the wood of the Charter Oak, that was given to him in December by the workmen of Central Park. On August 18, seemingly without advance publicity or elaborate preparations, there was a parade on Broadway of the workmen of Central Park. The procession was headed by a squad of policemen in full uniform, a band, and a standard bearer with a muslin banner inscribed "The Central Park People." The men marched in squads of four, and wore their everyday work clothes with evergreens stuck in their hats. Each squad carried a banner giving the name of its boss-workman. The procession included four-horse teams drawing

wagons in which rode the workmen of the Engineers' Department. The parade was composed of 1,100 laborers and 800 carts from Central Park and 700 laborers and carts from the new Croton Reservoir, making a procession three miles long. Since it was altogether unexpected, it created no little excitement and inquiry.

[15]

The tankard ([fig. 13](#)) has a silver spout inscribed:

The Oak of this Tankard is a part of the tree in which was preserved the Charter of the Liberties of the People of Connecticut during a temporary success of tyranny A.D. 1687.

There is a silver shield on the left side with the monogram "C. W. F." and a silver shield on the right inscribed:

The men, working in the Central Park Augst 17th 1858 Present this tankard to Cyrus W. Field, as an expression of their respect, for the untiring labor which on that Day resulted in proving the practicability of Trans-Atlantic Communication, by the Electric Telegraph.

The knob on the lid is made of silver and is decorated with an anchor and a rope in silver. No maker's mark is discernible.

While the public adulation was at its peak the cable suddenly stopped working. Immediately public opinion changed and Field was accused of being a fake. He suffered severe business reverses and in 1860 went into bankruptcy. The outbreak of the Civil War prevented any further activity on the cable until 1865. Field engaged the world's largest steamer, the *Great Eastern*, to make the next attempt. The cable of 1865 parted in midocean during the laying operations, but in 1866 experience and technical

Figure 13.—Silver-mounted tankard presented to Cyrus W. Field by the workmen of Central Park, New York City. Loan of Metropolitan Museum of Art. In Division of Political History. (Acc. 64761, cat. 26209; Smithsonian photo 45992-H.)

improvements won the fight. The cable was laid and this time it continued to operate.

Again Field was the darling of the American people and he was greeted with enthusiasm. Immediately on his return to New York in 1866 he sold enough of his cable stock to enable him early in November to write to those who had been hurt by his bankruptcy in 1860 and send to each the full amount of his indebtedness with 7 percent interest. The full amount paid out reached about \$200,000. For this action George Peabody of New York City gave Field a silver service.

The silver cake basket^[16] from this service is in the United States National Museum. The shallow basket is on a pedestal with handles on each side. The inside of the basket is gilded. Inscribed on a plaque on one side is:

George Peabody to Cyrus W. Field in testimony and commemoration of an act of very high
Commercial integrity and honor, New York, 24 Nov. 1866.

The inside of the foot of the basket is marked with the lion, anchor, and “G” of the Gorham Silver Company.

Field continued to be active in many business enterprises but the last years of his life were again beset with severe financial difficulties. He and his wife celebrated their golden wedding anniversary in 1890, and in honor of this occasion their children presented them with a silver gilt vase.^[17] The vase contains a portion of the first Atlantic cable mounted in the base, a part of the steamship *Great Eastern*, by which the cable was laid, and the inscribed names of all the Field’s children and grandchildren. It is marked “Tiffany & Co. Sterling Silver, M.”

FOR DIPLOMACY AND LEGISLATION

In January 1861, Dr. Samuel Lilly, physician, politician, and judge, was sent to British India as consul general from the United States. Dr. Lilly had been elected a representative to the 33d Congress as a Whig, and he served from 1853 to 1855. He also served as a judge of various lower courts in New Jersey. On his appointment as consul general he was given a silver goblet^[18] 8 inches tall and 4¼ inches in diameter, having an embossed design of fruits, nuts, and flowers. On the goblet is inscribed:

A Testimonial of Respect and Esteem Presented to Hon. Samuel Lilly by a few of his Fellow Citizens without distinction of Party; on the eve of his departure for Calcutta as Consul-General to British India January 29, 1861.

The inside of the stem is marked with the lion, anchor, and “G” of the Gorham Silver Company, the word “coin,” and the figure “8.”

When Dr. Lilly left India in 1862 he was given a silver pitcher and a silver tray.^[19] The pitcher (13 inches high and 7½ inches in diameter) has a tall, slender neck with a decided downturn to the pouring lip and a hinged lid with a thistle flower as a knob. The neck is engraved on each side with a design of grape leaves and grapes. The bowl of the pitcher has eight panels embossed with scrolls of vines and flowers. Both the tray and the pitcher are marked “Allen and Hayes.” One side is engraved:

To the Hon. Samuel Lilly, M.D.

The other side is engraved:

By the American Merchants in Calcutta July 1862.

The silver tray (18 inches in diameter) has a scroll-leaf and flower design in relief around the edge. The scroll-leaf design is repeated on the surface. The tray is inscribed as follows:

Presented to the Hon. Samuel Lilly M.D. by the American Merchants Resident in Calcutta as a token of regard and acknowledgment of the creditable manner with which he has upheld the dignity of the office and executed the duties appertaining to the post of Consul-General of the United States of America in British India, Calcutta, July 4th, 1862.

American interest in European affairs, considerably increased by the middle of the century, is also reflected in the collection. In 1866 the life of the Czar of Russia was saved from a Nihilist's bullet by the brave action of one of the serfs who had recently been emancipated by royal decree. Czar Alexander II was well liked by his own people and was regarded as an enlightened ruler by the other nations of the West. He was especially respected in the United States because of the open support he gave to the Union side during the Civil War. His escape from death was a cause for official rejoicing in this country, and the Congress of the United States passed a resolution of congratulations on the deliverance of the life of the

Czar and commissioned Gustavus Vasa Fox, Assistant Secretary of the Navy, to deliver it to the Czar. Fox set out for Europe in one of the newly designed Monitor ships that had proved so effective in naval fighting during the Civil War. His Monitor was escorted by other ships of the fleet with a large delegation of naval officers. The party was greeted by the Russians with great acclaim, and it was showered with gifts and honors. Many of the interesting items given to Fox personally were bequeathed to the United States National Museum by his widow, Mrs. V. L. W. Fox (accession 50021, Division of Political History). Among these objects are a silver tray ([fig. 14](#)), a silver saltcellar in the shape of a chair ([fig. 14](#)), and a gold snuffbox.

Figure 14.—Tray and saltcellar in shape of chair that were among items presented to Gustavus Vasa Fox on his visit to Russia in 1866. The tray measures $24 \times 15 \times 1\frac{1}{2}$ inches, and the saltcellar is $3\frac{5}{8}$ inches high, $4\frac{9}{10}$ inches long, and $2\frac{3}{4}$ inches wide. They were made by Sazkoff, St. Petersburg, 1863. Bequest of Mrs. V. L. W. Fox. In Division of Political History. (Acc. 50021, cats. 11267, 11263; Smithsonian photos 45602-A, 45602-H.)

The tray and saltcellar were presented to Fox on the estate of Prince Galitzine, one of the wealthiest members of the Russian nobility. These two items bear the marks of a Russian maker and are engraved “July 5, 1864,” which date marked the coming-of-age of the Prince. On August 26, shortly after the American delegation arrived in Russia, Fox and his party drove to the beautiful Galitzine estate, about 12 miles from Moscow. The members of the party were met by the Prince and went with him to a part of the park where a deputation of peasants awaited them. Leader of the peasant group was the mayor of the neighboring village, an emancipated serf, who

presented Fox with bread and salt—traditional symbols of Russian hospitality—on a silver salver and said:

We wish to tell the envoy that we are come to congratulate him on his arrival, and to present him with bread and salt and also to say that we love him, and that we shall remember the love of his people for our country and our sovereign.^[20]

Two days later, on August 28, Fox met Prince Gortchakoff by appointment at the foreign office. After various complimentary allusions to the manner in which Mr. Fox had performed the delicate duties entrusted to him by his government, the Prince, in the name of the Emperor, presented a gold snuffbox set with diamonds.^[21] The box, exquisitely chased, had the Emperor's miniature on the top surrounded by 26 diamonds. Six larger diamonds were set three on each side at equal distances from the inner circle. The Emperor was pictured in full military uniform with various orders on his breast.^[22] The snuffbox minus its decorations is part of the Gustavus Vasa Fox collection in the Museum. The precious stones on the lid and the miniature in the center were bequeathed by Mrs. Fox to various members of the family when the box (cat. 11268) was willed to the Museum.

A large and elaborate silver vase was presented by the members of the U.S. Life-Saving Service to Mrs. Samuel S. Cox in honor of the outstanding work of her husband, who as a congressman supported various bills for the improvement of the Service. Mr. Cox served as Congressman for 20 years, first from Ohio and later from New York State. He died in New York City in 1889. Two years later General Superintendent S. I. Kimball, in behalf of a committee representing the Service, presented the vase to Mrs. Cox. The ceremony took place at Mrs. Cox's home in Washington on December 12, 1891, in the presence of a gathering of relatives and friends.

The vase^[23] is 2 feet tall and 2 feet 1 inch in diameter; it weighs almost 8 pounds. Its design was selected by a subcommittee appointed by the Life-Saving Service, and the job was awarded to the Gorham Silver Company. The chasing is entirely the work of one man. The base of the vase has a design of clusters of acorns and oak leaves, and above these are dolphins sporting in billowing waves. The body of the vase begins with wide flutings

between the tops of which are shells and seaweed. These are surrounded by a ring of marine cable. On the front, a scene represents the lifesavers at work. In perspective some distance out, where the sea rises in mountainous waves, there is a wrecked vessel, and in the foreground lifesavers are carrying the rescued to the beach. The ornamentation that covers the top of the body of the vase consists of a cable net in which are starfish, seaweed, and other marine flora and fauna. A ledge formed by a ship's chain surmounts the net, and above this is a profile of Mr. Cox circled with laurel. A lifebuoy crossed with a boat hook and oar ornaments the other side. Handles at the sides are two mermaids who with bowed heads and curved bodies hold in their upraised hands sea plants growing from the side of the top of the vase. The mermaids are the only portion of the ornamentation that was cast.

The vase is inscribed as follows:

This Memorial Vase is presented to *Mrs. Samuel S. Cox* by the members of *The Life-Saving Service of the United States* in Grateful Remembrance of the tireless and successful efforts of her Distinguished husband *The Honorable Samuel Sullivan Cox* to promote the interests and advance the efficiency and glory of the Life-Saving Service.

He was its early and constant friend; Its earnest and eloquent advocate; Its fearless and faithful Champion.

I have spent the best part of my life in the public service; most of it has been like writing in water. The reminiscences of party wrangling and political strife seem to me like nebulae of the past, without form and almost void. But what little I have accomplished in connection with this Life-Saving Service is compensation "sweeter than the honey in the honeycomb."

It is its own exceeding great reward.^[24]

Tangible evidence of the increased role that the United States was beginning to play in international affairs is a silver pitcher and salver^[25] presented to Judge George S. Batcheller in appreciation of his services as president of the International Postal Congress, which was held in Washington, D.C., in 1897. Judge Batcheller's international career began when President Ulysses Grant appointed him as the U.S. judge in the newly created International Tribunal for legal administration of Egypt. The Tribunal had jurisdiction in cases between foreigners of different nationalities and also in cases of foreigners versus Egyptians. Batcheller

later served as minister to Portugal and then as manager of European interests for various American companies.

The International Postal Congress presented Judge Batcheller, its presiding officer, with a handsome urn-shaped pitcher with the following inscription engraved on the center front:

Le Congrès postal de Washington à son Président le Général George S. Batcheller Juin
1897.

The pitcher, 14¼ inches high, is marked inside the base “Galt & Bros., Sterling, 925—0—1879, 277, 7½ pts.” The “925” is circled, and the date is boxed. Accompanying the pitcher is a silver tray with the monogram “G S B” in script in the center. The tray is marked on the back with an eagle in a circle to the left, an “A” in a shield in the center, and a hammer and sickle in a circle to the right (an unidentified mark).

20th-Century Pieces

FOR SERVICE IN THE SPANISH-AMERICAN WAR

One of the most controversial figures of the Spanish-American War is represented in the Museum's collection of some of the silver that was presented to Rear Admiral Winfield Scott Schley.^[26] Schley became a national hero primarily because of his genial personality, and he was acclaimed and supported by the masses of the American public even while his claims to fame were being challenged by his colleagues.

Admiral Schley had already had a long and illustrious naval career before the outbreak of the war with Spain. After his graduation from the Naval Academy in 1860, he served on board the frigate *Niagara* when it was detailed to bring to the United States the first representatives from Japan to this country. As a junior naval officer he took part in the Civil War engagements leading up to the capture of Port Hudson. Then followed a period with sea duty and alternate posts ashore at the Naval Academy and elsewhere. During this period he took part in the capture of some Korean forts in 1871, and later he commanded the relief expedition that rescued the Arctic explorer Lieutenant Adolphus W. Greeley and six of his companions near Cape Sabine, when they were near death, and brought them safely home after a perilous voyage through 1,400 miles of ice.

The controversial period of Schley's career began with his appointment to command the Flying Squadron, stationed at Hampton Roads at the opening of the Spanish-American War, with the arrangement that should his squadron operate with the Atlantic Squadron in the West Indies, he would be under its senior officer, William T. Sampson. Since Sampson was junior to Schley in rank, this led to the famous Sampson-Schley controversy of the war. Despite his orders to blockade Santiago immediately, Schley took his time getting there with his squadron, and then he failed to establish a close blockade. During the month-long blockade in which the two squadrons were joined, matters were strained between the commands. Sampson was in

conference about seven miles east of Santiago when the Spanish fleet finally emerged from the harbor. Schley immediately seized full command of the battle despite Sampson's proximity and his prompt return to action.

The press, probably influenced by his likable personality, made a hero of Schley, but his fellow naval officers felt differently. A court of inquiry held in 1901 found Schley to be at fault, but despite this decision he retained his public popularity, a tribute to his affability and bluff, hearty manner.

The many pieces in the Museum's collection of presentation silver given to Schley not only attest the recipient's popularity but seem to express the poor taste, debased design, and stereotyped workmanship that was characteristic at the beginning of the 20th century.

Not just one presentation piece but an entire silver service was made from Spanish coins recovered from the *Cristóbal Colón* that was sunk at Santiago. The original service consisted of 69 pieces, of which the Museum has the table centerpiece, soup tureen and ladle, fish platter, and a vegetable dish (cat. 39554).

The centerpiece, measuring 14 by 30 by 8 inches, is designed with a circular base holding four classical female figures. On each side of the base is a shallow silver dish shaped like a seashell and supported by dolphins. A shield on one side of the base bears the following inscription:

This service made of Spanish coins recovered from the *Cristobal Colon* sunk in the battle off Santiago de Cuba July 3, 1898 is presented to Rear Admiral Winfield Scott Schley by his friends in loving appreciation of his heroic services to his country.

An eagle ornaments the opposite side of the base.

The covered oval soup tureen (7 inches by 13¼ inches; cat. 39555) bears the same inscription as the centerpiece and is marked "S. Kirk & Son Co." The cover, monogrammed "W S S," has a rather effective design of overlapped laurel leaves with clusters of berries. The ladle (14 inches long; cat. 39556) is monogrammed "W S S" on the bowl (4 inches in diameter), and it has the same design as the tureen.

The fish platter (25 inches by 13 inches; cat. 39557) is similar to the tureen in design. The oval vegetable dish (11 inches by 15¼ inches; cat. 39558) is also similar and is inscribed the same way, including the mark of "S. Kirk & Son Co."

An elaborate silver centerpiece given to Admiral Schley in Memphis, Tennessee, in 1902 consists of a bowl, vase, and candelabra made to be fitted into one unit ([fig. 15](#)). The large bowl (20 inches by 6 inches) is chased in marine designs and bears the following inscriptions:

Presented to Winfield Scott Schley, Admiral U.S.N. in recognition of his services in destroying the Spanish Fleet off Santiago de Cuba, July 3, 1898.

Twenty-thousand American citizens join in honoring valor, fidelity to duty and a lofty generosity that exemplified the sublimest manhood. Memphis, Tennessee, April 28, 1902.

There is glory enough for All.

The silver vase (32 inches high) is made to fit into the bowl, and it has a portrait of Admiral Schley on one side and a picture of his flagship, the *Brooklyn*, on the other. Each end of the bowl is fitted with a socket to hold a three-branch silver candelabra, and there are two solid blocks of silver for insertion in the sockets when the candelabra are not being used. These pieces are marked “Sterling” but no maker’s mark is visible.

A silver card (cat. 39518), measuring 3¼ inches by 5½ inches, that was presented to Schley at a dinner given in his honor is engraved as follows:

Rear Admiral Winfield Scott Schley, U.S.N. The Commercial club of Kansas City, Mo., November 19, 1902.

The turn of the century marks the beginning of the popularity of loving cups as presentation pieces. There are four loving cups in the Admiral Schley collection.

The earliest of these cups bears the following inscription:

Presented to Rear Admiral W. S. Schley by the citizens of Atlanta Georgia, November 4, 1899.

This cup (cat. 39571), 9 inches in diameter and 14½ inches in depth, is shaped like a vase and is decorated with a scroll design. Each of its three handles is attached to the cup with two applied silver oak leaves. The piece is marked “Maier & Berkley, Atlanta, Georgia, Sterling, 385,16.”

Figure 15.—Centerpiece given to Adm. Winfield Scott Schley in Memphis, Tennessee, for his services in Cuba during the Spanish-American War. Part of the Schley collection, gift of Mrs. R. S. Wortley. In Division of Naval History. (Acc. 136891, cat. 39548; Smithsonian photo 45992-G.)

Another silver cup with three handles was presented to Schley on February 5, 1902, by the Chamber of Commerce and the citizens of Knoxville, Tennessee, in recognition of his services during the Spanish-American War. This cup (cat. 39573) has the mark of the Gorham Silver Company and the words “Sterling, A 2219, 6 pints.”

The silver loving cup given to Admiral Schley by the City of Dallas reflects the exuberance of the Texas donors as well as the taste of the turn of the century. It bears the following inscription:

Presented to Winfield Scott Schley, Rear Admiral, U.S.N. A token of the Affectionate Regard and Grateful Appreciation of the City of Dallas, Texas, For His Illustrious Achievements in the Service of our Country, October 20, 1902.

This cup (cat. 39572) measures 8 inches in diameter and 21 inches in depth. The three handles terminate in eagles’ heads. The design pictures a battleship in gold identified as the “U.S.S. Oregon,” a head and laurel wreath with the words “U.S.S. Brooklyn,” and an eagle and a star in a wreath for the “U.S.S. Texas.” The base of the cup is decorated with three

Texas longhorns with an anchor and shield. It bears the marks of the Gorham Silver Company.

The fourth loving cup (cat. 39538) is made of vanadium steel rather than of silver. This too is a three-handled cup. It measures 7 inches in diameter and 12½ inches in depth and is decorated with the emblem of the Masonic Order of the Mystic Shrine and the following inscriptions:

Presented to Noble Winfield Scott Schley by Syria Temple, A.A.O.N.M.S. November 20, 1909.

Syria

Pittsburgh, Pennsylvania

The war with Spain is further commemorated by a silver loving cup^[27] presented to Rear Admiral Charles D. Sigsbee, U.S.N. Sigsbee, commissioned captain in 1897, was in command of the battleship *Maine* when she blew up in Havana harbor in 1898. A naval court of inquiry exonerated Sigsbee, his officers, and crew from all blame for the disaster; and the temperate judicious dispatches from Sigsbee at the time did much to temper the popular demand for immediate reprisal.

The cup bears the following inscription:

The Commercial Club of St. Paul Minn. Sends Greetings to Capt. Charles Dwight Sigsbee who as Commander of the Auxiliary Cruiser St. Paul had a brilliant share in the Naval Exploits of the Spanish War of 1898.

May you live long and prosper.

Marks on the cup are those of the Gorham Silver Company and the words “Sterling,” “Patented,” and “5 pts.”

Admiral Sigsbee achieved greater distinction for his services as a scientist than as a naval hero. An outstanding hydrographer, he made a deep-sea survey of the Gulf of Mexico, and from 1893 to 1897 he was chief of the Navy’s hydrographic office.

FOR ARCTIC EXPLORATION

In the midst of the myriad of soldiers, sailors, and politicians who have been presented with silver through the past two centuries, we find an arctic explorer being given similar recognition at the beginning of this century. Rear Admiral Robert E. Peary was the first man to reach the North Pole, and the United States National Museum has a collection of silver presented to him in recognition of this achievement.

Peary became interested in arctic exploration as early as 1886 and discovered he had an aptitude for its grueling demands on several minor expeditions to Greenland and the arctic ice cap. In 1893 he became determined to reach the North Pole, and he spent the next 15 years in unsuccessful attempts to achieve his ambition. In 1908 Peary left on another polar expedition; after a hazardous trip, he reached his goal on April 6, 1909. His victory seemed a hollow one because of the claim of a rival explorer that was finally proven spurious. In October a committee of experts appointed by the National Geographic Society supported Peary's claims, and in 1911 he was tendered the thanks of Congress. Admiral Peary's work as an explorer had immense scientific value, as he developed a highly efficient method of exploration which has continued to be used advantageously.

Three loving cups and a replica of a ship in silver^[28] that were presented to Peary are in the collections of the United States National Museum. Two of the cups were gifts to Peary from cities in his home state of Maine. One loving cup (cat. 12186), 10 inches high, is marked with the old English "T" of Tiffany & Company, "7072," and "5 pts." It is inscribed:

To Commodore Robert Edwin Peary, U.S.N. in recognition of his remarkable achievement in placing the flag of the United States at the North Pole, April 6, 1909. Presented September 23, 1909 by the City of Bangor, Me.

The other loving cup from Maine (cat. 12187) is 12 inches deep and bears the Tiffany "T," "7056," "Sterling," and "5½ pts." The inscription reads:

Presented by the citizens of Portland, and South Portland, Maine, To Commodore Robert Edwin Peary, U.S.N. September 23, 1909 in recognition of his achievement in nailing the stars and stripes to the North Pole.

The third loving cup (cat. 12188) is 18 inches high and is marked with the lion, anchor, and "G" of the Gorham Silver Company and with "Sterling," "332A," "7 pints," and "D. Kappa Epsilon." The inscription reads:

Presented to Commodore Robert Edwin Peary, U.S.N. by the Delta Kappa Epsilon Association of New York City, December 18, 1909.

In 1910 the Royal Scottish Geographic Society presented Admiral Peary with a silver replica of a ship ([fig. 1](#)) of the type used by Henry Hudson, John Davis, and William Baffin in their explorations for the Northwest Passage. The replica, representing a ship under full sail, is 24 inches high and 20 inches long. The foresail bears a long inscription in Latin likening Peary to other early arctic explorers. The marks indicate the piece was made in Great Britain.

Also in the Museum's collection is a silver plaque^[29] presented to Peary by the Circumnavigator's Club in New York. It bears the mark of Tiffany & Company and is inscribed:

Circumnavigator's Club Presented to the Immortal Navigator Peary on the Occasion of his presence as guest of honor at our Annual dinner held at Delmonico's New York City, the Eleventh of December, 1913. Officers: President W. Tyre Stevens, 1st V. P. Wilson D. Lyon, 2nd V. P. W. D. Oelbermann, Treasurer, F. C. Schulze, Sec. F. W. Hilgar, Gov. E. H. Paterson, J. H. Burch Jr., George L. Carlisle, W. G. Paschoff, C. A. Haslett, William H. Zinn.

The bottom edge of the plaque is engraved "Tiffany & Co. Makers" and "18417 Sterling Silver."

FOR SERVICE DURING WORLD WAR I

Of all the silver pieces in the collections of the National Museum that commemorate military prowess, the sole piece relating to World War I was presented to a man who achieved fame for his humanitarian service as a diplomat—the Honorable Brand Whitlock, who was appointed American Minister to Belgium in 1913. Whitlock came to the position with a distinguished record as four-time mayor of Toledo, Ohio, where his administration was noted for its reforms. He had insisted on a fair deal for the working man; he liberalized the administration of justice; he kept the city government free of graft; and he won a battle against the power of vested interests in the city.

After the invasion of Belgium in World War I, Whitlock remained at his post where he performed many services for the oppressed citizens. His presence in Brussels facilitated for both friend and foe the enormous task of

organizing the distribution of food among the civilian population of Belgium and the occupied zone of France. In 1916 he chose to follow the Belgian Government into exile. His activities won him the lifelong affection and admiration of the people of Belgium, and after the war they showered him with evidences of

Figure 16.—Cup presented to the Honorable Brand Whitlock by the British Government. Gift of Mrs. Brand Whitlock. In Division of Political History. (Acc. 137815, cat. 40028; Smithsonian photo 45992-E.)

their esteem. Among the many presentation medals, documents, and miscellaneous gifts that he received is a silver loving cup ([fig. 16](#)) from the British Government. On one side the cup bears the British coat of arms, and on the other side is inscribed:

Presented to Brand Whitlock by his Britannic Majesty's Government, 11 November 1918.

The base is marked "C & Co.," "130 Regent St., Carrington and Co., London W," and "Copy of Antique Irish 1717, 66 × 13, P 6610, xy P d."

A presentation piece made of polished steel is really outside the scope of this paper, but as it has an interesting bit of diplomatic history connected

with it, it has been included in the catalogue. The object is a paperweight (fig. 17) designed by William Jennings Bryan when he was Secretary of State. The weight, in the form of a plowshare, was made from swords condemned by the War Department. Thirty of these weights were given by Secretary Bryan to the diplomats who in

Figure 17.—Paperweight identical to those presented by William Jennings Bryan to 30 diplomats who signed with him treaties for the investigation of all international disputes. Gift of William Jennings Bryan. In Division of Political History. (Acc. 57778, cat. 15307; Smithsonian photo 45992-C.)

1914 signed with him treaties providing for the investigation of all international disputes. The shaft of the plow bears the inscription:

“Nothing is final between friends”
 “Diplomacy is the art of keeping cool”

The blade is inscribed

“They shall beat their swords into plowshares”
 Isaiah 2:4

On the base is engraved:

“From William Jennings Bryan to the Smithsonian Institution, August 13, 1914”

103

TO MR. AND MRS. ROBERT TODD LINCOLN

Among the pieces of presentation silver acquired in 1960 by the Smithsonian Institution is a covered urn that was given to Mr. and Mrs. Robert Todd Lincoln by their children on the occasion of their 50th wedding anniversary.^[30] Robert Todd Lincoln, son of the President, became a prominent lawyer in Chicago and later served as president of the Pullman

Company, as Secretary of War in the cabinets of President Garfield and President Arthur, and as Minister to Great Britain under President Benjamin Harrison. The silver gilt urn has two handles, measures 13 inches from the base to the finial on the cover, and 7 inches at its widest point. Bands of ornamentation feature both the grape design and the acorn and oak-leaf design. It is inscribed:

Robert Todd Lincoln—Mary Harlan 1868-1918

The gilt wash, although almost completely polished off the outside surface, still covers the inside of the urn and its lid.

TO CONGRESSMEN

A silver tureen and tray^[31] were given to the Honorable James R. Mann, Republican leader of the House of Representatives, by the members of the House in 1919. Mann was elected a Representative from Illinois in 1897, and he remained a member of Congress until his death in 1922. In 1912 he became minority leader. In addition to the Mann Act, his name is associated with other important legislation of the period such as the Pure Food and Drugs Act and the Woman Suffrage Amendment.

The tray, which holds the tureen, is inscribed:

James R. Mann Republican Leader from House Members of the 65th Congress, March 3rd, 1919.

It is marked on the back with “W. Sterling, 4086—16 in.” The initial represents the Wallace Silver Company.

The oval tureen is on a pedestal base. There is a scroll design around the edge of the base, the edge of the bowl, and the opening of the bowl. The piece measures 14 inches from handle to handle, is 10 inches high, and has the initials “J R M” in old English letters engraved on the side.

In the Museum’s collection is a loving cup of Chinese design that was presented by the Chamber of Commerce, Peking, China, to a party of American Congressmen on a tour of China and Japan in 1920.^[32] The

height of the cup is $17\frac{5}{8}$ inches, and its width, including the two large handles, is $15\frac{5}{16}$ inches. The piece is mounted on a papier-mâché base that is covered with silk. The engraved Chinese characters translate as follows:

Commemorating the welcome of Congressmen from Great America traveling in China

Respectfully presented by members of the Chinese Diet

May the spring of your well-being be as vast as the ocean.

104

TO SUFFRAGETTES

Among the significant social changes that occurred in the 19th century was the movement for woman suffrage that began about the middle of the century as a concerted action by a nucleus of determined women. The crusade gained strength and numbers during the second half of the century, and finally achieved success with the ratification of the Suffrage Amendment in 1920. Many women worked in this cause, and the pieces of presentation silver in the National Museum's Woman Suffrage Collection constitute a record of the most important leaders.

Chief spokesman of the movement and its leader for many years was Elizabeth Cady Stanton of New York State. She was instrumental in calling the first Woman's Rights Convention in Seneca Falls, New York, in 1848, and she served as president of the National Woman Suffrage Association from its beginning in 1869 and as president of the National American Woman Suffrage Association from 1890 to 1891. She continued to be an active worker in the movement until her death in 1902, writing and editing many works on suffrage in addition to her administrative work.

On the occasion of her 80th birthday in 1895, Mrs. Stanton was presented with a silver tray^[33] (8 inches wide and $1\frac{1}{2}$ inches deep) that is inscribed:

From the Ladies of Seneca Falls, 1848-1895.

This tray, presented at a meeting at the Metropolitan Opera House in New York City, bears on the back a "W" in a circle, a two-headed lion in a rectangle (probably an early mark of the Wallace Silver Company), the word "Sterling," and the number "2048."

On the same occasion Mrs. Stanton was presented a silver loving cup^[34] that is inscribed:

1815-1895 Presented to Elizabeth Cady Stanton by the New York City Woman Suffrage League, November 12, 1895. Defeated day by day but unto victory born.

The cup, 4½ inches in diameter and 7¾ inches deep, is marked on the bottom with the Wallace “W,” similar to the mark on the tray, and “Sterling, 3798, 4½ pints, 925/100 fine, Pat 1892.”

Figure 18.—Cup given to Susan B. Anthony by the Colorado Equal Suffrage Association. Gift of National American Woman Suffrage Association. In Division of Political History. (Acc. 64601, cat. 26163; Smithsonian photo 45992-J.)

The life story of Susan B. Anthony is a record of 60 years of devotion and work for the enfranchisement of women. An organizer and director of countless suffrage activities, she was tireless in conducting campaigns for woman suffrage. She is the one individual who has become so identified with the fight for woman suffrage that, more than any other, her name has become synonymous with that term. During her lifetime she worked in almost every capacity in the organized movement. She became president of the National American Woman Suffrage Association in 1892 and served until her 80th birthday in 1900. On that occasion the Colorado Equal Suffrage Association presented her with a miniature, three-handled loving cup that stands only 3¾ inches high ([fig. 18](#)). In one section of the cup there is engraved the word “Colorado” and the state’s coat of arms; in an adjoining section is an engraving of the state flower; and in the third section is the following inscription:

Colorado Equal Suffrage Association to Susan B. Anthony on her 80th Birthday 1900.

The cup is marked on the bottom “Sterling, 590, A. J. Stark & Co., Denver.”

She was also given a silver-plated teakettle^[35] by the Political Equality Club of Rochester, New York. The stand is 3½ inches high, and the teapot is 5¼ inches high. Engraved around the top of the teapot is:

Susan B. Anthony 1820-1893.

The stand is marked “Mfd. & Plated Reed & Barton” and “65.”

The chosen leader of the Woman Suffrage Movement after 1900 was Mrs. Carrie Chapman Catt, a vigorous organizer and campaigner who led the drive for the constitutional amendment that was finally ratified in 1920. Mrs. Catt founded the International Woman Suffrage Alliance in 1902 and served as its president until 1923. Her late years were devoted to the cause of international peace and disarmament.

Mrs. Catt was the prime mover in calling the first international conference on suffrage, which, in 1902, welcomed representatives from nine foreign nations—Great Britain, Germany, Norway, Sweden, Denmark, Turkey, Russia, Australia, and Chile. The delegates were honored guests at the National Suffrage Convention then in session in Washington where they also attended two congressional hearings on suffrage and were received by President Theodore Roosevelt at the White House.^[36] Mrs. Catt was given a silver tray^[37] inscribed:

To Carrie Chapman Catt from the foreign delegates to the First International Suffrage Conference, Washington, D.C., Feb. 12-18, 1902.

The back of the tray is marked “Galt & Bro. Sterling, 386.” The Galt silver firm is in Washington, D.C.

The campaign for the first referendum in the state of New York on woman suffrage was considered to be the most decisive of all the state fights. New York was divided into 12 campaign districts working under Mrs. Catt. The campaign was most vigorously waged, but the referendum was defeated.^[38] After the New York campaign Mrs. Catt received a silver gilt tray^[39] inscribed:

Honorable Carrie Chapman Catt from Katherine Howard Notman

Eleventh Assembly District Campaign Chairman, 1915

The right of the citizens of the United States to vote shall not be denied or abridged by the United States or by any state on account of sex.

The tray is marked on the reverse “Tiffany and Co., 18154, Makers 811, Sterling Silver, 925/1000/M.”

Mrs. Catt had started the suffrage movement in the Philippine Islands when she visited there in 1912 and organized the first suffrage club in Manila. In 1937 the Philippine legislature submitted the question of votes for women to the women of the Islands themselves. The campaign committee working out of Manila sent native women campaigners throughout the Islands to be sure all races and religions were represented in the vote. Mrs. Catt raised money in this country and sent it to the campaign committee to help with the fight.^[40] Over half a million Philippine women voted favorably on the question, and several months later Mrs. Catt was presented with a silver plaque, mounted on native woods, that is now in the Museum’s collection.^[41] It is inscribed:

In grateful acknowledgement of the moral and financial aid given by the women of ¹⁰⁶ America through Carrie Chapman Catt to the women of the Philippines through the International Federation of Women’s Clubs in their struggles for their political rights culminating in ultimate victory in April, 1937.

Figure 19.—Belt given to H. W. Higham as the winner of a 6-day bicycle race at Glasgow, Scotland. Gift of Mr. H. W. Higham. In Division of Transportation. (Acc. 168449, cat. 313867; Smithsonian photo 45992-F.)

FOR SPORTS EVENTS

The earliest of the sports trophies in the collection is an ornate belt ([fig. 19](#)) made of blue velvet upon which are mounted five engraved silver plates connected by silver straps. On the center plate is the inscription:

6 Days Bicycle Champion Belt of Scotland Won by H. W. Higham Nottingham 19th June
1880 Contested at Glasgow

One of the two adjoining smaller plates has an engraving of a man riding a high-wheeled bicycle, and the other has an engraving of a man standing beside a similar bicycle. The two outer plates are engraved with Scottish coats of arms. The belt is 34½ inches long and 3 inches wide.

Trophies were awarded for competition among the various makes of cars almost as early as the advent of the automobile itself. The earliest such trophy in the Museum's collection is a three-handled, cut-glass cup^[42] with a wide silver rim on which is engraved:

Automobile Club of New Jersey.
Eagle Rock Hill Climbing Contest.
First Prize Nov. 5, 1901.

The prize was won by Charles E. Duryea who drove an automobile of his own manufacture.

Most important of the automobile trophies was the Vanderbilt Cup ([fig. 20](#)) for racing, which was established by William K. Vanderbilt, Jr., in 1904 to bring the best cars of foreign make to the United

States so that domestic manufacturers could observe them. It is believed that the trophy contributed in this way to the rapid development of the automobile in the United States. The Vanderbilt Cup races were held

Figure 20.—The Vanderbilt Cup, an annual award for automobile races in the early 20th century. Gift of William K. Vanderbilt, Jr. In Division of Transportation. (Acc. 131820, cat. 310894; Smithsonian photo 45992-B.)

annually in the United States under the auspices of the American Automobile Association.

The silver cup, measuring 23 inches high and 20 inches in diameter and weighing about 40 pounds, is engraved with statistics of the various races—such as dates, winners, types of cars, distances, and times.^[43] There is a wreath around the brim, and the front is decorated with a period racing car in repoussé. The inscription reads:

Challenge Cup Presented by W. K. Vanderbilt Jr. American Automobile Assn. under deed of gift to be raced for yearly by cars under 1000 kilos.

On the inside of the stem is marked “Tiffany and Co.” and “35 pints.”

Athletic trophies in the collection include eight silver and silver-plated loving cups awarded for athletic events to the crew members of various ships of the U.S. Navy.^[44] The sporting events represented include baseball and football games, canoe and cutter races, and track meets held among the fleet between 1903 and 1915.

TROWELS FOR CORNERSTONE LAYING

The National Museum also has a small collection of silver trowels used for laying cornerstones of public buildings. There is an ivory-handled trowel ([fig. 21](#)) with the inscription:

This Trowel was used by His Excellency Ulysses S. Grant. President of the United States in laying the Corner Stone of the Building erected by the Department of Public Parks for the American Museum of Natural History and presented to him by the Trustees of the Museum New York June 2nd 1874.

There are also some silver trowels in the Bishop Matthew Simpson Collection.^[45] The earliest of these is inscribed:

Presented to Bishop Simpson D.D.L.L.D. at a laying of a stone of the New Wesleyan Church, Willesden, in commemoration of the 1st Methodist OEcumenical Conference held

in London, Sept. 10, 1881.

This trowel (cat. 38199) bears the English standard marks with the initials “H. H.”

On the same trip to London Bishop Simpson received an ivory-handled silver trowel (cat. 38198) inscribed:

Presented to Bishop Simpson upon his laying the foundation stone of Clouditte Methodist Church, Dublin, 12th October, 1881.

Another silver trowel in the same collection is inscribed:

Used by Bishop Simpson at the laying of the cornerstone of the Wenonah Methodist Episcopal Church, Wenonah, New Jersey, Aug. 15, 1883, and presented to him in loving remembrance of his presence.

This trowel (cat. 38197) is marked “Coin” on the back.

The fourth trowel, given to Mrs. Simpson, is inscribed as follows:

Presented to Mrs. Bishop Matthew Simpson by the Lady Managers in loving remembrance of her laying the cornerstone of the Methodist Episcopal Orphanage, Philadelphia, Oct. 13, 1887.

The back of this trowel (cat. 38208) is marked “Sterling.”

FIRE TRUMPETS

Three fire trumpets in a collection^[46] on loan from the Insurance Company of North America are inscribed as presentation pieces. One of these is 22 inches high and has eagle-head handles and an overall repoussé design. This trumpet is engraved:

Figure 21.—Trowel used by President Ulysses S. Grant in laying the cornerstone of the Museum of Natural History, New York City. Gift of Julia Dent Grant and William H. Vanderbilt. In Division of Political History. (Acc. 18528, cat. 3004; Smithsonian photo 45992-A.)

May 1871 Retired from active service by the establishment of the Volunteer Fire Department In grateful remembrance we restore to Samuel G. Simpson his handsome gift presented by him to the Southwark Fire Co. Nov. 7, 1865.

Another trumpet is engraved with crossed ladders, pikes, and fire helmets against an overall floral design. It is 19½ inches high. The inscription reads:

Presented to Vigilant Engine Co. #6 of Paterson New Jersey at the Annual Fair of the Willis Street Baptist Church April 1879.

The inscription on the third trumpet reads simply:

Presented to Captain George W. Erb by the Ladies of St. Rose's Fair.

It has an elaborate engine-engraved design and is 21 ½ inches high.

*** END OF THE PROJECT GUTENBERG EBOOK PRESENTATION
PIECES IN THE MUSEUM OF HISTORY AND TECHNOLOGY ***

Updated editions will replace the previous one—the old editions will be renamed.

Creating the works from print editions not protected by U.S. copyright law means that no one owns a United States copyright in these works, so the Foundation (and you!) can copy and distribute it in the United States without permission and without paying copyright royalties. Special rules, set forth in the General Terms of Use part of this license, apply to copying and distributing Project Gutenberg™ electronic works to protect the PROJECT GUTENBERG™ concept and trademark. Project Gutenberg is a registered trademark, and may not be used if you charge for an eBook, except by following the terms of the trademark license, including paying royalties for use of the Project Gutenberg trademark. If you do not charge anything for copies of this eBook, complying with the trademark license is very easy. You may use this eBook for nearly any purpose such as creation of derivative works, reports, performances and research. Project Gutenberg eBooks may be modified and printed and given away—you may do practically ANYTHING in the United States with eBooks not protected by U.S. copyright law. Redistribution is subject to the trademark license, especially commercial redistribution.

START: FULL LICENSE

THE FULL PROJECT GUTENBERG™ LICENSE

PLEASE READ THIS BEFORE YOU DISTRIBUTE OR USE THIS WORK

To protect the Project Gutenberg™ mission of promoting the free distribution of electronic works, by using or distributing this work (or any other work associated in any way with the phrase “Project Gutenberg”), you agree to comply with all the terms of the Full Project Gutenberg License available with this file or online at www.gutenberg.org/license.

Section 1. General Terms of Use and Redistributing Project Gutenberg electronic works

1.A. By reading or using any part of this Project Gutenberg electronic work, you indicate that you have read, understand, agree to and accept all the terms of this license and intellectual property (trademark/copyright) agreement. If you do not agree to abide by all the terms of this agreement, you must cease using and return or destroy all copies of Project Gutenberg electronic works in your possession. If you paid a fee for obtaining a copy of or access to a Project Gutenberg electronic work and you do not agree to be bound by the terms of this agreement, you may obtain a refund from the person or entity to whom you paid the fee as set forth in paragraph 1.E.8.

1.B. “Project Gutenberg” is a registered trademark. It may only be used on or associated in any way with an electronic work by people who agree to be bound by the terms of this agreement. There are a few things that you can do with most Project Gutenberg electronic works even without complying with the full terms of this agreement. See paragraph 1.C below. There are a lot of things you can do with Project Gutenberg electronic works if you follow the terms of this agreement and help preserve free future access to Project Gutenberg electronic works. See paragraph 1.E below.

1.C. The Project Gutenberg Literary Archive Foundation (“the Foundation” or PGLAF), owns a compilation copyright in the collection of Project Gutenberg electronic works. Nearly all the individual works in the collection are in the public domain in the United States. If an individual work is unprotected by copyright law in the United States and you are

located in the United States, we do not claim a right to prevent you from copying, distributing, performing, displaying or creating derivative works based on the work as long as all references to Project Gutenberg are removed. Of course, we hope that you will support the Project Gutenberg mission of promoting free access to electronic works by freely sharing Project Gutenberg works in compliance with the terms of this agreement for keeping the Project Gutenberg name associated with the work. You can easily comply with the terms of this agreement by keeping this work in the same format with its attached full Project Gutenberg License when you share it without charge with others.

1.D. The copyright laws of the place where you are located also govern what you can do with this work. Copyright laws in most countries are in a constant state of change. If you are outside the United States, check the laws of your country in addition to the terms of this agreement before downloading, copying, displaying, performing, distributing or creating derivative works based on this work or any other Project Gutenberg work. The Foundation makes no representations concerning the copyright status of any work in any country other than the United States.

1.E. Unless you have removed all references to Project Gutenberg:

1.E.1. The following sentence, with active links to, or other immediate access to, the full Project Gutenberg License must appear prominently whenever any copy of a Project Gutenberg work (any work on which the phrase “Project Gutenberg” appears, or with which the phrase “Project Gutenberg” is associated) is accessed, displayed, performed, viewed, copied or distributed:

This eBook is for the use of anyone anywhere in the United States and most other parts of the world at no cost and with almost no restrictions whatsoever. You may copy it, give it away or re-use it under the terms of the Project Gutenberg™ License included with this eBook or online at www.gutenberg.org. If you are not located in the United States, you will have to check the laws of the country where you are located before using this eBook.

1.E.2. If an individual Project Gutenberg electronic work is derived from texts not protected by U.S. copyright law (does not contain a notice indicating that it is posted with permission of the copyright holder), the

work can be copied and distributed to anyone in the United States without paying any fees or charges. If you are redistributing or providing access to a work with the phrase “Project Gutenberg” associated with or appearing on the work, you must comply either with the requirements of paragraphs 1.E.1 through 1.E.7 or obtain permission for the use of the work and the Project Gutenberg trademark as set forth in paragraphs 1.E.8 or 1.E.9.

1.E.3. If an individual Project Gutenberg electronic work is posted with the permission of the copyright holder, your use and distribution must comply with both paragraphs 1.E.1 through 1.E.7 and any additional terms imposed by the copyright holder. Additional terms will be linked to the Project Gutenberg License for all works posted with the permission of the copyright holder found at the beginning of this work.

1.E.4. Do not unlink or detach or remove the full Project Gutenberg License terms from this work, or any files containing a part of this work or any other work associated with Project Gutenberg.

1.E.5. Do not copy, display, perform, distribute or redistribute this electronic work, or any part of this electronic work, without prominently displaying the sentence set forth in paragraph 1.E.1 with active links or immediate access to the full terms of the Project Gutenberg License.

1.E.6. You may convert to and distribute this work in any binary, compressed, marked up, nonproprietary or proprietary form, including any word processing or hypertext form. However, if you provide access to or distribute copies of a Project Gutenberg work in a format other than “Plain Vanilla ASCII” or other format used in the official version posted on the official Project Gutenberg website (www.gutenberg.org), you must, at no additional cost, fee or expense to the user, provide a copy, a means of exporting a copy, or a means of obtaining a copy upon request, of the work in its original “Plain Vanilla ASCII” or other form. Any alternate format must include the full Project Gutenberg License as specified in paragraph 1.E.1.

1.E.7. Do not charge a fee for access to, viewing, displaying, performing, copying or distributing any Project Gutenberg works unless you comply with paragraph 1.E.8 or 1.E.9.

1.E.8. You may charge a reasonable fee for copies of or providing access to or distributing Project Gutenberg electronic works provided that:

- You pay a royalty fee of 20% of the gross profits you derive from the use of Project Gutenberg works calculated using the method you already use to calculate your applicable taxes. The fee is owed to the owner of the Project Gutenberg trademark, but he has agreed to donate royalties under this paragraph to the Project Gutenberg Literary Archive Foundation. Royalty payments must be paid within 60 days following each date on which you prepare (or are legally required to prepare) your periodic tax returns. Royalty payments should be clearly marked as such and sent to the Project Gutenberg Literary Archive Foundation at the address specified in Section 4, “Information about donations to the Project Gutenberg Literary Archive Foundation.”
- You provide a full refund of any money paid by a user who notifies you in writing (or by e-mail) within 30 days of receipt that s/he does not agree to the terms of the full Project Gutenberg™ License. You must require such a user to return or destroy all copies of the works possessed in a physical medium and discontinue all use of and all access to other copies of Project Gutenberg™ works.
- You provide, in accordance with paragraph 1.F.3, a full refund of any money paid for a work or a replacement copy, if a defect in the electronic work is discovered and reported to you within 90 days of receipt of the work.
- You comply with all other terms of this agreement for free distribution of Project Gutenberg™ works.

1.E.9. If you wish to charge a fee or distribute a Project Gutenberg™ electronic work or group of works on different terms than are set forth in this agreement, you must obtain permission in writing from the Project Gutenberg Literary Archive Foundation, the manager of the Project Gutenberg™ trademark. Contact the Foundation as set forth in Section 3 below.

1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread works not protected by U.S. copyright law in creating the Project Gutenberg™ collection. Despite these efforts, Project Gutenberg™ electronic works, and the medium on which they may be stored, may contain “Defects,” such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

1.F.2. LIMITED WARRANTY, DISCLAIMER OF DAMAGES - Except for the “Right of Replacement or Refund” described in paragraph 1.F.3, the Project Gutenberg Literary Archive Foundation, the owner of the Project Gutenberg™ trademark, and any other party distributing a Project Gutenberg™ electronic work under this agreement, disclaim all liability to you for damages, costs and expenses, including legal fees. YOU AGREE THAT YOU HAVE NO REMEDIES FOR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTY OR BREACH OF CONTRACT EXCEPT THOSE PROVIDED IN PARAGRAPH 1.F.3. YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

1.F.3. LIMITED RIGHT OF REPLACEMENT OR REFUND - If you discover a defect in this electronic work within 90 days of receiving it, you can receive a refund of the money (if any) you paid for it by sending a written explanation to the person you received the work from. If you received the work on a physical medium, you must return the medium with your written explanation. The person or entity that provided you with the defective work may elect to provide a replacement copy in lieu of a refund. If you received the work electronically, the person or entity providing it to you may choose to give you a second opportunity to receive the work electronically in lieu of a refund. If the second copy is also defective, you may demand a refund in writing without further opportunities to fix the problem.

1.F.4. Except for the limited right of replacement or refund set forth in paragraph 1.F.3, this work is provided to you 'AS-IS', WITH NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of certain types of damages. If any disclaimer or limitation set forth in this agreement violates the law of the state applicable to this agreement, the agreement shall be interpreted to make the maximum disclaimer or limitation permitted by the applicable state law. The invalidity or unenforceability of any provision of this agreement shall not void the remaining provisions.

1.F.6. INDEMNITY - You agree to indemnify and hold the Foundation, the trademark owner, any agent or employee of the Foundation, anyone providing copies of Project Gutenberg™ electronic works in accordance with this agreement, and any volunteers associated with the production, promotion and distribution of Project Gutenberg™ electronic works, harmless from all liability, costs and expenses, including legal fees, that arise directly or indirectly from any of the following which you do or cause to occur: (a) distribution of this or any Project Gutenberg work, (b) alteration, modification, or additions or deletions to any Project Gutenberg work, and (c) any Defect you cause.

Section 2. Information about the Mission of Project Gutenberg

Project Gutenberg is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need are critical to reaching Project Gutenberg's goals and ensuring that the Project Gutenberg collection will remain freely available for

generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation information page at www.gutenberg.org.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non-profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Contributions to the Project Gutenberg Literary Archive Foundation are tax deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's business office is located at 41 Watchung Plaza #516, Montclair NJ 07042, USA, +1 (862) 621-9288. Email contact links and up to date contact information can be found at the Foundation's website and official page at www.gutenberg.org/contact

Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg™ depends upon and cannot survive without widespread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine-readable form accessible by the widest array of equipment including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these

requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit www.gutenberg.org/donate.

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: www.gutenberg.org/donate.

Section 5. General Information About Project Gutenberg electronic works

Professor Michael S. Hart was the originator of the Project Gutenberg concept of a library of electronic works that could be freely shared with anyone. For forty years, he produced and distributed Project Gutenberg eBooks with only a loose network of volunteer support.

Project Gutenberg eBooks are often created from several printed editions, all of which are confirmed as not protected by copyright in the U.S. unless a copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our website which has the main PG search facility: www.gutenberg.org.

This website includes information about Project Gutenberg, including how to make donations to the Project Gutenberg Literary Archive Foundation,

how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.
